Thirty Days Hath... Chautona Havig

Blind Dates Are for Wimps!

At least, that's what Adric Garrison thinks.

Can you blame him? Thanks to his sister and brother-in-law, Adric is about to embark on a year of month-long, chaperoned, blind dates. awkward.

He didn't ask for it. But Adric still finds himself living what seems more like a bad TV reality show than a new life in Fairbury.

Once an ordinary (if prematurely gray and vertically challenged) guy, Adric is now Fairbury's newest "most eligible bachelor," and dreams of permanent bachelorhood loom on the horizon. Will he call it quits before the year is out, or will one of his "girls of the month" change his mind?

One man, twelve women, one happily ever after.

Melissa says

I loved the concept of this book. At some points just wanted the main character to stop dating and just stay with the girl he felt he loved. The problem was you knew he was to good of a guy to just stop with the dating process. The only problem with this book was at time you felt you were going on these dates and being drug along for the ride because it became that slow.

Pamela Hogg says

Loved it

Trudy E says

The concept of this story was intriguing to me. The main character participates in a search for a spouse (not the same as dating) through a program initiated by his brother-in-law, who is a pastor. Over the course of 12 months, he is to spend time with 12 different women who also desire a mate. Selected through photographs and bios, Adric meets these women for the first time at the start of their particular month. He learns not only about them, but about himself as the year progresses. I even found myself trying to figure out who he might choose. At times humorous, tender and even tense, I think it is well-written and thought provoking in many respects.

Michelle Nix says

This book was so fun to read!!!!

Suzanne says

What an interesting concept this story line presented with the month long dates. The happenings with Miss December was quite surprising.

As with Chautona's others books it is refreshing to read or love and happily ever after without all of the explicit sex. This is another one that would be great for any ages from preteen to adult.

Rachel says

Some hilarious characters and good dialogue...but the premise of the book is a little nutty to me. How Not To

Do Relationships...or something like that?

Leslie Jordan says

I find it hard to believe that a man who is against holding hands on a date at age 36 would consent to having women come and live with him and play house for a month, even with a chaperone. This is a good story though, and well written. I haven't been able to put it down.

Amanda says

I admit it. I wasn't expecting to love this book. I'm a sucker for a funny love story so I picked this one out even though I thought it sounded like a ridiculous premise. I figured I'd spend half the book rolling my eyes at slapstick and unbelievability, but still get a few chuckles and a sweet ending.

It does deliver the sweet ending. But the characters also had some sparkle and they all acted like they were in on the joke, as if they knew the set up would probably never happen, but if it did... Somehow that made it okay. I could just enjoy the usually interesting and occasionally witty conversations. The book is very dialog heavy. Almost to a fault. There were a few times when I didn't know what the characters were talking about and could have used a bit more back story.

While the book is fairly light-hearted overall, there is a bit of drama near the end and the characters are regularly forced to do homework. There are a few times each month that the guy and his girl of the month have to answer questions sort of like couples counseling. I thought many of these scenes would make excellent fodder for book club discussions. Which qualities are positives or negatives? What one character sees as contentment another sees as complacency and one character's easy-going nature is seen by another as being a doormat.

In the end, the question of whether or not anyone would actually agree to this set up didn't bug me as much as the logistics of it. Most of the women apparently took an entire month off from their jobs to participate, and while the author sometimes tried to explain this (one had just been laid off, one was a freelance writer and two were traveling saleswomen who could work just as easily from the guy's house) the rest expected the reader to ignore their financial situations. How, for example, does the woman with the home day care close down for a month without alienating all her clients?

I finished the book quickly because despite its flaws (including an inordinate number of typos) the story and characters made me want to keep reading. I wanted to see which women the guy would end up with and I got a few more laughs than I expected along the way.

Kay Gouge says

Fun!

So okay, the premise is a little crazy, and a perfect set up for disaster. But in spite of the odds against it, the

book is fun but serious, ridiculous but somehow believable, and bottom line, just a great read.

Kristin Spencer says

Intriguing and surprising. I didn't expect the turn toward the end. Leave it to Author Chautona Havig to have you guessing all the way through.

Jenny says

I really enjoyed this book, it was a lot of fun! The only reason I gave it 4 stars instead of 5 was because he didn't pick who I wanted him to in the end, lol.

Kristi says

Cute funny and frustrating at times. Really didn't expect the outcome.

Kim Garrison says

Was a really good book, enjoyed it and didnt want to stop reading it

Becka says

Do not let the fact that this is marked as genre (Christian) romance dissuade you. The religion element is light (and basically means you're going to see very little in the way of steam) and the story is a lot of fun. Bachelor is matched by his pastor with 12 women, one for each month. He has to figure out what it is that he likes...and there is a lot of humor along the way. Realistic in some ways, bizarre in others, and a fun read.

Holly says

This book has a very unique twist to it that made it interesting. Adric's brother-in-law, Tom, devises a dating game where the young lady and a chaperone live with Adric in his home for 30 days to see if they are truly compatible.

What you get is a mixture of fun and heartache. Overall, I enjoyed the book, I did feel like it got a little "long" at the end. However, overall, I enjoyed it and would recommend it to those looking for a fun read that takes a slightly different approach to reality TV shows such as The Bachelor.

I did receive this book free, from Amazon. (LOVE FREE KINDLE BOOKS!)
