Capturing Cas Stormy Glenn

[Siren Everlasting Polyromance ManLove: Erotic Alternative Futuristic Sci-Fi Multiple Partner Romance, M/M/M/M, light spanking, sex toys, HEA]

Escaping from a general intent on forcing him into a life he doesn't want, Cas crash lands on a planet that was supposed to be inhospitable and desolate. It was anything but. Captured and mated before he even understood that the barren planet teamed with life, Cas finds himself living in a compound filled with warriors and families and three brothers who state that he belongs to them. Made a pet, Cas learns what it means to be loved by three warriors blessed by the goddess.

When trouble arrives, Cas has to decide if he will make the ultimate sacrifice in order to save the way of life for his mates, or will he allow the general to take everything from him, maybe even his life?

Serena Yates says

A man escaping from enemies who conquered his home planet, then forced him into military service and want to alter his looks so he "conforms", has my sympathies. This is the story of Cas, who is determined not to be told what to do, yet ends up in very willing submission to three aliens on a planet far, far away from home. The world of Terra Nova is an odd mixture of science fiction and fantasy—at least, that is what a goddess appearing out of thin air implies to me unless further explanations are given. Yet, it certainly intrigued me. It has a very unusual society, some interesting customs and behaviors, and men who know what they want; one of those things is a mate who will be adored and cherished whether he likes it or not.

Cas has already lost so much, including his home, but after being made the conquering general's "personal assistant" and being told his pointed ears will have to go, he says enough is enough and runs. Even risking his life by landing on a seemingly barren planet is a better option for him than being mutilated. I'm not sure if that is utterly brave or extremely stupid, but it works for him. The next thing I struggled with was his being claimed by three brothers before Cas had a chance to understand what that meant or say no—but again, it seems to work for him. And I loved that he was the one who holds the key to saving his new home planet from destruction!

The three warrior brothers, Zus, Zan, and Zev, are definitely imposing cat-like men who know exactly what they want and expect the mate they choose to obey their rules, even though he is from another planet. Not to mention they genetically change him so he is better able to fulfill their needs—a very debatable point, in my opinion, especially since it happens without the changee's consent. The brothers share Cas as a mate (but not each other), and each of them has slightly different strengths and preferences, but when it comes right down to it, they are very similar in what they are looking for. I was grateful to see they were mostly benevolent (although I hated that they punished Cas at the end despite all he had done for them). But have to say their overbearing attitude, for me, was borderline dictatorial.

If you like reading about alien societies with very different morals and attitudes to ours, if men who know what they want and demand submission from the man they have chosen pique your interest, and if you're looking for an imaginative and unusual read that crosses genre boundaries by adding a goddess to a science fiction world, then you might enjoy this novella. I am curious what happens in the next volume, and hope for more background and a more detailed explanation of some of the world building aspects.

Stephanie says

Interesting story would have liked a bit more character development. The mc's have potential. Would like to see what happens next. As the first in a new series this was pretty good read. Hope the next book gives more detail.

Julie scott says**Capturing Cas [Terra Nova 1]**

Stormy Glenn did it again another great book I Loved it it was a hit a home run I can't wait to read the next one in this series I hope it's soon

Bogusia says

2.5 stars

Leaundra says

I really enjoyed this one and loved their word. I thought all of them together was sweet and hot. Looking forward to reading the second book in the series. I just love Stormy Glenn's writing. She's always been one of my favorite M/M authors.

Suzy says

2.5 stars

Virginia Lee says

Another great book by Stormy Glenn....

Cas was able to find love and support with his mate. Three brothers have decide to make Cas his mate. Through all their trials when the time came what sacrifice would you make?

Hc says

This ended being better than I expected. Brothers sharing a mate but even when they are all in the same room its basically one on one. Concentrate on the one in the entry zone and Maaaaybe get some chest caresses from the other two. Was there any mouth play? Hmm I don't think from Cas but one of the guys I think perhaps once?

Oh and could have down without the skyward interference of a certain powerful entity.. thus named goddess. Although... at that point I was strongly reminded of a Stargate Atlantis episode of an ascended ancient guarding a world as punishment

P says**Total rating : 2 Stars**

Ummmm.The first part of Capturing Cas was good.I loved it.
And then the story led to relationship between three brothers and their mate,It made me sick.
Oh ! I liked sex scenes,it was very hot indeed.But There was nothing between them.
Chemistry ? No. Romance ? No. Possessiveness ? Maybe.

It's hilarious to see how the world was made at the beginning.Er...sort of neanderthal,right ?
And what about the end ? I saw many high technologies in it like STARTREK.WTF !?

Sabi says

No chemistry with MC at all.

Elayne says

A good start to a new series, Cas appears to have landed well, with 3 mates, and on a planet where he can put his skills to good use. Looking forward to the next, which I already have on the TBR pile.m

Lizzie says

It's Stormy Glenn, so fluff at its finest. I always enjoy this author and though I did enjoy this story, I felt it was too short to encompass such a large grouping. Not rushed because I enjoyed the storyline and especially the climax, though there wasn't much of a lead up to that part, you were just suddenly there. Mostly, there was no real depth to the characters relationship, none of the little details that draw you into who these men are together. All you really see of their interactions are the sex scenes. Still, I'm looking forward to the next installment.

Ale Rivero says

Siempre estoy volviendo a Stormy, me encanta! Aquí tenemos el inicio de una nueva saga, que a decir verdad pinta bastante interesante. En este caso, la autora mezcla ciencia ficción con romance homoerótico y crea algunas cosas bastante interesantes dentro del mundo.

Cas es aquí nuestro personaje principal, un athaira -que me da a mí que tienen algún parecido con los elfos-, es súper lindo a pesar de que él no se lo cree del todo y para eso es que aparecen en su vida los trillizos talamachait: Zus, Zan y Zev quienes le demuestran con su amor y deseo que él es todo lo que cualquiera podría desear y más.

Sumada a la relación entre los personajes tenemos una trama de batallas y conquistas interestelares que creo que le dará mucho juego a la saga, veremos cómo se sigue desarrollando. Muy recomendable.
