## **Definite** Kaylee Ryan

Lauren captivated me with those big brown eyes of hers, and I knew my life would never be the same. What started out as friendship, has turned into so much more.

I was shocked when Tristian asked for my number. There hasn't been a day since that I haven't heard from him. He may be the drummer, but that deep sexy voice, it turns me inside out.

I assumed it would be one and done, but that's not how our story ends.

I worry it's not what he wants. He tells me he's Definite.

## Johnaka says

Definite by Kaylee Ryan

“Definite love, 5 stars”

I absolutely adored Tristan and Lauren. Definite is one of my favorite types of love stories. They stay together the whole time once they commit and there is no wishy washy second guessing once they get started, I loved it. These two start off as friends and over time they transition from friends to lovers and its done in the best possible way. Ryan definitely hit it out of the park with this one.

Tristan didn't think love and relationships were for him, until he met Lauren. She drew him in with her sad big brown eyes the first time he saw her and he was hooked. They couldn't have a conventional relationship in the beginning but it was pretty obvious that they wanted each other. Could he give up his life star as a rocker and get the girl or will he get to keep his love for music and get the girl?

Lauren is a good girl who has no intentions of doing anything with a bad boy. But over time her friendship with Tristan grows and she can't help but invest her heart even if she thinks he's not on the same page. Insert turning point and its game on for these two. will his crazy life be too much for these two? or will Lauren go through it all just to keep her once in a life time kind of love?

At times Lauren was wishy washy and it drove me batty, but when I stepped back I completely understood why she was the way she was. Tristan though, he was strong and steady. I loved him hard and his excitement was always undeniable. You also get to enjoy Tristan's band members. I loved how they really were family and stuck together. I cannot wait for Gavin's story.

## Laura says

\*\*\*ARC Provided by the Author and GIVE Me Books\*\*\*

I enjoyed this title. I liked the characters, and I liked the overall story. I liked that they were together for most of the story, that the setup and the beginning of the relationship happened fairly quickly.

However, there was one part in the plot that I just could not get past. It's hard to detail it without spoilers...but, let me say, at least for me, there is a difference in keeping a secret and lying. And, I thought Lauren crossed that, and I had a tough time moving to the other side of this.

The rest of the story, after this event, was actually focused around the lie she told, and the resolution of this lie and the subsequent events around the revelation of her secret. So, while I did enjoy it overall, I was stuck on that. And, I can't lie, it colored my impression of the rest of the story, and it made it difficult for me to relate to Lauren for the rest of the story.

I do recommend this title, especially as the issue I had with it was very likely something that will not bother someone else.

I am looking forward to the next title in the series.

### **Liz says**

Definite by Kaylee Ryan was a nice surprise. This is the first book in her Soul Serenade series I have read and loved it! This can be read a standalone, though I am definitely going back and reading/listening to the first two books in the series as soon as I can.

When Lauren and Tristan met, they exchanged numbers and quickly become friends through calls and texting. But when Tristan wants more, Lauren has a hard time believing it. Lauren cared deeply for Tristan, but second guessed herself a lot. Tristan though was determined, strong and patient. I loved him from the start! He was both a strong alpha man and do damn sweet!

As a drummer of a band, Tristan life did not easily allow for a committed relationship, but once he met Lauren and got to know her, he knew he wanted more. I found Definite to be such a sweet and charming read with all the right feels. I only discovered Kaylee Ryan last year and she has quickly become a must-read author for me.

Read and reviewed for Sultry Sirens Book Blog.

Happy reading!

### **Heather andrews says**

Tristan can recognize his flaws, "you okay?" I ask. I'm a \*\*\*k for not checking on her sooner, but darn, this is all-consuming." Tristan likes to give his woman a head's up on things, "I stick my tongue out at him like a child. "I have plans for that later." He wags his eyebrows at me." I liked this book, I loved Tristan the man just had a big heart and was mush when it came to his woman.

---

### **April Symes says**

Kaylee Ryan has done it again with a story that gave me all the feels and a new totally hot book boyfriend in Tristan. In this book we follow Tristan & Lauren's story in the Soul Serenade series book 3 "Definite". Lauren and Tristan's love story is really sweet. In this story, it is hard to miss the love for one another and the intense attraction that they feel for each other. Tristan is a rock star who can be all alpha but he really is just all snuggle bear on the inside, especially when it comes to Lauren. They become fast friends after meeting and then very quickly exchanged phone numbers started calling each other and texting all the time. Tristan knew he met his one but Lauren doesn't know what to make of quickness of their relationship. She is in disbelief over things. Can Tristan prove how serious he is about her and how badly he wants her in his life? Or will Lauren be the one that gets away ?

All I can say is this is one story that had me swooning and rooting for their HEA. Ms. Ryan has written a sweet and moving love story. Tristan is one true book boyfriend, one any woman would love to have in her life. Lauren is a strong, sweet, sassy woman who didn't know what to make of the good fortune that had come into her life which caused some issues but made for awesome book reading. I loved the road this book took and can't wait to read more from this author, especially if there is more in the Soul Serenade series..

My Rating: 4.6 stars \*\*\*\*\*

"I received an advanced copy of this book from the author at no cost to me."

### **Becca says**

TRISTIAN! Boy he is so sweet yet when it comes to Lauren he is pure alpha. I loved this book hard and was so happy to see book 3 in the Soul Serenade Series on my kindle!

If you haven't read this series, you really need to add them to your TBR now.  
Full review to come.

### **Nancy Metsch says**

Drummers do it best!

The Soul Serenade series just gets better with each book. Tristin's story really was amazing. I believe this book is my favorite. You know how they say when you meet the "one" you'll know. For Tristan and Lauren that truly is a fact.

It was suppose to be just friendship. Texting and or talking. But Cupid had other ideas for these 2, You want what it is READ THIS BOOK!!!

---

### **Sharon says**

OMG can you say swoon!!! Kaylee Ryan gave me all the feels in this story, and a new book boyfriend in Tristian!!

In this book we follow Tristian & Lauren story in the Soul Serenade series. They become fast friends meeting and exchanging numbers and through texting and phone calls become great friends. He wants more but she just doesn't believe it! Can he convince her that he is Definite about her? Will she believe him ever? Get ready to swoon, fall in love and enjoy the ride this author gives you with her words! 5+ stars for this one, you have to read it, meanwhile I'm going back to read the first two books in this series and I can't wait!

---

### **Diary Of Book Fiend says**

This was a super cute and sweet book.

I have not read the first two books in this series, but I didn't feel like I was coming in blind because the way

the author introduced the characters. The first time Lauren and Tristan meet at her grandpa's funeral and then a little later for an engagement party and then again at Logan and Kacen's wedding. I felt like I had all the details without reading the first two, but I am definitely ( ha ha get it..DEFINITE-LY) going to go back and read the first two now.

I am not usually a big fan of the super sweet Love fest, but the way the author wrote this book, it worked and kept me interested. I loved how Tristan didn't fail to hold back his feelings, he told her what it was when he realized he was all in. There was zero miscommunication and over the top drama. I am a big fan of no over the top drama!

Lauren was not a doormat female lead and I liked that. This was an easy read, and I really enjoyed it. This is only the second book I have read by this author but I will be checking out her other books for sure.

### **Kathy West says**

When you see my 3 stars, don't think I didn't enjoy this book because I did. I gave this book 3 stars because I just could not connected very well with this book.

Lauren and Tristan have a really sweet story. You can see the love they have for each other and it is expressed many times during the book.

If you are looking for a sweet, romantic read with a HEA, then this is the read for you.

I am the kind of reader that needs a bit more angst in my books. I need a bit more grit.

Like I said above, this is a good read, I just didn't connect with it.

---

### **Nerdy Dirty & Flirty says**

I've read quite a few books from Kaylee Ryan and I've really enjoyed all of them. This is the first book I've read from this series and I will definitely be going back to read the first two! Tristan and Lauren were fantastic characters and their journey was enthralling.

I loved how down to Earth Tristan, and the rest of the band, was. They were all so sweet and caring. The way they interacted with one another was really special and added so much to the story. In addition to the group dynamics, Tristan and Lauren were perfect. I loved the build from friendship to more.

I don't want to spoil anything so I am not going into detail, but this story included one of my favorite tropes and Ryan did it so well. I loved how she included an element of suspense too. I do wish this aspect played a bit of a bigger role but the way she did it had us almost forgetting about it until something happened. It made it a bit more of a surprise.

I just one-clicked Emphatic and I'm excited to dive into that one. I'm eager to see where the story began.

## **Kayla Brunson says**

*I received an arc in exchange for an honest review*

*Quotes were taken from an arc and are subject to change upon publication*

***"I won't stop until she's mine. Until she accepts that she's mine."***

Kaylee has gotten me again. I finished this in one sitting. Y'all!! Tristan was a dream to read about. This rock star was a complete teddy bear when it came to Lauren. He knew he wanted Lauren and never not told her he was all in.

I was a little annoyed with Lauren in the beginning because of the hard time she was giving Tristan. Maybe I became a little overprotective of him? She got over it, I mean she had to because Tristan wasn't letting her go anywhere!

***"I want the drummer, the uncle, and the best friend. I want it all Tristan, every version of you. I want the fairytale."***

And a fairytale it was! Once they got together I couldn't stop reading because they were absolutely perfect! This gave me all the romance feels that my little heart could take.

Now there was a little bit of suspense that had me clutching my Kindle, but I won't ruin it for you.

All in all, another great book from Kaylee Ryan! Swoony men, a romance that will give you the feels, and I loved it.

---

## **Andrea Fleury says**

**Just as great as the first one.**

This is the third in the series. I loved each and everyone of them. But I have to say I simply adore Tristan. I love how how Alfa he is. How tender and so romantic.

---

### **Jennifer says**

Lauren and Logan are cousins. Tristan is the drummer for Kacen's band. A chance meeting leads to an instant connection, and shared texts. They become friends, but no one knows.

Lauren assumes that because he is a Rocker, Tristan won't take what they have seriously. It's just one night. She tries her hardest to not get her feelings involved. But hearts don't work that way, and life doesn't always go the way you expect it to.

Tristan doesn't know what he's feeling, or where it's going to lead, but he knows that he wants something with Lauren. However, life doesn't always give you time to figure out exactly what you want or how you want it to play out before its moving too fast to catch up.

I love how Tristan does what he has to do to move Lauren around to his way of thinking. Once he made his mind up about how something was going to be, he just did it, no questions asked! I also loved how supportive, and patient he was with Lauren. SWOON!

This book is one big surprise after another! I loved visiting with the characters from the other books, and catching up with their lives. Along with the surprises, there are a lot of laughs, and more than a few tears. Once again, Kaylee Ryan has given us an emotional read that is going on the top of my reread list!
