Marvin and the Three Bears Tielle St. Clare

When a novice Fairy Godmother accidentally drops some sexed-up Happily Ever After Fairy Dust on Goldilocks and the Three Bears, Marvin-second-in-command in Fairy Tale Land-jumps in to save the tale. Taking over for Goldilocks should be simple, right? All he has to do is eat the porridge, sit on the chair and sleep in the bed. And when the Three Bears return home, run screaming from the house. But the Fairy Dust has changed things...including the Three Bears. They've turned human. Baby Bear is no baby. Mama Bear wears black leather and wields a wicked paddle. And Papa Bear? Oh my...he's going to make sure Marvin pays for the damage he's done, inch by luscious inch.

I really enjoyed This story so much fun.

This was a sequel to Fairy Dust, and while it was a quick, short, and sweet read, I didn't enjoy it as much as the first book. It was a group scene, and while there are some people that enjoy it, this book gave it the feel that Marvin was being used somewhat. The only one he had a lasting connection with was Alex, as evidenced by the fact that often times the both of them would let Lissa and Jeremy play on their own without them. I really felt that it was all about the sex and less about the romance, which was a shame, since there was the potential to show a romantic side to a story that really has no romance in it. I might re-read it every now and again, but not as often as I will read Fairy Dust.

Marvin and the Three Bears was a fun read. It offers up plenty of hot sex, a darling of a narrator/protagonist, and an intriguing premise.

You can't help but love Marvin, the innocent trainer of Fairy Godmothers who finds himself magically transformed by Happily Ever After Fairy Dust (with Hot Sex Additive) into a cute blonde twink. No sexual experience means no inhibitions, leaving him free to joyously embrace any act, with any of his three partners, in any combination.

Of course, this is a fairy tale (as sexed up and mixed up as it may be), which means true love is destined to make a welcome appearance, making for an entirely satisfying conclusion.
