Nakaya says

Since I found this book in the children's section of the store I bought it at I was a little.. *surprised* at some of the more sexual content. I became then a little lost on what age group it was supposed to target, since the overall design of the thing does lend it more to, say, 12 or under (or, you know, the adult that is amused by this sort of thing) - but, don't judge a book by its cover, I suppose.

It's a quick and easy read and I must admit to finding it rather amusing. Laughed out loud a few times. No masterpiece, but sufficiently entertaining that I'd recommend it to people that would appreciate the style of humour.

Veerle says

Ik had gehoopt dat Viv Croot het leven van Dracula spannend kon maken. Enge mensen achter hem aan laten gaan, er een verhaal van had gemaakt. Dat is niet gebeurd. Het was een saai boek waarin Dracula voortdurend over hetzelfde schreef en dezelfde dingen bedacht. In het begin was het wel leuk, maar op een gegeven moment ben je er klaar mee.

Deepak says

I was lucky to come across this book! It is a great read. Darkly funny and devilishly tasteful! Of course you need a refined sense of humour to laugh at the subtle jokes, satires and sarcasm. It makes you think, firing neurons connecting the hair-raising vampire lore with the "teenification" of vampire cults in popular media. It is written from the "glorious" perspective from the big V himself, Count Vlad Dracula, full with notes, business cards, diagrams, invoices etc. When you finish the book you wonder - yes why not? This could very well be his diary!

Well written. A collector's book indeed!

Constantin says

Very delightful and refreshing book to read. It is fun and keeps you good company for a while.

Michelle says

It's nice that the book is so thin, because you can finish it at once. If it was longer, it would have become boring. The book is supposed to be funny and has very dry humor in it. Sometimes I didn't get the jokes though, dry humor isn't my kind of thing. But it was entertaining and worth reading, although I had higher expectations.

Eva says

My expectations weren't really met... Funny at times and it's an interesting idea, writing a diary as if it's Dracula's but that's about it. I assume it has something to do with the translation... I read it in Dutch. Hope for others who will be reading it in English it'll be more fun! I did like the fact that there also clippings, personal lists and more "proof" of what Dracula is writing about.

TheVampireBookworm says

All right, there is a book which is supposedly written by Count Dracula himself. In this book he writes about

his daily chores, includes pictures and posters and basically lets us peek into his mind. Have I mentioned it's written in an accent? Yup, your eyeballs aren't playing tricks on you. There are certain words you surely don't encounter in English and things such as "window" are more likely to be written (and said aloud) as "vindow".

The Count leads an interesting life and has a quite masochistic crush on Buffy. He designs his own capes, organizes anonymous meetings, struggles as every child with his mother etc.

To sum this up, you will read this book in one sitting. It includes tons of pictures so there aren't that many words to read. It's hilarious, though. I loved it.

Evelyn says

Schitterend vanwege de humor...

Kort maar krachtig!

Cheryl says

Fun read, not to be taken seriously it's full of dry humour and subtle (and not so subtle) digs at vampire culture.

Entertaining if you're interested in the subject at all and can be read on one sitting.

Sanne says

Funny, utterly useless book to read with not even random facts.

I loved the illustrations of all his ideas in the book that made it fun to read.

Just a great in-between book to read next to all your fancy literature.
