Mave says

I enjoyed reading this book, is a magical mystery fun, enjoyable and original: there are elements of magic, paranormal, so much action, some twists and a murderer to find.

June owns a shop where she sells her potions passing them off as homeopathic medicines. Her products and those of other shops in the village are sold only within their community. June is going to expand her activities to the whole nation. But one of her potions is stolen and must find it before it runs out. Also is found dead the co-owner of Head to Toe Work and she must investigate to help to find the culprit and restore peace and serenity in the village

I really enjoyed the setting, Whispering Falls. This small and serene village is really amazing, all its inhabitants have some magical power and are very good friends with each other, always willing to help themselves with each other.

June is fun and interesting and I really like her relationship with Oscar: will she decide to fix the date of the marriage?. Oscar is a sheriff really fascinating, has always been a friend of June, no one knows her better than him. One of my favorite characters, however, is the cute cat, Mr. Prince Charming

It's the seventh book in the "Magical Mystery Cures" series but the first one that I have read. It can easily be read as a stand alone

This is easy to read, fun, light, ideal summer reading

The residents of Whispering Falls have trouble blowing in on the wind! June Heal is right at the center. Hoping to help the town's finances, June agrees to work with a national products company, Head To Toe Works, to make her stress reducing potion available outside of Whispering Falls. Of course the magical elements of the concoction are secret, to protect the secrets of June and her fellow residents.

Humans have a lot of secrets too, and when June is in the wrong place at the very wrong time, she must bring those secrets to light to solve the crime.

From the very start, things do not go as planned; from a black butterfly to the wrong bottles being used, to June's store being ransacked, to discovering a body! Extra tension in this story surrounds the upcoming nuptials of June and Oscar

Money, greed, power and secrets make dangerous combinations.

I believe you will love this series and the colorful characters if you read them in series order. This is great escape and relaxation reading.

I did receive a copy of this book for a tour in exchange for my honest opinion.

Rhonda says

This is the seventh book in the Magical Cures Mystery series, but the first one that I have read. I now going to read the first book of the series soon. There is a lot of characters that I can tell that they had a past but I did feel the book held its own.

It was a cute murder mystery. Half the characters are witches with real talent. They even have their own city but they keep there secrets about their talents.

June Heal is a witch. She just found out in the last few years. She was raised by her Aunt. Her fiance Oscar is a cop. She has her own shop, but she has sold her hand lotion that reliefs stress to a national chain.

Her first day working at the plant goes all wrong. They are not using her bottles but cheap ones instead. The bottles have the magical part. So when she sneaks into the plant she is caught and the owner turns up dead.

June is told by plenty of people to stay out and let the cops do their job. She can't.

June has a cat that she named Mr. Prince Charming, she also has a snow globe that has a personality and works like a crystal ball.

I was guessing totally wrong about who the murder was and why he was killed. There was plenty of drama, romance and paranormal in the book. It was also a clean read.

I was given this ebook A Charming Fatality to read and in return I agreed to give a honest review and be part of it's book tour.

A Charming Fatality
: Tonya Kappes

This is book seven in the series, but the first one I've listened to. A bit of murder mystery, suspense, magic and romance rolled into one tale. It was a bit confusing without backstory, but entertaining all the same. When I have more time I will go back to the beginning and see where it all began.

The narration was well done. The characters were well portrayed. Karen Savage gave a good performance.

“I was voluntarily provided this free review copy audiobook by the author, narrator, or publisher.”

A Charming Fatality is the seventh instalment in The Magical Cures Mysteries by Tonya Kappes. Spiritualist-witch June Heal, who owns a small cures shop in Whispering Falls, is on her way to see one of her products sold outside her village, which is depending on her sales to boost its own economy. Whispering Falls is village of witches, each owns a shop that caters to their powers and abilities.

June, owner of A Charming Cure, senses her customers' troubles and designs the perfect lotion, cream or potion for them. Tiffany, a customer who came in during Christmas, sees June's stress-free lotion as the saviour to her business, Heat To Toe Works. However, problems arise on June's first day and soon after, Tiffany's husband and co-owner of the business is discovered dead on June's product belt at the factory.

Although the book is the seventh in the series, each can be read as a standalone. In the opening scene, I felt I was bombarded with the characters from Whispering Falls and their shops, which I thought could come in later because I would never remember who was in charge of what.

There are several plot lines in the story. There is the murder-mystery, June's upcoming marriage to Oscar, which doesn't seem to be going as smoothly as it should, and a break-in and theft in June's shop.

June, along with her cat or fairy god-cat Mr. Prince Charming, stick their noses in the murder mystery to find

out who is bent on stopping June's project and dream. Meanwhile, June's and Oscar's aunts are working hard to get a date set for the wedding, thus, pressuring June.

At one point, we discover that the marriage is an arranged one, giving June doubts. Both her parents are gone, so she starts to suspect if she's been tricked into falling in love with Oscar.

A Charming Fatality is a fast-paced cozy magical-mystery novella. It's my first mystery in the paranormal genre.

There were parts, especially regarding June and Oscar's relationship that I didn't feel much, or felt they could be improved but the overall mystery, clues and resolution are absolutely five stars.

Kappes skillfully leads her readers across a wide range of suspects, only to unfoil something – or someone – else entirely at the end and that was a well-done job for me.

The novel is narrated in the first person from June's perspective and we get her emotions, worries and hopes. It is clear she is caring and the whole Head To Toe Works move is stressful for her, not only because she wants to help people, but because she feels that she needs to help her village's economy; it is the first time anyone from Whispering Falls receives an offer to go out into the mortal world.

In terms of comic relief, *A Charming Fatality* is generally light. There was a scene with two sisters and an ostrich that was really funny but totally out of place in terms of tension-and-relief.

Overall, *A Charming Fatality* was a quick, different and enjoyable read. Although not everything clicked with me, I truly enjoyed how Kappes unfoiled the mystery and ended the story and that's the most important aspect of a mystery; a good-crafted one.

I can handle the witches. It's the horrid humans I can't stand!!! You don't know who to trust. And that, my friend, is the story in this book. I did enjoy it and recommend it.

Really enjoyed this book

Teresa Kander says

I am a huge fan of Tonya's writing, especially of this series. June is such a fun character, and her family and friends in Whispering Falls add to the enjoyment. This is the seventh book of the series, so by the this time the relationships and characters are well-defined and well-developed.

This time around, June goes to work outside of Whispering Falls....and discovers a dead body her first day on the job! Naturally, she can't control her desire to solve the murder, which leads her into trouble. I found myself totally surprised by the revelation of the murderer and the motive, but was pleased with the way the story wrapped up. I can hardly wait to see what is going to happen in book 8!

I received a copy of this book in exchange for an honest review. All thoughts and opinions are entirely my own.

Really great!

I like how this book carries on some outsiders from the past books. The story line was great and featured my favorites from the magical town.

Suzi says

One of my favorite authors and series

I just love the small town and the one-of-a-kind characters of this series. Somehow different from other witchy stories, it is fascinating with the healing potions and familiars that are not your run of the mill kind. Thank you Ms Kappes for another very entertaining read!

A charming fatality

A good book to read, it was a easy read, full of paranormal ,good for teenagers ,good for a holiday read.

Paula Ratcliffe says

This book follows June Heal as she is working on expanding her business with Head To Toe Works company as they are launching June's stress free lotion, what she doesn't count on was the head Burt Rossen to wind up dead all in a single day.

June has set out on a new mission to find out who killed Burt Rossen and why? Is it the grieving wife who has been getting abused by Burt or his mother who inherits more than half the company with the death of her son? Or is it an angry worker who now has no job. The answer to this will totally baffle you I know it did for me!

June is also looking forward to her wedding to Oscar Parks a local sheriff in town and her long time friend turned fiancé. What she didn't count on was how quick the news would be of their wedding or that they were

betrothed together since childhood. Neither one of them knew.

I enjoyed reading this story and following the path of Oscar and June. I have been a huge fan of Tonya Kappes she is a great writer. This book is just as great as other books she has written. I can't wait to see what she writes next!
