Glenna Maynard

**Heart of a Rebel** Glenna Maynard

*Alternate cover for this ASIN can be found here*

The hardest road a man will ever travel is the one he travels alone. Rebel Black lives and rides by his own rules. This is his story...

After hitting rock bottom, Rebel can't get his life together. He made his bed and he has to lie in it. When forced to face the consequences of his no holds bar lifestyle, he comes face to face with the devastation he has caused. Will he ride the road to redemption or will his demons prove to be too much?

Grim Jones answers to no one, but the patch on his back. He has two words on his mind...justice and revenge.

Baby is roaming down an empty road of heartache and despair uncertain of what her future holds. Her world has been turned upside down and just when she thinks she has life figured out, it bites her on the ass at every curve.

Romeo will stop at nothing to protect the life he has claimed for himself and his children. He is determined to make good on his promises. Even if it means killing his own kind to keep his word.

The Black Rebel Riders' MC continue on their journey. Are you ready to embark on the adventure with them? They are ready to ride free or die trying...

### **So many twists and turns.. Loved every second**

I have read every book in this series. They get so much better as they go on that I forget I'm actually reading a book. Rebel is trying to rebuild his life after his wife is taken from him. Baby is trying the same with her situation. The whole book/ series feels like I should be watching a tv show. The character development is superb. The plot is so perfectly planned that I hated having to break for life. I could literally talk all day about how this book made me feel. But I'd give it all away. Bravo, Ma. Maynard.

I love the Black Rebel Riders and this one is no different for me than the rest. The story has plenty of angst and twists along the way. It didn't let up in keeping you all twisted up like you have grown to love from Glenna. To be honest though I found myself more anxious at the end of this one since it seems like the story was really wrapping up. I didn't like the feeling I was done with Baby. I know there are more books in the works it is just how I felt. I felt like I was losing a friend, like she was moving somewhere I wasn't going to be able to visit. I digress, you need to read this one if you have read the rest...you will be relieved about some things, mad as hell at others, and in my case nauseous about another. In other words...enjoy the ride!

I swear you never know what is going to happen in one of Glenna Maynard's books. She surprises and shocks me at every turn and this book is no different. I could not put this book down and literally read it in one day while at work because I could not put it down. I love these characters and they have become such apart of me and I desperately wait for the next book to see what happens. I couldn't wait for Rebel's book and WOW was I shocked at the events that unfold throughout the book. Some questions are answered while more questions arise and I promise at every twist and turn you will be shocked. Glenna takes these characters for a wild ride and weave them through a tangled web and I simply cannot get enough!!

BETA COPY RECEIVED

WOW..... I've loved everyone of the books in this series so far but for me personally i think this one is the best yet !!

The twists and turns in it gave me some spine tingling moments, and it's even more action packed than the previous ones. Questions from Romeo's book get answered and explained, and some things which happen hit you like a bolt out of the blue when you least expect it !!

I laughed, cried and did a bit of each some more too at times as it pulled me in and took me on the ride of my life !!!

LOVED IT !!

Holy shit! I am still trying to figure out why in the hell this series has not been picked up and put on television. Glenna Maynard you are freaking amazing and this series is incredible. I have read all of the books in this series and each book gets better and better...and it blows my mind. I really enjoyed this book because you get everyone's point of view in this book.

Rebel is still sexy as sin to me and the fact that he is a total ass to Lil' Bit breaks my heart. That poor girl but she is feisty and kicks his ass and I flipping loved it.

Baby...now this girl has a special place in my heart. She is truly her father's daughter and hands down my favorite character of this series. The fact that she has gone through so much and yes her too has done pretty shitty things too.

Now please now that this book just isn't about Rebel and Baby. I was to go into mini detail about the other character but I won't because I need you to read the other book in these series...if you haven't done so.

I have to say that this book is the best one of the series. I am still sitting here with a huge ass smile on my face. I am so happy with the outcome of this book and I can assure you that I didn't even know that any of this was going to happen.

Glenna Maynard I dig the shit out of you and I am so happy that you have brought Grim, Red, Romeo, Foxy, Striker, Rebel, Baby, Sunshine, Rumor, and Colt into my world. I am been a fan of your since book 1 and you have continued to blow me away with each book that you have written. I will honestly say that if and when you end this series.....a piece of my heart will break. That is how much I love this series!

Loved, Loved Loved most of this book. I have an issue w/Rebel getting a HEA. I don't think he should have, He was just too messed up, cheated on poor Rumour & knocked up someone else. Then shot/killed his brother....argh. makes me so mad. I hate that baby & Striker had to leave "the life" Also, what did Baby do that gave Striker any reasons to get back at her? She didn't tell him she was pregnant, but he also never came home for her to tell him.

I loved Sunshine & Grim together & I loved Romeo & Baby together.

My heart is still pounding from reading this.... Can't wait for Cole/Colt. Hopefully they can all go home after he finds Grim. =)

Heart of a Rebel is the sixth book in the Black Rebels MC series. These are not standalones, you really need to read them all in order to get the whole story and believe me you want it all!!

This book picks up where Romeo ended, I am not going to give any spoilers away so this reveiw is going to be very vague. All of your favorite characters are back and we even meet a few new ones to. I absolutly love this series. I feel like I know these people, like I am actually in the book. You love these characters, you hate them, you want to beat the crap out of them and you cry for them. And that is because the writing is so freaking good! Glenna pulls you in, you feel every emotion as though it is you she is telling you the story herself. If you love MC books, then you must read these, you will not be dissappointed.

## **Stacy Kirkpatrick-Marlton says**

I think I may have hyperventilated at one point in this book!! I loved it!! Well I have read every single one of these books in the series and I do think this was the best one.Full of hotness, love, sadness, angst and twist and turns you just do not see coming..I love how this author can tell so many peoples stories at the exact same time and you are never, ever lost. This book will keep you guessing and will keep you turning every single page, but you just don't want it to end! I want a thousand page book because I am so emotionally invested in this series. I can not wait for more to come.....

**This series is awesome**

This is by far my favorite biker series ever!! Just when you think it can't get any better it does. Not full of hearts and roses more like heartbreak and horrors but it is awesome. It is a never-ending soap opera of bikers and I Love it so much I cannot wait for next in series.

#### **ANOTHER HIT**

Loved this one! I love the fact that we get an update on all the characters in this series not just one. So much happens in this book that I saw myself taking notes...lol. Really this book wraps a lot up hit opens the door for so much more. Can't wait to see what Glenna has in store for us next!

### **Sandy Emary says**

Wow! Never thought it would turn out that way but I love it! So many possibilities to explore... Will Cole/Colt find his answers and what will happen to all when he does?! Looking forward to more books in the Black Rebel Riders series.

### **Anne Milne says**

I know that my review want do this book justice it is simply amazing. If you've read all the books you will know that Glenna likes to play with your emotions nothing is off limits whether it be lovers, betrayal or death she puts them all out there and leaves the reader hanging and with too many wtf moments to count. There are lots of twists and turns and even though we find out some of what was hinted at in the previous book there are still some unanswered questions. I'm not going to say who ends up with who, who makes it out alive but we get a resolution for the charcters we know and love but I have a feeling that there is more to come and I can't wait. Well done Glenna I think its the best of the series so far.
