Fugitive Trackdown by Sandra Robbins had lots of suspense in it. Didn't look good for the good guys at times but in the end the bad guys were caught. A lot went on for this to happen. A must read.

Bree says

2.5 stars if I payed for the book. Okay, so this book was okay if you didn't pay for it. I was able to borrow this book through our local library.

- the story itself had promise and I did read to the end but it was lacking
- the main character was annoying, a librarian turned bounty hunter. I like smart independent women stories but she came across as stupid
- she also held a grudge for 7 years after kissing her friends brother
- this book is very preachy and it came across as very unnatural
- even the main male character I felt was lacking
- the one redeeming quality was that I really liked a minor character in this book. Her best friend, an ex cop turned bounty hunter. I wouldn't mind reading more about her.

Least to say I won't be reading this book again.

Those that don't mind a Christian romance novel with not much substance and not worried about how the book is written would find this book okay.

FUGITIVE TRACKDOWN

The romance novel community seems very supportive of writers and their work, which I think is fantastic. Moreover, one of the best things about the romance-novel community is that they are very active on sites like GoodReads.

However, when purchasing a romance novel or one of the Love Inspired books, it can sometimes be difficult to figure out which ones are worth one's time/money and which are not. If we, as a romance-reading community, are honest, not every novel in this genre is good, and some are extremely poorly written. In my experience, it can be difficult to determine which novels are worth buying and/or reading because all of them seem to have such fantastic reviews and most of them have very short circulation lives.

I honestly take no joy in writing a negative review because I know, especially in this community, that there is a good chance the author will read the review. And I don't want to hurt anyone's feelings. However, I also don't want to feel like I wasted my money on something that is difficult to read or poorly written.

And, frankly, I found Fugitive Trackdown to be a tough read. After forty-nine (49) pages, I am putting it down and moving on.

Here are some of the things that distracted me from enjoying the story:

1. What in the world?

In the first chapter, the female protagonist gets injured. And then she does some rather inconsistent things. First she can walk, then she can't. Then she can walk (or hobble), and then she can't. She feels too injured to _____, then she decides that she can. She needs to see a doctor, then she doesn't. Either the protagonist is a whine-y-pants or she is written inconsistently.

2. Seriously?

--On page twenty-one: "She jammed her fist into her mouth..." (p. 21). Nope. Rarely possible. And second, probably not exactly what the author meant?!

--On page thirteen, the female protagonist, from a position of trying to stand to her feet, falls back to the ground, after which she lands "flat on her stomach" (p. 13). Huh?

--"...preoccupied herself with..." (p. 27). Technically correct. But, not the best word choice. How about "engrossed?" or "distracted?"

--Stuff like, "...darted a glance..." (p. 28); "...gulped a deep breath..." (p. 23); "...quirked an eyebrow..." (p. 19); and, "...his gaze raked her" (p. 23).

3. Narration

I cannot tell which narrative voice is being used. I think the narrative point of view is supposed to be "alternating person," but honestly, I am not sure.

4. Dialog

In many, but not all, cases, the dialog reads as forced and/or false. For example: "...We'll have to rethink what's to be done. The first thing is I'd like to talk you into letting us find Willis for you"..."Your sister is my

best friend. I'm not going to impose on her family to help me out when I can't pay them" (page 17). In addition to its robotic feel, if this is the male protagonist's sister, why say, "her family" and "them?"

5. To have or not to have, that is the question!

As an example, on just one page (47), there are multiple instances of repeated words in quick succession, and there are five (conjugated) uses of the verb "to have," with three in just one sentence. In the first third of page 48, there are six additional uses of "to have," four in one sentence alone!

Etc...

Again, I am not trying to be mean, and I know that writing is not as easy as it seems. However, I want to provide an honest review from my perspective, and any book that I do not finish garners a one-star rating.

"Claire and Adam embark on a danger-filled journey to justice, taking the reader along for the ride, in Robbins' Bounty Hunter series starter" (RT Book Reviews, 4 stars).

Andrew Service says

Awesome Hunting

Storylines is amazing. Enjoyed every part of the story about Hunter. I'm glad both character find a good resolving thank.

Roxann says

This book is about a shy quiet librarian who tries to become a bounty hunter after her father dies. She gets into trouble-lots of trouble because of stupid choices on her part. She teams up with her best friend's older brother who is a bounty hunter by trade (family owns and runs the best one in the state).

I gave this story a 3 rating, but I'm not really sure in my opinion it should get it. I know I really prefer suspense, thrillers and cozy mysteries, but I've been reading many of the harlequin suspense or intrigue books lately (my sister gave me 3 bags full). This one the female lead, Claire, drove me crazy. She can do it, no she can't, yes she can. I mean I'm surprised she could do anything alone without getting into some kind of trouble. I didn't like her character and therefore the book was difficult to finish.

Clair tries to hunt down a fugitive who has jumped bail.

Adam is helping Clair. Clair is Adam's sister's best friend. Both families are in the bail bond business. This book is the start of the Bounty Hunters series. Reading this book makes you want to read the rest of the series.

Hazel Robinson says

Good

This is the first book I have read by this author. It was okay. I will read the rest of the series. This story has multiple murders, a car chase, break ins, hit and run, and a bounty hunter that has turned his back on Christ. Adam felt that God was not with him when he was in the military and his friends were dying all around him. With the help of Claire he finds his way back to God and true love.

Title: Fugitive Trackdown (Love Inspired Suspense)

Author: Sandra Robbins

Pages: 224

Publisher: Love Inspired

My rating is 5 stars.

Claire Walker begins tracking down a fugitive after her father's passing and learning the amount of debt owed by the business by bail jumpers. Claire is very much living unprepared in her new though temporary life as her education as a librarian gives her little real life experience. Claire's best friend, Jessica, is a former police officer with her family's fugitive recovery company a wonderful fit, but Claire just can't ask her friend to help for reasons readers will discover.

The tracking down of a fugitive leads to a lost romance memory when she is aided unwillingly by Adam, Jessica's brother. Adam, a former soldier, has the training and knowledge he uses for the family business, but where has Adam's faith gone since he last spoke to Claire? When Claire and Adam are facing a life threatening experience their hearts, hurts and spiritual lives come out in the open.

I enjoyed reading the tension in the story between Claire and Adam because each had a stubborn, individual streak that caused sparks to fly in their friendship. There is adventure, danger, along with a strong faith message which just filled my heart with joy as I completed the tale. Don't miss this great novel when cuddled under a warm blanket!
