She's No Angel E.N. Joy , Nikita Nichols

Angel stumbles into church one day and ends up a First Lady when she catches the preacher's eye, heart and soul. She is unchurched, timid, shy; just a babe in Christ trying to figure out what this God thing is all about, and at the same time how to be a pastor's wife. She's on the right path, until a church mother puts up a road block. All Angel wants to do is try to get into heaven. But first she'll have to go through the pit of hell Mother Calloway puts her through with her un-Christ-like antics.

Good Read!!

Love the way Lady Angel stood up to Morher Calloway something she should have done a long time ago but if it wasn't for Lady Arykah she wouldnt have done it. Lady Arykah my be a woman of God but she gave it you are no filter. The way she handled Lady McKenzie I thought hats was going to start flying but she was speaking the truth Lady McKenziejust couldn't handle the truth. Overall a good read.

Oh my --- what a great book! It made me display various emotions: anger, laughter, joy, sadness, etc. That's some good writing! In addition, this book gave me an insight into the politics of the church. I plan on reading "Lady Elect" and "Lady Elect II" by Nikita Lynnette Nichols to find out more about Lady Arykah's character.

Sheryl Boyce says

I really enjoyed this book! I love the character Lady Eryak. She is no joke!

This book was a pretty good read. It piqued my interest from the beginning. Angel was a newly wed and a new first lady. One of the church mothers, Mother Callaway, made it her mission to make Angel miserable. This made Angel seek the help of a speaker from a conference she attended and fellow first lady Erykah. The book was very engaging however it seem as if it started to drag on during the trip to California. It was then

that I just wanted the book to end, which is why I gave it 3 stars.

I really enjoyed this read, it just touched me. I am not a first lady but have dealt with people in the church who have presented as friends but were anything but. In the end they want something and will even use God to get it. I love that Angel always wanted to do the right thing and really wanted to be the best first lady. Her husband was so clueless as most men are. I also don't understand how Carmen came in and saw Angel back against her desk with mother Calloway standing over her and she couldn't tell who was yelling at who? Really? I want to know what Mother Calloways story and real issue are. Looking for part 2.

LaTonya Garrett says

Angel is a lot of women today. She was looking for a husband but found more. Some of us would say she was in the right place at the right time. Others would say she was looking for an opportunity. I am of the belief she was in the right place for her spirit to be ministered to. She has one plan in mind but God has another plan.

Always when God has a plan, there is someone waiting to send his plan a different way. God states not so. He equips us and Angel wasn't any different. God equips her to deal with opposition.

I give four stars for content. I can relate to the material and that is a plus. I didn't like that it was so short but nevertheless a great read.

Kitty Galore says

I don't know what to say about this book. It wasn't a bad book but it wasn't great either. It was just a read. The highlight of the book for me was the conference because alot of truth was spoken about relationships whether your are a first lady or not a woman could relate. Im guessing the book is supposed to be about Angel coming into her own as the first lady but you don't really get that because this book is ridiculously short. I just don't see a real story line here but that could be because of thr length of the book. I really wish authors would stop chopping these books up into little pieces and calling them series.

Valarie says

Loved, loved, loved this book. It took me less than 24 hours to read because I was hooked from the jump. If you are a fan of Christian fiction with a dash of humor, church drama, spiritual warfare, and just plain old real life issues you will definitely like this book. First Lady Angel is new to the church and church dynamics and all that comes with being the first lady so when she ecounters one of the "old-school" church mothers who is giving her nothing but grief, she has no choice but to reach out for help. Thankfully for her she has met Lady Arykah at a First Lady conference and has found someone who feel her pain. Lady Arykah, not long a first lady herself, but a Godly woman who in her own words "God ain't finshed with me yet" and "I

still need work" comes in to help Lady Angel and other women in the process.

What I really liked about Lady Arykah was that, although she was a little hood, she was still Woman of God. Trying to do the right thing by Him and the women she helped. One of my favorite things she said was "Lord write on my tongue. In other words Lord you give me what needs to be said to these women. And what can we say about old Mother Calloway except she was sumthing else, but unfortunately she was the truth also.

I'll end by saying this although this is fiction, it gave me a lot of things to think about. I the first 2 days after reading, I've already discussed different points with 3 people. Let's just say pick up a copy and read for yourself. I can almost promise you'll E.N.Joy it.

Vondetta Carter says

Angel is a babe in Christ, who meets her husband at a wedding. Upon becoming the wife of the Pastor, a long standing member in the church seems to have a problem with her. In her quest to be what "others" seem to think she should be, she goes to a conference. Angel is growing in the word and maturing in the things of God in this story. After she returns, she is faced with those who seem to have only one mission, to destroy her.

I will be reading more in this series. I love the church but I see real life difficulties being addressed in this series. Good read, wanders at times but still a great read.

Adrienna says

I had the pleasure to read Nikita L. Nichols book "Lady Elect." As I opened the first pages of this read, 'my oh my' how it reads off with a similar storyline with the unchurched-hot-sleazy dressing woman (Angel) who happens to marry the pastor, where the Mother of the Church cannot stand this woman by doing everything in her power to voice her opinion of "First Lady" Angel Redford-Harrison. (Therefore, I will see how long it'll take me to read this one since "Lady Elect" via eBook didn't get interesting until about 72% in the read, and ended a bit abruptly for me, and unsure how I felt about the horrified event that occurred to First Lady Arykah...where I might have to read the next book one day in the series>)

Leisure read 2017

I'm hooking, can't wait to read the next book in this series. I'm glad Angel finally put mother Calloway in her place.

Touch my Soul

This was absolutely this most soul stirring book I have read. It totally ministered to my soul. The character in this book was well developed, and definitely had a voice of their own.

I think all churches has a Mother Calloway in some form or another that is going around trying to discourage others . This book took me through all the emotions that I once felt when I was on my newly walk with Christ. So I could totally relate to the story that was being told.

Two great Authors one great story...

SD Johnson says

I really liked this book, it touched me in a Godly way. Lady Angel gave me a sense of joy and holy boldness and so did Lady Arykah with her over the top self. This book was current, up to date, relatable, and sometimes controversial. I simply can't wait for part 2 and I know it'll be a thriller too. If you haven't read Lady Elect, you better get into it. By the way, I myself need to head on over and pick up Lady Elect part 2.
