Unraveled Heidi McCahan

Blind-sided by her fiancé's questionable behavior, Lauren Carter returns to the one place she's managed to avoid, the small Alaskan town she used to call home. She's spent years running from her scandalous past and now she's forced to confront an uncertain future.

Blake Tully, wildly successful owner of Emerald Cove's new whitewater rafting and kayaking business, finds Lauren's unexpected reappearance in his life ignites old feelings. Although she broke his heart once, he longs to give his childhood sweetheart a second chance.

Will Lauren allow her shameful secret to define her? Can Blake forgive her when he discovers the reason she's been hiding?

Follow the story of these two shattered hearts as they discover the beauty of grace and forgiveness.

Marylin says

Sweet Story of Forgiveness

Secrets are things which can unravel your life if you let them. That's what Lauren thought as she traveled up to to visit her family. From the first moments of landing in her home town, her life started to unravel. There were so many bits and pieces of drama in all of the area's of Lauren life. So many secrets, yet forgiveness and healing were just around the corner if the secrets would only be shared. This story will touch your heart with intense emotions. I really truly enjoyed reading this book.

Patricia says

There were a lot of good things about this story. It is a nice, good, clean, Christian romance--all about second chances.

Gerry Brown says

Loved it!

I loved this book! It was hard to put down when I had to! I read till I fell asleep at night and read more first thing in the morning.

Marie Pinkham says

Beautiful setting, beautiful story

A beautiful story of love and forgiveness. Lauren and Blake's story pulled me in from the very beginning. Looking forward to the next one!

Diane Bailey says

Grace and Forgiveness

This is the first story I've read by this writer. I thoroughly enjoyed the characters and their struggle to come to grips with consequences generated by decisions in the past.

Marta Aldrighetti says

Emeral Cove, Alaska.

Lauren Carter comes home to announce her engagement to her family, unlucky her boyfriend Holden didn't leave, so she fly home alone.

At home some pretty and bad news wait Lauren.

well written, page turned, easy and nice to read, enjoy!

Lori says

3.5 stars

This was just a good, clean and enjoyable romance story. Engaging and entertaining. It pulls you in from the start and holds your interest throughout the entire story. The story does have Christian undertones, it occasionally quotes certain passages but not to many. It doesn't beat you over the head with religion.

Romance, heartbreak, forgiveness, second chances and a HEA.

Family relationships are some of the most complex there are. Secrets have a way of always coming out in the end.

Lauren's life is unraveling a little at a time. She has been running from her past and the secrets she has kept for 8 years. Now back in her hometown she will have to choose whether or not to keep running or face the demons of her past that continue to plague her.

Really loved Blake's character. Blake has a heart of gold. Not many men would be able to forgive her for the decision she made to withhold the truth from him. Lauren's character was just likable. Her actions were really selfish whether she felt she had "reasons" or not.

Laura Jennings did a really good job with the narration. Pleasant voice. Easy to listen to for long periods of time. Clearly spoken. Some really good character voices. The narration flows smoothly with a nice even pace. She was able to bring the characters and all their emotions to life. Very enjoyable.

I was voluntarily provided this free review copy audiobook by the author, narrator or publisher.

June Thompson says

Stunning

This book took me to a place I have longed to visit. The story was fun yet poignant I enjoyed it very much

Kimberly says

Good intro to the series

The characters were well developed, yet it was still a quick read. I enjoyed the story of redeeming the past and moving on to the future.

Joleen says

Secrets always seem to come back to bite you you-know-where. This book is about some big secrets. None of them made a lot of sense to me. There was someone adopted and in her mid-twenties is just finding out about it. Why the big secret? There was no shame in the adoption. Ugh!

There was a secret pregnancy and adoption. Why. They loved each other. They both had extremely supportive families. He was a wonderful person who would have loved the child. No matter what she says, it was a selfish act to run away. She didn't tell him about it nor give the father an option to agree or disagree with putting the child up for adoption.

There were secrets in her roommate and fiancee's lives that ruined them both.

Fairly good writing, but a bit convoluted.

Catherine Geist says

Fantastic

This book was great. I did not put down except to eat. The storyline & characters were awesome. It is a real tear jerker. I would recommend it to anyone.

Terry says

7/15/18

Sandy says

Good read

Not bad. Will try to find more from this author. It is a clean family type book. Good read. Smile

Linda Galella says

A nice, quick read

There really isn't anything special about "Unraveled". Happily, there really isn't anything awful about it either, including the editing. Yay! I wish the Alaskan backdrop was more a part of the story, but it was basically just mentioned offhandedly...sigh. Some of the walk ons and walk offs for secondary characters are a bit abrupt and left me with an incomplete feeling...where the heck DID Aunt Jane get too? Maybe I need to read the novella to find out? Not this inquiring mind.

Connie Sanchez says

Great read! I loved it.

This is a wonderful story. It had my attention from the beginning and the characters are so well written. I would recommend this book to anyone who is looking for something that is wholesome and heartfelt. I would definitely read it again!
