Hot For Teacher Dominique Adair

Who says three's a crowd?

Entrepreneur, fashionista and submissive-in-training, Jane Porter is headed to New Orleans with her lovers, Antonio and Santos. Armed with an invitation to the exclusive Marche d'Esclave, a members-only pleasure club, Jane steps into a world where submissives are auctioned to new masters for training. Happy with her current masters, Jane has no intentions of going up on the block herself until she comes to face to face with a man she'd thought never to see again.

Among the patrons is the mysterious Archer, a master from Europe with legendary skills in the art of training. His submissives command the highest prices at auction and for those in search of a master, he is the one they crave. Intrigued by the beautiful Jane, he employs his considerable talents in the hopes of seducing her away from her lovers and returning to his home for a little higher education.

Will Jane resist temptation or will she accept Archer's invitation to explore more of the pleasure she's come to crave? Warning: Extreme bondage, spanking, sexy men doing very naughty things to themselves and others, more spanking and the creative misuse of fruit. "

From Reader Review Hot For Teacher for online ebook

Karsyn says

Meh. I remember liking the first two. I never read the 3rd and only read this one now for a challenge but it bored me. It was all jumbled together it seemed, just no real story but a series of events that didn't have much to do with each other. It was just ok.

Tia says

I really liked this one, is there no more novels after this one? It was soo good and I like the whole Archer concept too. In some ways I wanted more but in others it was perfect. However weren't the three of them committed? Did she just cheat on them? I want more drama!

SydneyGen says

Hmmmm... Not sure about New Orleans

Kris says

HOT HOT DAMN.

Smut Readers says

Hot for Teacher is the fourth novella in the Jane Porter series. The first three books chronicle Jane's meeting and falling for Antonio and Santos. The fourth follows the threesome to New Orleans.

After settling in to her life with Antonio and Santos, Jane is excited to join her men in New Orleans for a private BDSM club. While in town she has an encounter with Archer, who appeared in the previous book. He's famous for training subs and wanted Jane from the first time he saw her.

The whole Jane/Archer thing. Sigh. It makes no flipping sense. Jane is head over heels with her men and committed to them. But Archer is able to get her in bed with little more than a glance.

When they first met she found him so frightening that Antonio had to console her. Now all of the sudden she finds him irresistible, and is willing to cheat on her guys with him. The blurb suggests that Jane struggles with this decision, but that's not evident in the book. She just wants him and decides to go for it after a brief seduction. And the sex is apparently mind blowing.

Even though this is erotica, the love story between Jane, Antonio and Santos was the strongest part of the series until this book. We have no interest in watching her tear that apart. It's one thing for the trio to play little consensual games or have Jane fuck others. But the cheating is a serious deal-breaker. We're sure there are more stories coming in this series, but we won't be reading them.

Kasey says

I liked the first three but this one just didn't fit. If I was to make a recommendation I would say read the first three and don't bother with this one. Adair jumps around way to much and the results seem to be a jumble of unfinished scenes. I can't see the point in the work up of Jane and her two men's relationship for her to fall on the first man to pursue her after finding her sexuality. Why? The sex games and consensual sharing makes since but this seemed out of bounds. I don't like cheating it rarely works for me and less so when it makes no sense. Add into that there is no auction in this book a few mentions of it and that's all. The blurb was misleading. Sorry I wanted to like this, but I felt the previous story was sacrificed for a cheap afternoon of sex for Jane. The idea in the blurb worked. I could even like Jane and Archer hooking up under the right circumstances. This wasn't it for me.

Sassafrass says

3.5 stars really. I don't know how to really rate this. I didn't feel like the story moved a long much. Mostly just having a lot of sex. The ending was left open, so I'm hoping that it continues. I really want to know what's going to happen next. I will say that for 2 men that say they don't like to "share their toys", Antonio and Santos sure do loan Jane out...A LOT! LOL

Kimberly Treamer says

Just read this set again so I would be caught up for #4... I enjoyed the overall continuation of the story, but this one seemed a little more rushed than the others. Also, I was a little disappointed in Jane at the end of this. For someone who professes so much to be in love with and satisfied with Antonio and Santos, she hooks up with someone remarkably quickly and seemingly without much concern for her lovers. In the New Orleans club is one thing, because A&S were with her and as "Masters" ordered it... but her scene with Archer wasn't under the same circumstances. Considering what happened to her in the past with Peter I really found it disheartening that she could so easily dismiss the 2 men who allegedly changed her life.

Swinging says

[cheating on Jane's part (hide spoiler)]

Stacy Wright says

It was a good book...if you want to know what it is like in the world of BDSM this book will do just that! It was sexy without being over the top!

Vivian says

Fourth in the Jane Porter series, this one is highly disappointing. It is quite short and is really a set of scenes, some which are only partially finished, strung together rather poorly. The transitions don't exist and are jarring to the reader, not to mention we are left with the significant scene only introduced and then abandoned as Adair time shifts forward. I thoroughly enjoyed the first three, but this one is the kind to turn me off completely to an author. It is disrespectful to treat your readers this way. I actually enjoyed the serial format of the first three; they were complete with an understandable conclusion. This on the other hand is like notes for future books were hobbled together and released. A shame, I was a reliable purchaser/reader. Can't say I'll be one in the future.

Dominus~ says

I didn't know this was a series and I jumped right away. Anyway, it was fine, that two lovers thing with the girl. But two dom, I don't think that's possible. Maybe I would've understand that part more if I read the first part. Then the scene with Bear and Wyatt, I think? It was fine but I don't get the purpose? Why did her masters shared her in front of that crows? Just because those two are their friends. Now the remark about Bear's cock being almost the size of a woman's thigh. You can't fucking do that! Is that possible? That's like larger than my hands can grasp. I mean, you'll put that thing on your pussy! It can't be that big!

Now Archer and Jane... hmm... what's the deal? It feels that Jane and her two masters have love but she has the connection with Archer. How's this possible?

Nicole says

I am going to keep this review fairly short because I could go on and on about what I loved about it, because there wasn't anything that I didn't love about it.

I love the characters and the world they live and interact it, and the fact that the sex play in the Jane Porter series is excruciatingly hot is completely fabulous! (yes I may be gushing some, but these books are easily some of my favorite in the erotica/bdsm genre)

SassySami says

[Is it just me, or did she cheat on her men with Archer? I don't recall them giving her permission to fuck him. (hide spoiler)]

ke-sha says

I like this book but there was no closure Really. I hope there more books to follow. I want some more insight to the Archer and Archer/Jane relationship.
