Re-read - May 2016 - This book is totally hot, if you enjoy dub-con and mindfuckery. Which I do :-D Loved this more the second time round.

This was a twisted twisted story and I am on the loving it side of the fence.

Archer is a bad guy, let's make that clear! He has no redeeming features, other than what Daniel starts to see in him, and he's like... completely brainwashed so his opinion doesn't really count. I was somewhat prepared for this before reading so I could just sit back and enjoy the fuckery that is this book.

And enjoy it I did! I couldn't put it down at all! Read through it in record time.

The author did an amazing job at writing Daniels transformation I was completely hypnotized by it. It was clear (although still seriously messed up) how Danny became Daniel and how he ended up where he was at the end, which i kinda saw coming, which i was totally proud of myself for picking up on.

I will re read this when I'm after some depraved reading :-)

WARNINGS: Rape, Daddy Fetish, Sounding, Fisting, S/M, Humiliation, Murder

Yes, this book is overflowing with the above warnings. A young 18 year old man is sold by his father that has a gambling addiction. What happens to the young man after he has paid his father's debt in full? How has it changed him? You will be very surprised.

Do Not take the warnings lightly. This book is intense. It's also a damned good plot. Yep, that's what I said.

Kynthos-the-Archer (Kyn) says

5 full stars cos I floated in *subspace*

I blame my swollen bottom lip on this piece of *mindfuck extraordinaire*. It had me nibbling on my lip every so often trying to distract myself from the fierce intensity of the mind-blowing scenes and ocean of feels it invoke.

Overall, the story has a nice flow to it and promotes smooth reading experience. The characters stays in character, how nice is that. I love all the mindfucking Archer did to poor Danny aka *Daniel* aka *Baby-boy*. Archer's method of *unmaking* Danny to create Daniel could give the best psychologist a run for their money.

Archer plays Danny's body and mind like a fine tuned piece of musical instrument. He's so good he makes Danny aches for more even though he was repulsed by it. Archer had effectively turned Danny into Daniel, his affectionate baby-boy who finds joy in his boy-pussy especially when his daddy plays with it.

It was utmost fascinating and *arousing* to watch the training and reconditioning of Danny's mind. All those fierce canings and the after-cares by Archer was exquisite and most effective in molding Danny's mind to become Daniel. This part of the story kind of reminds me of **Home Trained For You by Selim** whereby the protagonist's identity was forcefully ripped away to be replaced by an ideal of his captor's choice by way of harsh punishments and some gentler coaxing of soft praises and rewards. Should anyone has similar stories like these please do rec it to me for I have deep fascination with how a mind could bend to another's will the right amount of inner and outer conditioning.

At first I had thought that the author is going for D.I.D (Dissociative Identity Disorder)* and that this is what Archer is aiming at when he was training Danny to become his ideal boy. Then, this theory was dispelled when that *blows-me-away* ending wraps everything up nice and tight. I was left in a daze of what had just took place and was in much awe to be able think clearly. I even had to reread that scene to shake off my state of shock. *Note: *Home Trained For You by Selim* has D.I.D - which is why I find it most engrossing.

Whatcha gonna get from this book (just to name a few):

>> **Hurt-comfort** - it is so good it will make your body purrs.

>> **Orgasm denial** - a caged cock is frustratingly arousing to the readers as well. It was utterly *blissful* whenever Danny gets to release his sexual tension via his boy-pussy or during rare occasions when he was rewarded a 'release' for good behavior **mind floods with endorphin**.

>> **Enema** - 'The Chair' only makes it all the more erotic - All that futile struggling and going no way.

Sighs contently

>> **Sounding** - The Chair + Teddy = delightful combination to up the eroticism. Soon, Daniel boy was stuffed and fucked.

>> **Fisting** - in 'The Chair' of course! Poor Daniel suffers so beautifully for his daddy. Teddy da Bear was there to hold his hands all the way too.

>> **Multiple Partners** - Sharing is caring?

>> **Toys** - oh, don't forget the toys. A good boy must have toys - in this case, an ever growing butt plug to seal the deal.

>> **Bondage** - usually minor ones like wrist cuff but upped a few notch when he's in 'The Chair'.

>> **Age-play** - top to toe, down to every details - little boy's cartoon T-Shirts, PJs, Boxer briefs with the flap at the back, Shorts, bedroom full of robots, aeroplanes, spaceships, moon and bean bag plus many more kiddo stuff to content with. Just missing the diapers (bummer that).

>> **Daddy-kink** - when you have age-play in M/M of course it must go hand in hand with a Daddy in tow. This daddy has a real firm hands. His dominant controlling ways are very sexy.

He treats me like a child, and I don't mean that in some whiny teenage way. I mean he literally treats me like a child. I wear kids' clothes. I sleep in a bedroom with a robot poster on the wall, a beanbag on the floor, and coloring-in books on the shelves. I eat cereal for breakfast and peanut butter and jelly sandwiches for lunch.

At night, he tucks me in.

Then fucks me.

**I call him Daddy.
He calls me his baby boy.**

I know this excerpt/quote sounds crazy to some of you and you might think that this is just another one of those plotless PWP smut-galore. All I could say is that, wait till it blows you to smithereens. I dare you to get your mindfuck dosage here.

Ahh, what a ride this was. I was positively tripping over all those free flowing unrestrained angst. I am both drowning and floating in it. Loving every bit of this feeling and savoring every moment of it. When Daniel floats in *subspace*, I find myself floating along.

Once again I am going to say, I strongly recommend this book to those who could enjoy mindfucks even if it is on the depraved side of things. Imho, this is THE finest mind-bending erotica!

NOTE: I would advise those who MUST have Safe Words and such in their D/S stories to turn away from this book right now. The rest of you, please step this way and have fun in this succulent piece of fantasy.

HOLY SH*T this was so fricken messed up, I shouldn't have liked it. It's one of those that you should be totally squicked out over but really you are totally enjoying the fuckedupness of it!

Shelley says

This is where I draw the line!

Fisting, sounding, enema's, humiliation and yes even partner sharing I can deal with easily. No problem, bring it on!

What I don't like and never have, is 'Daddy' Kink. It engages my gag reflex faster than attempting to swallow down a slimy oyster. But this books takes the Daddy kink to a whole new level; bordering on pedophilic fantasy in my mind.

"You are so fucking tight, baby boy." "God, Daddy!" "My baby boy." Archer shudders as he comes inside me. No! Just fucking NO!

Get fisted, fine! But not while clutching a teddy bear for Gods sake!

Daniel is of a consenting age but it makes no difference when the young man is dressed in robot pajamas and boy boxers. He sleeps and gets fucked in a bedroom designed for an eight year old with stars and rocket ships on the ceiling!!! JESUS!!!

Call it a weird sick game, call it a psychological adjustment/correct of a missing childhood, call it whatever the hell you want. To me, this is none of those things. It's an excuse to play out some sick paedophilic fantasy and then use it to manipulate a boy into doing your dirty work. I hate this book! It made no sense to me. It's sick porn and not for me. You'll say I didn't *get* it and you are RIGHT! I did NOT!

Why did I finish it? Because I wanted to see Daniel get revenge, I wanted to see him pull a gun on Archer and his cronies and shoot them up their 'boy pussy's'!! GAH...

Somebody pass me the brain bleach.

I have this feeling that I shouldn't have loved this book, but I really love it!!!! This story is so wrong and yet

so hot... so arousing... Geez... I want to read this book again... Daniel daddy issues are freaking awesome!!!

This books is disturbingly exciting!

Lena, thank you so much for the recommendation!!!

Lena♥Ribka says

I don't know who is more impressed here: me or a little part of me.

Probably both of us.

Yep, exactly, both of us are deeply impressed.

*and it is absolutely not what I expected

*and it is simply much better than I expected

*and it is exactly WHY both of us, I mean me and this naughty part of me, ARE DEEPLY IMPRESSED.

Archer holds up the dripping sound. “So you did like it, hmmmm? I knew you would.” I think *like* is the wrong word. Frightening. Intense, maybe. Not *like*.

And arousing.

Yep. **EXTREMELY**.

And fucking wrong at the same time.

And kinky.

And in spite of everything- very good.

Yep. **surprisingly good**

An ingeniously written mindfucked erotica.

Well done, Cari!!!!!!

Vivian says

I think if I read this in seven parts I would have been annoyed or pissed off, but as a whole novella, it's entertaining. Some serious psychological and physical conditioning. This is definitely not a book that will appeal to most readers--it's intense, cruel and frankly shows just how ugly life is sometimes. The Daddy kink alone will scare off a bunch. Overall, a freakish combination of horror and optimism. Not sure about the ending, but happy enough; it really was a quick wrap up.

I guess the thing to remember is that the wolf isn't just at the door, often you're living with it and have convinced yourself that it's a harmless pet.

Kol Anderson says

Man, this was such a good ride. Not even all my kinks but they were done so well. I have no problems whatsoever. The plot it had a significance and well, yeah the ending was right IMO though I'm sure some people might have felt that it was unrealistic or something, I don't know. It's just fantasy, you know?

Didn't exactly fall in love with Archer, but had fun regardless.
SO. MUCH. FUN.

Vanessa North says

What the fuck did I just read?

okay, so Julio's review popped up in my feed yesterday and even though i could tell from his review that this would be totally depraved...

Yeah, so I have this policy about not rating or reviewing unless I would honestly recommend the book to someone. And, I cannot imagine who I would recommend this book to. BUT...

This is some crazy-well-written mindfuckery. And the ending is perfection.

If you're going to read barely-legal dub-con m/m erotica with some age play, this is the one to read. It is absolutely as stunning as it is depraved.

JustJen "Miss Conduct" says

Wow, this little gem doesn't waste much time getting down to business!

Danny is traded by his lowlife gambling addicted father in lieu of his latest \$12,000 gambling debt. Danny accepts believing he can endure a month of basically being a whore. Unfortunately, Mr. Archer has other, much bigger, more devious plans.

Even though Danny's transformation occurs in an amazingly short time, nothing was ever really that unbelievable, and most even seemed quite plausible. Archer forces Danny to be reborn, first as a child, then as an adult. It is the process that is, of course, questionable on so many levels.

There are quite a few creepy characters here, aside from Mr. Archer, but Danny/Daniel is the real star here. He tries to fight for so long to hold on to who he was so that he can reclaim that part of him when he leaves. I loved his inner dialog and struggles and really wanted to see him come out the other side of this in a good way.

I was definitely not envisioning the ending happening as it did. I should have known Archer had a more long-term plan, since he waited so long initially for Daniel. Suffice to say, this was one fast hauntingly exciting ride. I could have easily read it in one sitting, and even though I couldn't wait to get to the ending, I was saddened to let Daniel go.

Rosa, really says

Bev says

Well, before we go anywhere, I should point you in the direction of the warning at the top of the page, and if you still think this is the sort of story you want to read after the blurb, then you will find it disturbing but gripping and the ending makes you want to sort of cheer...how weird does that make me?? 4 stars

Danny has been sold by his gambling addict loser of a father for \$12000 to Archer, owner of the casino, in payment of a gambling debt...Danny is 18!! I was incredulous that this sort of thing could happen in this day and age, but it does...you only have to read the papers or watch the news, so I'll have to take my 'rose-tinted' specs off and get with the programme!!

Archer transforms Danny into Daniel, the methods and means he uses, the weirdos that enter the story and what Archer does to Daniel and forces Daniel to do in return to mould him into a stronger person, you'll have to discover by reading the story, but I have to say the writing was excellent....as you would expect from Cari Waites aka Lisa Henry.
