Fading Frost Alicia Rades

Where do you turn when you lose a piece of yourself?

CRYSTAL FROST has known for a year that she's psychic, but a car accident leaves her sixth sense weaker than ever. When she begins sensing a ghost she can't actually see, Crystal isn't sure if she has what it takes to help. Meanwhile, her friend Derek is going through something personal, only Crystal doesn't know what's wrong. Will she be able to help this ghost cross over, help Derek find peace, and save her own life in the process?

Great Book

I just got done reading the Crystal Frost series, including a sequel short story, by the fantastic author @aliciarades . This was one of those recommended to me by Amazon, and it looked interesting. What an understatement! Rades may be one of the best new (to me) YA authors out there. Her character development and plot lines were great, and her new take on some familiar paranormal stories (psychics) really had me hooked. I finished this entire series in about 1 1/2 days; I could not stop reading, curious to see what's next.

....

This is one of the few Kindle reads that I would like to really have in physical book form. Alicia Rades is definitely one of the authors I'm expecting great things from in the future.

Actual rating - 1.5*.

I am so glad to be done with this series. The first book set up really well but I found that every following book drove me crazy. The cover is pretty though.

Crystal Frost continues her journey in the forth installment of the paranormal series. Your favorite characters from her previous stories return. Crystal fears she is losing her ability. Would it be nice to live a normal life? She ponders that, but it is clear that Crystal has come to terms with her power and wants to continue to embrace it. It is another enjoyable book in the series.

Five Stars

This book is amazing. It's different than some that I have read, but I do recommend the books before, which are good, too.

I thought the mystery aspect in this book was done a lot better than the first and second book, but was about the same as the third book (not a bad thing). I didn't like how there wasn't as much explanation for Crystal bumping her head and somehow having that cause her to lose some of her powers. I just don't get how those can connect considering in the beginning of the series her mom says anyone can be psychic if they practice and believe. I also don't like how Crystal seems to learn lessons throughout the book of not keeping secrets but then in this book she turns around and ignores everything she learns. **HOWEVER**, I do think that is very 'teenager' of her so I'll say it's okay for this case. Overall I really loved the story this one told it was very interesting and grabbed my attention.

Great Book!

Amazing book. So glad to see how much love surrounds Crystal. Was nice to get to see her dad a bit. Even faced with her own death she was brave enough to help her loved ones.

As with the rest of the books in this series I've enjoyed seeing Crystal grow and mature and this book is the best, when she has a terrifying visit she freaks at first then makes a decision to just live with it....or not. Alicia Rades has again written a fantastic and enjoyable book

We begin with Crystal Frost who seems to be in a slump about what she wants to do with her life . She wants to choose a college so she goes to the school counselor. The suggest Crystal visit her mothers college . They have a open house so she can tour it with the school. When she gets home she speaks to her mother .Her mom tells her to go on the field trip. On the way there the bus gets into a accident. All of a sudden Crystal senses a ghost, its like a blur the bus screeches and halts making Crystal fly thru the aisle and hitting head head very hard. Crystal is dazed but her senses dont feel right. When they arrive at the college ,they check Crystal out in the nurses office . Everything seems okay, except she has a bump on her head. They school group tours the college, then just before heading back home they stop in the cafeteria. On the way there Crystal see a young man standing at the enterance. He suddenly notices Crystal and he knows she can see him. Quickly she tries to ignore him. Crystal decides to board the bus, but she still feel off. Her senses are not giving her information.Walking back from school , she falls again scraping her hand. Thinking nothing of it. Crystal enters her house and tries to give herself first aide. Crystal decides to cook .it helps her relax. As she is cooking she cuts herself. Now strange things keep happening. Something is definitely not right. Crystal calls her best friend and tells her what is occurring. So they decide to make a séance. This is something only her mothers group does. Crystal tries it anyway only to make things worse, The ghost appears and it seems dark and angry. Can Crystal help this ghost ? Can she now protect her family if things don't go right. I thoroughly enjoy the book. its well written and keeps you in suspense up to the end. highly

recommended.

Quick read but well written

I couldn't put this series down. It seemed like a teen book but still hooked me. Very well written and easy to follow

I voluntarily read and reviewed a copy of Fading Frost from the author. Fading Frost is the fourth book in the Crystal Frost series and this was just a great read. This book was just so easy to get lost in and I didn't want it to end. I'm so excited to see what's next for this author.

This book is by far my favorite out of all of the Crystal Frost series. The author took this story into a whole new Paranormal level and kept me entertained, but also on the edge of my seat throughout the entire time I was turning pages. The characters were phenomenal and the story-line was incredible, unique, and awesome. It made me into a true believer of the Paranormal world. I highly recommend this awesome read to all to enjoy!!

The author provided me with a digital copy of the book for review purposes only. No remuneration was exchanged.

This was my least favorite one in the series. Crystal was told something bad was going to happen to her. So instead of turning to her friends and family for help she decided to take care of it on her own. Which means she spent a lot of time lying to everyone. Needless to say I wasn't a fan of that. I will say that I did like the ending to the series. I'm glad that I read this series.

?This is the last part of the Crystal Frost novel, and I am glad I found this on Amazon Kindle. It is my favourite series read this year so far. I have never been a big fan of a YA novel, but this is very interesting, beautiful, addictive, has lovable characters, funny and well-written.?In the previous novel, Crystal was developing new abilities every time she was helping someone. She found new friends but never stopped practising and finding out her limits with her best friend.?This part of the series is the other way around. After a car accident, it looks like her abilities are beginning to fade. She is not the same; she is becoming an average human. However, this won't help her solve any more strange problems because all she sees is a blurry ghost who is following her, and she cannot seem to make out what this ghost wants from her. Despite all her fading abilities, she is still determined to help, but how when one of her closest friends started to distance himself and became a very different person.?With all these problems going on at the same time and her mother getting pregnant, this frustrates her because she is becoming useless.?However, in the middle of trying times, the very least person she expected to help her will appear and bring a bad and good news that no one even her will have the power or abilities to change.?I would say that this novel is my least favourite in the series. It is still easy to read, but it wasn't that interesting at all even with those secrets coming out and new characters. I like it, but I wasn't enjoying it much maybe because of the plot. However, I still love the characters and how it progressed with the main character.?I do recommend this to everyone who loves psychic/witchy story.
