I love cozy mysteries and this is a great paranormal cozy that I very much enjoyed. It was intriguing enough to keep me turning pages and only with regret, putting it down to go to sleep so I could get up and go to work. I love the characters in this story and since it is a #1, I'm hoping for more in this series. As with many paranormals, there are lots of fun characters and if you are a paranormal cozy lover, this is one of the best!

I enjoyed reading this book. Most of the cozy mysteries that I have read is based in a library, book store, or a bakery. As a reader, I appreciated the change of scenery. While reading, I questioned myself about who the antagonist in the story was. I was able to figure that out towards the end. I appreciate a book that can hold back on those clues towards the end. I also questioned the ability of the main character. She stated several times in the book that she was able to feel magic in paranormal beings, but I did think that she would have felt the same coming from her best friend, especially as a powerful witch. This is an overall good read that does not fail to pull the reader in and become lost in the plot. Can't wait to read more.

Ginni Black left her magical home and her spells back in Enchanted Lake, Georgia to pursue her dream in fashion design. But when a model drops dead on the runway under mysterious circumstances just before her first big fashion show, Ginni suspects black magic is the culprit.

Ginni along with her best friend Babs and her werewolf boyfriend Nicco find themselves knee deep in a magical mystery. Can they find out who is behind the murder before they end up the next victims?

This is the first book in the Designer Witch mystery series. It is filled with charming characters, touches of wit and humor, lots of twists and turns, a hint of romance, and lots of mystery and adventure. It was a refreshing read and I can't wait for the next book in this delightful new series.

In between OK and LIKE

Meet Ginni, designer witch. Unwilling pioneer, as she makes a life for herself in the mortal realm.

The story was good, or could have been. I loved the originality and the twists and turns that I didn't expect. It was light-hearted the way I like it. But then why didn't I LOVE the book? Hard to pinpoint exactly, but it had to do with the style. I don't think it was very well written. Or maybe the style just wasn't to my taste. For me, it didn't work that the author continually disrupted the flow with sentences like: 'A little while after.' 'One heck of a ride later.' Well, let me in on that ride! IMO that's not good for the continuity. I was pulled out of the story every time it happened; and it happened a lot. Just leave an empty line in between parts and work the text into the story. It felt like I wasn't let in. It felt like there was a narrator instead of allowing me to immerse myself in the story. Plus there were bits like this: 'At least, that's what I thought. Turns out I was wrong. Who saw that one coming, right?' I, the reader, now see it coming! For me that ruins the element of surprise and is lowering the suspense instead of heightening it.

### **A good start to a new series**

A good plot but the ending could have had a bit more flash as it wasn't as dramatic as the rest of the plot. However saying that I hadn't guessed the guilty party so that was a plus. The characters need a bit more work - like her human friend. Is she a member of the coven that runs the library? She has always wanted to be a fashion designer but having grown up in the supernatural world she had to fight hard to get free and enter the human world where she tried to use no magic at all. Now on the cusp of having her own show in the famous fashion week she suddenly has a model killed by her dress. Now she, her werewolf boyfriend (who gave up his pack for her) and her human BFF are on the hunt for the warlock that caused the death. Demons, stolen relics, another death all follow. Can they bring the culprit to justice? Is she really a hero to all the youngsters who want to enter the human realm?
