# Doctor's Fake Fiancée

Charlize Starr

**Doctor's Fake Fiancée** Charlize Starr

I'm the best gynecologist in the world. My job is to look women in the... eyes. Deep.  
If you're not on my booty call list, you want to be.  
But my lawyer says I need a wife. Or I'll lose my daughter.  
And there she is. My new neighbor. The most innocent sweet geek.  
I watch her through my window. I can see that she wants to play. With me.  
So I make her a deal.  
She has only one condition. She wants to wait until the wedding night. Cause she's a virgin.  
Game on, baby.

**LUCY**

I've always had a crush on him. He gave me my first kiss. My brother's best friend.  
But I'm all grown up now. He doesn't even recognize me.  
He proposes the most disgusting deal in the world. One million if I marry him.  
Another million for a baby.  
But I have no choice. I need the money to re-build my chemistry lab.  
He drives me insane with his devastatingly hot abs and gorgeous smile.  
And now I'm stuck in the same bedroom with him. For three days. All alone.  
This guy is going to be the end of me.

**This is a 96-page bad boy, second chance, single dad romance with a fake marriage. It is a stand-alone story with an HEA, so no cliff-hangers! It includes lots of steam and mature language. Most definitely for 18+ readers.**

## From Reader Review Doctor's Fake Fiancée for online ebook

### Michele says

This was a great book. I am still not a fan of the style of book, the he said, she said chapters, but in spite of that, the story was very good. Intelligent virgin meets and rekindles the fire she had for her brother's friend. Brother was too protective in school, as they should be. Hero has daughter to protect and care for, and seems like this virgin is familiar but he can't place her. Enter ex wife wanting child custody.

It is a familiar story but full of love, faith, courage, and second chances. Definitely something to cozy up to with a glass of wine to relax and reflect on your own loves.

I voluntarily reviewed an Advance Reader Copy of this book.

---

### ♥? Paulette says

Title: Doctor's Fake Fiancée

Author: Charlize Starr

? She changed her name from Lucy Miller to Lucinda Graves to get away from her ex (Braden) who was abuse of & who also had stalked her

? She just wanted a chance to start all over & put Lucy behind her. Lucinda fears with Braden's job she wouldn't be able to hide for long after her lab burned down. For all she knew Braden had set the fire at her lab/apartment

? Lucinda was lucky to find a small attic apartment centrally located close to her friend's lab.. Lucinda thought she had it made until she could get the money from the insurance to start up another lab of her own. Well until she saw her neighbor having sex with his blinds open

? Max is a gynecologist as well as single father. That will stop at nothing to make sure his cheating money hungry ex-wife doesn't get her hands on his daughter. Even offer his new sexy neighbor proposes- One million if she marries him. Another million for a baby.

? What Max doesn't know is his sexy new neighbor is his high school best friend's baby sister. They have past together

At times throughout this book it was hard for the story to be believable, more like Fairy Tale... At other times it seemed very believable ... I thought that author was going to give us more information on the ex-boyfriend

? All in all it was a very likeable short second chance love story

► Hope you enjoy this read & also always keep in mind this is just my opinion

### **Christina Montminy says**

I really enjoyed my first read by author Charlize Starr. It was sweet, steamy & at times down right hot! Needing a wife to keep custody of his daughter Max is stunned when he meets his new next door neighbour & realizes he's not interested in anyone other than her. Lucinda(Lucy) has a secret, she knows Max & has been in love with him for twelve years. He was her teenage crush and her brothers best friend. Her first sighting of him is in his bedroom with another woman, upon meeting him the next day she realizes who he is but he has no idea because Lucy has changed quite a bit. The truth soon comes out and Lucy is shocked when Max isn't mad at her, it only clears up why he felt so comfortable with her and why he thought he knew her. Definitely recommend to read. I received this ARC for free for a voluntary review.

---

### **K.A. Lightle says**

I received this as an ARC for review

Now that's out of the way it was a quick read. But saying that it was filled with lots. Lucy having gone through hell with previous relationships moves into a small apartment next to the man who's always been on her mind. Max has grown up and now has a beautiful daughter but is complicated with his ex wanting their daughter with the mindset of wrecking max. Max wants nothing to do with his ex and his lawyer draws up a plan.

After reconnecting with Lucy at first not knowing it's her till they both get the same mail from her brother and his best friend. The truth comes out but where what should pull them apart only draws them closer and the lawyers plan for him to find a fake fiancee only makes them confess their true feelings.

Now saying that I'm going to stop other wise I'm going to spill it all and you won't read the book which you must. I hope in some way there will be maybe a spin-off or maybe more of max and Lucy in the future

---

### **Suzanne Giorgione says**

This is the third book I have read by Charlize Starr and I loved it! She hasn't disappointed yet! Hot and steamy fast read but a lot of story in a small package. Max and Lucy knew each other years before because Max was Lucy's brothers best friend. He gave her the very first kiss she ever had and she crushed on him for years, never forgetting that sweet moment. They meet up again 12 years later and he doesn't recognize her. They are neighbors and from the get go, major chemistry is there. Lucy's lab burned down along with her apartment so she rented the upstairs apartment of a nice older lady. Max had an adorable daughter that he was trying to make sure his ex-wife didn't get custody of and his lawyer told him he needed to get a wife to make sure of winning. He enjoyed women but didn't want to get into a relationship after being burned the first time around. Lucy changed all that. He offered her a deal that at first she refused, but then she changed her mind. Take a chance on this book and you won't be disappointed. I voluntarily reviewed an ARC of this book.

---

### **Hsu Lee says**

ARC - I voluntarily offered to review this book with no obligations and my opinions are honest!

Max needs a fake wife.

His ex is trying to win custody of their daughter.

He thought that the new neighbor would be the perfect fake wife.

Now, he just have to convince her.

Lucy or Lucinda had a crush on Max for a long time.

In order to escape a stalker, she changed her appearance.

That is why Max did not recognize her.

Now Max wants her to be his fake wife.

Could she do it?

Will she give in to temptation + accept Max's proposal?

You will have to read the book to find out.

It was a fast paced read.

I like the characters + the storytelling.

---

### **Elizabeth says**

There are a couple of things going in here.

1) a premise with potential (brother's friend/reconnection/ needs to keep custody of his daughter) but somewhat poor execution. It was hard to like Max, he came across as cold. I just didn't buy Lucy. She somehow lived with her abusive boyfriend, but they never shared a bed?

2) Editing issues.... there were inconsistencies in the story that a good editor would have caught.

3) KU click bait - the advertised story is only about 10% of the downloaded content. I typically check page count before clicking, this was listed at 96 pages which is believable for a novella, so imagine my surprise when I opened such a large "book" on my kindle. I picked this up for free, but would have been horribly annoyed had I paid for it.

I went into this expecting their to be certain limitations, given that the "book" was less than 100 pages, but this couldn't even meet those lowered standards.

---

### **Iris says**

Lucy has had a crush on her brother's best friend since she was a kid. Now, several years later they meet up again and the chemistry is still there. I love these kinds of stories. Here's where I have issues with this particular one...

Lucy lies to him, never telling him who she really is. She just agreed to be his fiance and marry him so he can get custody of his 3 yr old daughter, is she planning to marry him and never tell him the truth? Won't family holidays be a bit weird when you bring your brother's best friend and introduce him as your husband?

Braden! We hear so much about Braden and the abusive relationship, how he stalked her and possibly burned down her lab. Yet that story arc goes nowhere. Why bother mentioning it so much if you don't plan to

follow through with it? While we're speaking of Braden... there is a scene during her move, where we hear about how Braden kept all the furniture from their place because it was his or he paid for it or some such nonsense (at this point I've already forgotten), so luckily she didn't have much to move in and the apartment was already furnished. This implies that at some point they lived together. She also mentions that he forced her to do stuff sexually. But we're expected to believe that after having lived together and having an abusive boyfriend that "forces" her to do stuff sexually, she's still a virgin? I'd believe it if he were a eunuch. It's just a big hole in the story that could have easily been avoided.

Overall, once you overlook the obvious holes in the story, it was an enjoyable read.

---

### **Sara says**

Oh my...this was pretty bad.

First of all, how can you rate it five stars? Like, really?

I don't like to talk bad about books because the authors put a lot of work into creating them but in this case I feel less sorry.

For example, in the first chapter the h parents supposedly died when she was fifteen but then they magically reappear at the brother's wedding?! It really made me laugh.

The rest of the story was just totally unbelievable, the kind that makes you roll your eyes until the end, plus the H was the worst character of all. It felt like the author wanted to create a dramatic plot but the result was just a ridiculous story.

Sorry but...yeah...it was bad.

---

### **Julianne Macneil says**

I read this book as part of an arc program. I liked this second chance romance between Lucy and Max. Lucy always had a crush on her older brother's best friend Max and at a party before he left for college, Max kissed her. Max always thought Lucy was cute in a quiet, geeky way. When he kissed her, he wanted to go farther, but her brother came along and stopped them. Years later, Lucy is all grown up and has had to change her last name because of an ex-boyfriend and needs a new place to live because her home and lab were burned down. Lucy moves into a small apartment next door to Max. Max is a very successful doctor and the single parent to a little girl. Max's ex-wife is suing for custody in a move to get more money from him and Max's lawyer advised him to marry to boost his chances at keeping his daughter. Max asks Lucy to marry him, offering her money and the opportunity to rebuild her lab. Lucy refuses at first but then reconsiders because Max is such a great father. When Max receives a wedding invitation to her brother's wedding, she knows she has to tell him who she really is. I liked this story and thought Max was cute the way he reasoned Lucy to be his wife. This was a cute, quick read that was enjoyable.

---

### **Vivian Chrisman says**

Lucy's life went up in smoke. Well her lab and apartment did. The apartment she is staying at until her insurance pays up comes with an added bonus- a hunky neighbor. Imagine Lucy's surprise when said neighbor turns out to be her brother's friend. The same friend Lucy had a crush on. Max is a doctor now with a little girl. After a bad marriage he has sworn off love. He doesn't recognize Lucy but is attracted to her.

When the ex tries to take away his daughter, Max asks for a favor. He will pay Lucy to be his wife to help him keep his daughter. What will happen when Max finds out Lucy's real identity? Will these two find true love? I really enjoyed this story. It was a nice fun read.

\*I received an Advance Readers Copy of this book which I am voluntarily reviewing \*

### **Magali says**

3,5

I voluntarily reviewed an Advance Reader Copy of this book.

Good story about a nerd scientist who changed her name because of her ex-boyfriend who stalked her, and now she needs to move in, in a small room in a house because her apartment burned. Then she discovers that her new neighbor is her crush from 12 years ago. Except he doesn't recognize her, but is really attracted to her, and he needs her to be his fake wife to keep the custody of his daughter. But, in this story, it's more interesting because the heroine doesn't accept blindly.

One thing I don't understand : she's got to escape her ancient life, she fought to keep doing her researches, and during the reading, this seems to disappear...Sometime it seems that the author cut a part of the story and just explains this part to us. So, I was a bit disappointed.

---

### **The Romance Book Disciple (Samantha) says**

So, first let me address an issue with KU. Authors publish these books on KU, knowing that page views get more money. The story advertised is 6% of the total book. Now, the rest is filled with other stories and that's fine, but why?!? Why are those stories included? Why not publish them independently? So, I read just Doctor's Fake Fiancee and then returned the book. So many authors are frustrated with KU for the manipulation that occurs and filling 94% of a book with other stories that aren't mentioned anywhere seems shady to me.

Now, the story. Predictable and trite. Both characters were static and the writing was choppy. Much more of a 'tell' not 'show' writing style. I felt that the whole book was just telling me what they did instead of writing a story that the reader experiences. I think the story could have had potential and my hope would be that this was something to fill the void between Alexa Riley book releases. But, between the 94% of the book that was other stories and the writing, I don't know that I would read any other books from this author.

### **Kelli Santistevan says**

I enjoyed reading this story but what the book's description on here doesn't mention is that there are extra stories at the end that the author decided to put in here but I don't know why she didn't mention that in the

description. It's very misleading because I thought I was only getting one book. I will read the stories in here eventually because they've been published separately since then.
