Ashley says

I love this show. Needless to say I was thrilled to stumbled up this comic when I was in Chicago. I look forward to reading the other volumes.

Inocente says

i bought this book a long time ago at the book fair at shady brook in 3rd grade i got it because i watched the show and i watched the entire series they cancelled it last year and i decided to read it completely and it was better than i remembered i liked the animation on the book a lot overall great.

Joe says

I'm a huge fan of Regular Show. The stories in Volume 1 were fine but the artwork on a number of the issues left a lot to be desired. I get that with several different teams working on each issue consistency would be difficult but there were several times when the character in the book looked nothing like they do in the show.

Tyler Vanzanten says

As a huge fan of the show, the first couple comics were not quite as good as they could have been.

Leo says

Nice addition for fans of the tv show like me but otherwise just your run of the mill comic. Plus, seeing the characters in paper is a bit weird.

River says

It Was Okay, But It Had A Lot Of Good Planned Out Stories.
Most Of The Graphics Were Very Detailed And Were Well Drawn Out.
I Liked Mostly All Of The Stories.
I Just Wish There Was A Little Bit More Entries In The Book.
Other Than That An Amazing Comic Of The Cartoon Network Cartoon Regular Show!
(And It Had An Entree Of Covers Which I Thought Was A Waste Of Time But They Still Looked Really Good!) ?

David says

I decided to use Comixology Unlimited to read several graphic novels that I was hesitant to purchase. As a fan of the show I thought I would give this a read.

The art style differs by issue, but overall captures the look and feel of the stories. This is essentially a quick read which provides stories for the fans of the TV show. The stories have humor and capture some elements of the series. However, if you have never watched the show, you probably won't enjoy it as much.

Crispitina30 says

Actually, 3.5. I liked the two main stories: good draws and plots. But the four short stories, ones are better than others. The fanarts are awesome.

Anie Things says

Me ha pasado un poco como el comic que leí de Hora de Aventuras, que la serie está bien pero en comic flojea bastante.

Sin embargo, lo bueno que tiene esta serie es que al no tener una continuidad argumental, que los capítulos de la serie de animación son autoconclusivos y no tienen una subtrama, no se hace tan raro leer una adaptación como esta.

Aun así, el hecho de que en cada capítulo o sketch cambien de dibujante siendo en algunos completamente diferente a lo mostrado en los dibujos animados, desconcierta bastante y rompe el rito de la serie. Aunque en las cover variants me parece acertado la visión de otros autores.

En general es un comic destinado a los muy (pero que muy) fans de la serie y si quieres ver más historias de Mordacai, Rigby y sus colegas del parque.

Amelia says

There are some all-ages comics with pretty universal appeal, like the Adventure Time books. I've read and enjoyed those despite not having seen the tv show, and never felt like I was missing out. Definitely not the case here. Being outside the target audience age and having no experience with the show sucked all the charm out of this one for me, I think. Oh well.

Stacy Fetters says

Oooooooh! Yaaaah huhh!!

Fans of the show will enjoy this comic series. Funny little stories just like the show, but it was a wee bit crazy to see all this on paper.

If you take a few lessons away from this, they will be... never throw away good food, never start a hippie mosh pit, never let a balloon head cut your hair and beware of the freegans!

Ms. Mielke's Class Make sure you post how your sheets tell you to!!!! says

It's a great book. It's funny when He goes and gets a haircut, and he doesn't get the haircut he wants. So he has to go to the haircut saloon and get it re cut. After that he goes to fritz to get a haircut he likes. I love it when muscles goes moshing. TS

Regular Show Vol. 1 is a good book, you will be saying "ohhhhhhhhhh!" As you read this graphic novel you will see all your favorite characters from the TV show. I rate this book 5 out of 5 for awesomeness. I recommend this to people who like a spectacular read. FIST PUMP!

It's a pretty good book. It tells about Mordecai and Rigby's adventures and all of the trouble they get into. My favorite part of the book is when Mordecai gets his hair cut. I would recommend this book.

-AH

It's is a ok book and is very funny.MM

Robyn says

I'm trying to increase my collection of graphic novels in my classroom library. If I run across a student who really does not want to read I can usually get them to try a graphic novel. Some of my favorites are *Cardboard* by Doug TenNapel and *Simle* by Raina Telgemeier. My students enjoy them too. *Regular Show* was being sold through Scholastic, so I bought it using some points I've accrued. I love the vibrant colors used on each story, but I thought the stories where pretty... blah. The comic contains four short stories and none of them really stand out to me. I've never seen the TV show, therefore I had no idea who any of the characters were. I get the feeling that the authors were counting on the reader to already be familiar with the TV show. I hope my students will enjoy it more than I did.

Drown Hollum says

Boom/kaBoom comics continues to stretch their licensed Cartoon Network muscles with Regular Show Vol. 1. The comic, penned by K.C. Green, is a pitch-perfect replication of the television show, with some excellent and fun artwork by Allison Strejlau. The comic does not reach the same clever heights as Ryan

North's Adventure Time books, opting instead to provide an experience closer to the familiar, than offer up a new spin on the material. What's on display is the usual stab at the hip, with the usual horror-esque antics of the park crew. Green's writing is spot on for the job, and the book reads exactly how a fan of the show would suspect, for better or worse.

The rest of the book is a collection of tiny short stories, with lots of indie talent on display. These range from cute to funny, without anything standing out as brilliant or offensive. Then there's the obligatory tome of collected variant covers which kaBoom like to provide at the back of each collection. There's some neat artwork in there, but it also makes for a lot of padding in this deceptively light trade. There's less than thirty minutes of entertainment in this book, between light dialogue and the measly two full issues collected here-in.

If you're a fan of the show, this trade will make for a good addition to your collection of RS swag, and you'll probably get a laugh or two out of it. Otherwise, it's not out to convert you, and an easy skip for the average comic-reader.

Samantha says

Good, but not as good as watching an episode. The artwork and zany storylines are there, but I missed the voicework. Readers who haven't watched even part of an episode may be a little lost on its many charms.

Recommended for fans who regularly watch the show and want something to tide them over while waiting for a new season.
