Anarchist Season One

Jordan Silver

Anarchist Season One Jordan Silver

This complete first season of the MC novel includes books 1-5

Law Daniels is an ex army sniper who's come home to the Western town of Starling Wyoming to bury his family, who has been slaughtered and burned out for the land that has been in the Daniels family for generations. The local sheriff is on the take and refuses to do anything to catch the man responsible. The wealthy and unscrupulous Royce Davis.

Now Law finds himself the head of a band of disgruntled residents who have somehow decided that he should be their leader in chief.

He isn't really interested in anything else but seeking vengeance for the blood of his family, but somehow he keeps getting sucked in. Now he's faced with the care of the young girl that crawled onto his place in the early morning hours after being worked over pretty good.

He can't turn her away, but can he resist her while he tries to protect her?

Helen says

Liked it, all little episodes of the different couples with law and Dana's story running the whole way through. Will be reading season 2 when it is released.

Lindsay says

Not sure why every book had to be like 35 pages when it could've been released as 1 book and probably wouldn't have seemed so dragged out. Initially I enjoyed the first 2 and the 3rd was okay but the 4th and 5th were just more of the same with random pov's thrown in. Of course I won't rest until I read it all cause now I want to know what Brandon and his misses deal is.....so onto season 2 I guess

Charlene says

Re read may 30

C.J. says

Alpha males galore! There were so many alpha males in this book that I loved that I wish they all had their own individual stories. Great characters and plenty of drama. Loved Dana. What a fantastic female character! She was spunky, sweet and adorably persistent. I loved how she could wind Law up with a well timed smile.

Dena says

Not

I didn't really get into this story like the rest. I thought the hero was a jerk and hoped he fell off his motorcycle. His friend clay is a douche. I'm just not really into it.

Karen Lane says

Loved this 5 part series!
In really looking forward to season 2.
Jordan sure knows how to write sex...
Some of those scenes had me fanning myself..

Raine says

To many different pairs getting together so it was getting confusing. Is there a season 2??? It ended in a little bit of a cliffhanger.

Emily says

Lawton "Law" Daniels never thought his life would unfold the way it had. Former Army Sniper he came home to find his family slaughtered and brother a shell of his former self. The town where he grew up was corrupted and looking for a leader. Now with a band of misfits, Law is the MC of his club and he doesn't take orders from anyone.

When he finds Dana battered and bruised on his land, he retaliates. He didn't know if it was a curse or a blessing but finding out Dana was promised to his enemy, and she wanted no part of it, is the ammunition he needs to seek revenge. He decides to marry her in name only, however Dana believes in marriage and has no plans of divorcing him when this mess is all over. Law though didn't want a wife, he is a hardened man, but Dana is a lure he can't seem to refuse.

So good, I wish it wasn't a serial though. I loved Law, he is bad to the bone and even though he tries to not let Dana get under his skin, she does. Cant wait for more.

Dina says

I'm gonna give it as a whole 2 stars..

I'm thinking that breaking this story into multiple parts made me lose focus.

Seriously, I started getting a bit bored into the third book...

Sooo...

Flo says

I liked this, I have read other works by this author don't know why this wasn't one book
