While the first couple of books are pretty abysmal, I have to say the plotting on the Droon books gets more interesting by this one. Eric, at least, is becoming a more realized character, and the archnemesis relationship with Lord Sparr is really developing (Julie and Neal continue to have all the personality of a couple of brooms). The writing is still really dull. I feel like the humor is pretty tedious, but it kills with my 5-year old, so I suppose he knows his audience. I am starting to become interested in Keeah's story; I hope that continues to develop. I'm sure we will keep reading the series - they are a good way to satisfy my son's fantasy itch while he waits to become old enough for Harry Potter.

The Secrets of Droon series is generally a decent intro to fantasy. Kids discover a magical portal on the basement stairs which takes them to another world complete with Lord of the Rings or Narnia type characters.

Good, quick read. Maddie has me reading all the "Droon" series - good kids series.

I've decided to read The Secrets of Droon series entirely for Christmas since i've been feeling a bit nostalgic. I want to be able to live a bit of the magic of being a kid and what beeter to help than this incredible series. I know that this series is for young kids but i feel it will still be great after all these years. In the fifth book the foreshadowing of the last book is visible when Sparr uses a spell to freeze Jaffa City. The action and plot are similar to the past ones except that Sparr is now looking to obtain a medallion. In this book we see a bit more of Sparr's character and also Eric's. In each book we delve into the secrets of Droon and find out more about its history and the characters.

During the last adventure, Eric heard Lord Sparr whisper the word, "Ice," after reading the Quill's prediction of the future. Eric returns home and can't seem to warm up. The next time the upper world children see Jaffa City, it's snowing and terribly cold. Eric hears a young boy crying outside the city gates. As soon as Eric lets him, Lord Sparr changes his form and begins freezing everything and everyone. Prince Keeah's mother, Queen Relna, appears as a white falcon and tells her daughter that she has the magical power to thaw the ice and free the city.

Another great chapter in the Droon saga. Can't wait to see what happens next. Great quote: "You are the magic."

I can see the appeal with this book- good read-aloud for parents, since the chapters are fairly short, the characters are enjoyable, and you could stop after one or go straight through the series. Written at exactly the right level for early chapter readers.

Matthew says

For once, Sparr wasn't as bumbling as usual. He even used cunning to gain entry to the city and managed to nearly accomplish his goal before the heroes turned everything around on him. A fair adventure.

Loved this! This book is one of my favorites in *The Secrets of Droon series*. Lord Sparr takes some pretty serious action and does some pretty bad things, much more in comparison to the other books. I liked everything about the story, even its bittersweetish ending. But the best part for me was at the beginning! I loved how spooky it was for Eric.

Oh yeah, snow balls are... incredibly lethal in the Droon series. XD Maybe if it snowed all the time there, Sparr and his minions would never dare get close to the good guys again, in fear of being massacred by snowballs. ('cuz you know, they're so dangerous!) >:o

The Great Ice Battle (The Secrets of Droon, #5), Tony Abbott, Tim Jessell (Illustrator)

When Jaffa City becomes frozen as a result of the spell by Lord Sparr, Eric, Julie, Neal, and Princess Keeah have no choice but to fight him at his own game by using snowballs as their weapons of choice.

This book was a skinny chapter book but it was interesting to read. I will continue to read this series, that is for sure. I thought the part where they said all the characters, I liked Eric and King Zello the most.
