## Say Yes Elle Christensen

Sweet bakery owner, Lindsay Balewa, is content to brighten the lives of others with her confections and volunteering. With her business booming, she moves into a duplex nearby. Supposedly, the owner lives next door, but the mysterious man keeps odd hours and is often away, leaving her no opportunity to get to know him.

Pilot, Colton Black, is trying to accept his life outside of the Air Force after an injury forced him into retirement. Despite keeping himself in the air by running a private charter company, he feels lost. Until the night he spies Lindsay in a black dress, carrying a tray of cupcakes. Suddenly, he has a very clear purpose, sex and sweets.

Lindsay is uncomfortable starting a relationship with her landlord, but Colton is more than determined to convince her to take a chance on him. Unfortunately, someone else is laying claim to her, someone in the shadows, waiting for the right moment to tear Colton and Lindsay apart.

#### Air Force Pilot alpha hottie!

I love this book and the nod of the parts to our heroes that protect us and serve our country. The book mentioned that Lindsey doesn't have anyone from the armed forces pay for their meal at her bakery. It reminded me of when I was a teen and working at my first job in McDonald's that the manager there always made sure that military and first responders (police, firefighters, EMTs) didn't pay for their meals. I always thought what he did was so cool, especially since other McDonald's never really did that (I sometimes helped out at other locations).

I loved this book with the insta-attraction and the alpha male thing going on with Colton, though there were some editing issues that could be cleared up with better proofreading. This book is a standalone story so there isn't more to read, but I can't wait to read other books by Elle Christensen or her pen name (shared with co-author Rochelle Paige) Fiona Davenport.

If you get the opportunity to read this....Say Yes lol (see what I did there)

This was such a good story.

Colton was sexy, sweet, alpha - damn near perfect. He wasn't a manwhore, and he was devoted to Lindsey from the moment he first saw her.

Lindsey was smart, funny and independent. She ran a successful business and was doing pretty well with her life. The attraction to Colton was instant and it freaked her out a bit. Not only because it had been a long while since she had been in a relationship, but because he was her neighbor/landlord.

When the two got together, there were sparks and Colton was so sweet and patient with Lindsey. I also liked there was a dash of suspense to the story.

-absolutely zero cheating

-ow drama - none

-om drama - (view spoiler)

-Lindsey pushes Colton away for about a month - they are together but just getting to know each other  
-steamy sex scenes (even the ones that Colton imagined!)  
-good epilogue about 3 years out. It was sweet but I would have liked even further (yes, I'm a greedy epilogue whore, no, I have no shame)

Loved how Colton wouldn't give up and was immediately drawn to Lindsay. Dead exes aren't usually my thing but this was nicely done. However, there were a lot of typos...it was annoying.

Colton and Lindsey meet at an charity event that she's catering the dessert and he's attending. It's instant attraction and all good feelings until she realizes he is her new landlord. Not wanting to mess anything up, she gently pushes him away buts he's not accepting that. He continues to pursue her until she finally gives in to go on a date with him. After that everything moves very quickly in their relationship. What Colton doesn't know is that there is someone looking in the background wanting her for himself. #### **GOING TO SKIP THIS ONE.**

**Firstly, the hero has my son's name (Colton) but mostly because she was married and in love before.**  
*"I am proud to have been his wife, no matter for how short a time. I still miss him every day, and the sharp pain of loss is always there. But, it's dulled over the years, the razor's edge not digging quite so deep. I shake my head to dispel the fog of memories..."*

These types of second love stories very rarely work out for me, in fact it's only happened 3 or 4 times.

I may go back one day to read it but for right now I'd rather skip it.

After all so many books, so little time.

For those who enjoy second love stories, go ahead and enjoy.

Still love this author and will read other books from her.

Lindsay is a bakery owner and a widow. Colton is a ex military man who owns and lives next to the duplex Lindsay lives in. They don't actually met til a party where Colton wants her but Lindsay is very hesitant. Colton pursues and wears down her defenses but someone else wants her too and Colton is determined to not let anything happen to the woman he wants to start a family with.

Well this was one I was really looking forward too. I love a sweet heroine, a heroine that can cook or bake, and a alpha type hero. Sounds great. Unfortunately, I could tell from the beginning that this wasn't going to go well. I didn't connect to the heroine and as it progressed she became annoying to me. The hero was better but even he fell very flat. I didn't buy their love story. It didn't feel that real or that deep to me. Many of GRs friends know I am not a fan of book advertised as humorous or rom com. This wasn't advertised like that but it had that humor that I hate in it anyway. It felt forced and the jokes or lightness I was supposed to get fell very flat. The suspense part really wasn't up to par and was something that to me would have been better left out of the book. Especially the climax of finding out who and why and even how they handled it. (view spoiler)

So while I thought this would be a great sweet read it just didn't live up to the blurb for me.

I actually liked reading this short story. I'm pretty picky when books mention being considered a "military romance", but I wouldn't really consider this one since one military man died, and the other was honorable discharged.

That being said, even though I liked the book, I have to ask where the heck was the editor for this one? I've read other Elle Christensen books before and have never seen so many glaring mistakes on a page! There were randomly misspelled words, words added in the sentences that didn't belong. It was just a mess!
