Her Rebel

Alexa Riley

Her Rebel Alexa Riley

Minnie is a nurse trained to heal the people who hold her down and she's tired of doing nothing. She's looking for a way to fight back peacefully, but a hulking slice of man has her distracted. He's familiar and exactly like the man she's dreamed of, but she needs to focus.

Owen is the leader of the rebels and doesn't have time for anything else. Except finding the girl he lost long ago. She's the one person who ever had his heart and without her his world will crumble. When he finally finds her again, he's ready to show her exactly what he needs.

Warning: This dystopian romance doesn't get caught up in the world around it. Instead we focus on the love and steamy goodness! Travel into the future where there are cherries to pop and babies to be made!

Her Rebel Details

Melanie (mells_view) says

She's dangerous. Everything I've built could come crashing down around me because of her.

I love this Rebel world! Alexa Riley meets dystopian has made all of my quick smutty read dreams come true. So pumped for Secret Rebel, and hope it's about someone we saw in Her Rebel! Never stop writing in this world. Ok thanks!

?Tonya? says

3.5 stars

While I'm not usually a huge fan of a dystopian story line, I did enjoy this one from Alexa Riley. The story focused mainly on the couple so it worked for me in that respect.

- no cheating
- no ow/om drama
- instalove
- dual virgins
- no violence of a sexual nature

-epilogue was 8 months out and not enough for me.... I needed much more for instance what did they end up having???

Gi's Spot Reviews says

Without a doubt one of my top fav dystopian novella, all AR sweetness and passion in a beautiful and well developed story!

Cristina | CristiinaReads says

⇒⇒*Forbidden fruit is one thing, but finding the one and only one true person who is your destined soul mate should not be forbidden and be taken away from an alpha male, especially one who would do just about anything to have his mate...*

⇒⇒A romance filled with **lust and hunger, nothing new coming from Alexa Riley but indeed something that I would take any time** of the day. I want to keep this review short and sweet because AR always does that, they both always write romances that lust worthy for **anyone who is looking for a smutty romance. Romances that make you crazy with haste** and passion between both characters that are just possessive

towards each other, and bring comfort to each other in a society that has a lot of regulations against any sort of sexual contact, or anything beyond the norm.

⇒⇒Overall, this was such a **sweet read. Longer than what I was expecting because if you had read the previous book in the series, His Rebel, you get to read a little bit more on the the previous** characters. Thank you to Alexa Riley for providing an early, and smutty copy of this puppy because I sure needed it!

Chitra *CJ* says

"Her Rebel" is the story of Minnie and Owen.

AR trope sent in dystopic world where war exists between The Regime and Insurgents with

-Double V card

-A couple who has to fight to be together

-Reunion and unrequited love

-Some separation drama

-HEA

I'll be extremely honest- I love me some angst and dirty talk, and this had none of that and loads of ott sweet and cheesy lovey dovey talk- which I did not want to read today. Also male virgin heroes are one of my pet peeves.

Safe

2.5/5

Janie says

3.5 stars

C says

4/5

Safe read

-Insta love

-both virgins

-no ow Drama

-OTT alpha

-no abuse

-HEA with epilogue

Elle says

3* STARS!

Mini review: The nurse from the previous has her own story. It has more plot and quite promising before the male turns into caveman and all about sex. Yeah, that's AR for you :))

Sabrina The Trash Queen says

2.5/5??

Hiç bi?i hat?rlam?yorum ama dün bitirdim.

Böyle iki oluyor, yani Riley bi gecede bitmezse unutuyosunuz aq kitab?. Böyle bi saçmal?k olabilir mi ya kurban oliim clc?d?f

Tek hat?rlad???m hemen sevi?medikleri OOO BÜYÜK OLAY sanmay?n ama ??????. Bu sefer ???k h?z?n?n yar?s? kadar bi bekleme süresi var ckckdovpdvvpd

Ama gözlerim kapal?yken okudu?um için ço?u kez normal olabilir asl?nda ama yine de ben gözü kapal? neleri okudum be, paslanm???m.

Nys.

Fena de?ildi(r) diye dü?ünüyorum öyleyse Riley.

**** 4 "better story arc than most AR romances" STARS ****

Sophia Triad says

Dystopian smut! Why not?

"Don't cry. We'll fly out of here, too."

"But where will we go?"

"Anywhere we want. I'd take you anywhere you asked."

Minnie (we have met her in the previous book) is a nurse and a yoga instructor, Owen is the leader of the rebels and a teacher in a secret school.

Minnie and Owen knew each other since they were children, but Minnie had forgotten about it. Owen will need to bring her close to him and make her remember.

"I dream about you", I hear her whisper. "You're real."

True love. Both virgins. Waiting for each other. What else do you need?

Elizabeth Neal says

Owen has known Minnie was meant to be his since they were kids, however, when the Regime took her mom, she disappeared as well. It took him too many years to find her again, but once he did, he knew he could never lose her again. He's biding his time, trying to decide how to get her to come to him.

Minnie is a nurse, something she was allowed to do because she became one of the "schloarship" children after the government took her mom. As such, Minnie is considered of the elite, though not fully one of them, which is fine by her. She loves helping others, but prefers living outside the wall. She has dreams of a boy offering her freedom, and wishes they were real.

When Minnie seeks answers on how to help her people, she looks to the brewery, the place that seems to call to her. When she sees Owen, the connection is immediate and as they begin working together, resisting it becomes harder.

As secrets are revealed, not only that Owen is the leader of the Insurgents, but also that he is the boy from her memories, not dreams, they come together as fate always intended. However, the Regime has been preparing for Minnie's wedding, a pairing meant to further their cause, regardless of Minnie's wishes. The rules state once an elite reaches a certain age, the powers that be will decide who they are to marry.

Owen and Minnie know they must make their move now to free Minnie from that life so they can live the one they want, together, but they must overcome the obstacles thrown their way first. I hope Ryan's story is next. I'm curious to see what fate has in store for him.

One-click now and follow along as two people, bound together from a young age, are finally reunited and experience everything together for the first time

I voluntarily read and reviewed an Advanced Reader Copy of this book.

Fanny says

Nunca pense que diria esto, pero Her Rebel se me hizo eterno, algo sorprendente, ya que si algo tienen los libros de Alexa Riley es que son cortos y rapidos de leer, pero realmente esta continuacion me resulto larga y aburrida.

No creo que lea el tercer libro, este estilo de historia no es lo mio, creo que me voy a limitar a leer las novelas de este duo que sean mas sencillas y no tan rebuscadas como esta trilogia.

1 Estrella!
