This volume starts with a flashback to 1988, in which Tambi confronts a headstrong mafioso and his wife. Then it's back to the present, where Katchoo moves in with Casey to begin "life after Francine." She begins painting again and meets Sara Fitzgerald, a charming model who seems to have a lot in common with Francine. Meanwhile, back in Tennessee, Francine suffers a devastating loss and reaches out to Katchoo--but Casey steps in to try and defuse the situation (with disastrous results). This all culminates in Katchoo crashing Francine's wedding--but is she too late?

Another pivotal volume in the Strangers in Paradise saga, Flower to Flame contains some heartrending moments (not least of which is Katchoo's reaction to her stepfather's death). But a Snow White fantasy sequence helps to lighten things up, and Moore also includes two helpful flowcharts that list Francine's and Katchoo's ever-growing string of relatives and friends.

This series keeps building. Each volume more intense. Every final issue more shocking than the last issue from the previous volume. If I didn't know how many volumes there are already, I might think I was getting close to a big, dramatic, and messy end.

The emotion in this is very high and the rips in relationships seemingly unrepairable. There is a great sense of loss and moving on. In fact, one of the most shocking scenes so far in this series is in this volume and just takes the story so much farther into harsh reality than you would ever expect from a comic book.

In addition to sorting out personal drama, the dark side of Katchoo's past continues to haunt. Conspiracy and revenge is found around every corner. So much packed into one volume!

This series is just great. Amazing artistry and creativity in both the writing and the art. Not every twist in turn will be enjoyed by everyone, but it is just so damn beautiful!

2012 Reread: I got lost in this for a month. My very first full reread since the series hit its ending. Since I

knew where it would start and go and end up. It was just as terrible, wonderful, painful, heartbreaking, heart healing, amazing as every other read. I never stop knowing my heart belongs to this.

The series began a repetitive cycle midway. It's still good, but nowhere near as good as it had been.

Whoo. Lots of feelings in this book. Katchoo and Francine reach a critical point in their lives and have to decide what to do and how they are going to deal with their choices.
