This is a fantastic resource for those that know they want a new job, but have no idea how to begin. This book breaks up the tedious and overwhelming process into bite-sized steps - just a few tasks to complete every day in order to find that perfect job.

If you need a job immediately, you can learn quite a bit by scanning the book. If you have the luxury of more time (a career change, perhaps), this book is nothing short of pure gold.

If you follow the steps in the book, you'll be primed to find THE perfect job, and even in the blessed position of having multiple job offers.

Kudos to the author for creating this fabulous resource!

This is a seriously fantastic resource for anybody looking for a job. If you follow the step by step advice provided in this book and on Kat's equally useful website you will not just get A job, but your IDEAL job! The exercises are logical, fun and most importantly, do-able and, as a bonus, you'll learn more about yourself and what you really want from your career and for your life as well! I highly recommend this book for anybody willing to put in a bit of effort to secure themselves an awesome job.

My dad once remarked that two of the worst activities are looking for a job and looking for a place to live. This book accomplished the impossible for me: it made the process of looking for a job suddenly seem not just do-able but actually exciting.

To me, the most stressful thing about looking for a job is knowing that there's so much you should be doing, but not knowing what exactly, and feeling overwhelmed, defeated and guilty. But guess what? All of that stress starts dissipating as soon as you begin reading this book, because you immediately grasp that this woman is an expert on the topic, and not only does she know every step you need to take, she has masterminded the order in which you need to take those steps. Each day of your job search, you will have a

specific task to complete--no more waking up and wondering what you should be doing exactly, no more fretting that you're not doing enough... SHE GIVES YOU A PLAN. One task per day! And you can tackle more than one task per day, if you're feeling jazzed and emboldened, which I bet you will be, when you start reading. Each task is laid out for you, neatly and succinctly, plus she has a website you can go to, for more detailed info, if you need it.

Reading this book is like taking a Valium. You will feel calmer and more relaxed as you read each task and see that each is do-able and each will inevitably lead to your getting a job, and likely a darn good one.

I am really looking forward to getting this book! I'm just about to start job hunting and this book sounds like it could be really useful/helpful.

Update: this little book is very useful and has you take steps instead of trying to do everything all at once which is what I typically try to do.

Getting a job today is tough work. Getting the job of your dreams is almost impossible.

This book is a no-nonsense guide that takes you step by step through a proven process. The steps include social networking which is often missed by job seekers today. As an added bonus, check out the web site which includes a wealth of resources.

This plan worked for me. I followed the directions and went through the steps. Some were easy and others were painful to do. From using the interactive FB page, I saw that this is consistent with everyone, though exactly which steps are hard and easy are unique to each person. Retrospectively, pushing through the harder steps allowed me to prepare myself in a variety of ways to get the right job. Who knew that when you empower yourself to get a job, you truly rely less on all the other factors. I wholeheartedly recommend Kat's plan.
