# Their Virgin Hostage

*Shayla Black , Lexi Blake*

**Their Virgin Hostage** Shayla Black , Lexi Blake  
One Hostage Bride

Kinley Kohl agrees to marry wealthy Greg Jansen to save her family. Her wedding day should be the happiest of her life...except that she doesn't love him. And she can't help but wonder if she's making a mistake. Even so, she refuses to let her loved ones down. Then moments before her nuptials, she's kidnapped—and her whole life changes.

Three Determined Mercenaries

Dominic Anthony has waited years to avenge his sister's murder. He knows Greg Jansen is dirty, but he needs a witness to help prove his case. Jansen's new bride is the perfect hostage. Kinley Kohl will tell him everything...or else. But his two business partners aren't so sure. Law and Riley Anders worry that Kinley isn't as guilty as she seems. And Law suspects she might be the one woman who can handle them all.

From Target to Treasure

In the wilds of Alaska, the three men try to pry Kinley open, only to discover she's both stronger and more innocent than they imagined. Her sweet beauty melts their suspicion and steals their hearts. Together, they awaken her passion and brand her as their own. When danger strikes, the men realize they must save Kinley or lose the love of their lives forever.

## Gabby says

Oh my!!! I really, really liked this one... I mean, It's the least fave of this series, but love the plus-sized heroine!!! :D

Rating: 4.5 Scorching Stars!

---

## Kat Witmer says

Ok, so there were parts of this book that I really loved and then there were parts that I didn't. A brief synopsis...the lead heroine (Kinley) is about to marry a man (Greg) that she does not love for the sake of saving her family. Her mother died and she was left to take care of their foundation Hope House, her father has cancer with mounting hospital bills and her sister is, well she's just a bitch but Kinley is determined to help and support her family, so she agrees to marry this man who is supposed to save her family from impending ruin. Kinley ends up getting kidnapped by the Heros of this book...Law, Dominic and Riley (who just happen to like to share one woman while in the bedroom). Law and Riley are brothers and Dominic is their very best friend. Dom is seeking vengeance against Greg for something personal that happened in Dom's past, so they devise a plan to kidnap Kinley in order to obtain information with the hopes of bringing Greg to justice. And that, my friends, is where the story takes off.

So, here's my likes: I abosolutely adored Law. He was the best character in the entire book. His part in the kidnapping was to befriend Kinley to gather intel. While doing this, he grew to really care for her and basically fell for her. So, when they captured her, he was instantly ready to jump into a relationship with her and never waivered from that feeling. He was the one that Kinley grew to depend on and trust from the get go and I really connected the best with those two. The two dogs in the book where absolutely hysterical! Dom's dog was a pitbull and Kinley's dog was a pampered mini Yorkie that the men constantly referred to as a "rat thing". The banter surrounding these two animals was really a hoot to read!

Now, on to the dislikes: Although I did enjoy the character of Kinley, there were times that she seemed so dense and TSTL that I found myself rolling my eyes and saying "Oh, geez..really"? But there were also times that I enjoyed her personality, humor and need to help other people. Riley and Dominic both had their moments of being complete and total asshats. Riley was the worst. His snarky comments and childish behavior was a little over the top at times and I felt sorry for Kinley on more then one occassion with his treatment of her. Riley's reasoning for mistreatment was kinda weak, IMO. Same thing with Dom, there were a couple of times that his treatment was just plain mean. But, thankfully Kinley had Law to comfort and care for her. Eventually Dom and Riley got their heads on straight and all four embarked in a sexy, sizzling romance with BDSM flares.

Overall, this book was good, but not one of the best. I do enjoy this series and will continue with it!

---

## Rosebud says

This is the fifth installment in the "Masters Of Menage" series featuring Dominic, Riley, and Law.

This trio was cameoed in the previous installment "Their Virgin Princess" which ended with a video showing the trio kidnapping Kinley Kohl just prior to her wedding. Heck she was in her actual wedding gown. Knowing that I was still able to enjoy the antics as the socialite, who of course is a virgin, is given the potential to have a fantasy affair with these three. Yummy !!!!

I'll just cut to the chase. This installment isn't one of my favs. Had potential and I did appreciate the adult content scenes which included menage, m/f, and m/f/mm action. But. The plot itself was weak and there are obvious inconsistencies in the storyline which I attribute to the fact that this is a two author collaboration and things weren't caught (sorry spoiler potential so i can't get into them) along the way. On the other hand it could have been that the previous two installments had set the bar and this book fell fall short of my expectations and hopes.

Things started slowly and I had a hard time getting into it as it dragged along for the first third of this book. Happily things started to look up when a very dangerous yet cute Moose jump started the action scenes (teaser reference) and I settled in to hopefully have a change of heart in my feelings. Unfortunately things switched to the other extreme and all I can say is sex, sex, sex. The end result is the climatic ending had a rushed feeling that was more of a wrap up of things than a natural progression of events. I really wish more "payback is a b\*tch" and "revenge is best served cold" attitude would have been infused into this book. Sure I love to experience a budding relationship but give me something to anchor it to. Action/adventure/mystery/thriller/suspense/fight scenes. I want to know the good guy triumphs in more than just the bedroom.

Overall this book had it moments which is why I'm sticking to the four star instead of 3 (I would have gone with a 3.5 if that was an option).

Their Virgin Hostage by Shayla Black and Lexi Blake was an emotionally charged, erotic masterpiece. When these two authors get together and put pen to paper, let me tell you, magic happens. They know how to bring their readers to their knees and they pretty much guarantee to have you emotionally invested in the wonderful, complex characters that they bring to life. Be prepared to enter a world full of gorgeous possessive Doms, a hilarious adorable submissive, and the jackass that tries to tear them apart.

"I think I would take love any way it came to me."

Kinley Kohl always wanted to please everyone around her. So much so that people took advantage of that fact. She never thought of what would help her, it was always give, give, give, and never take. With her late mom's charity going under and her father's health deteriorating, she thought she was doing the right thing by marrying a wealthy man that could possibly save her family. It didn't matter that she wasn't attracted to him in the least. It didn't matter that she felt no love for this man. All that mattered was that she was doing the right thing for her family. No matter what her best friend or anyone else says, nothing short of a kidnapping would stop her from doing the honorable thing.

"Get your head out of this fucking fairy tale. There's no such thing as 'the one.'"

"Riley wasn't sure what to do, but he knew he wanted more than one casual fuck after another. He wanted a family."

Riley Anders was a computer geek with a big chip on his shoulder. He was burned badly in his past by a total bitch of a woman, a woman who he thought he could share with his best friend and brother, but when the relationship started getting serious, Riley found out that she wanted different things, she wanted money over love, and it broke him. After feeling so rejected, it had become extremely hard for him to imagine a woman out there he could trust to handle all three of them.

"I was a soldier. Special Forces. You can't imagine the things I've done. I didn't to college. I don't deserve you, Kinley, but I fucking want you. So bad."

"God, Kinley, when I heard you laugh for the first time, it was like...I could see color in the world."

Law Anders was more than the muscle of the group. He was as loyal as they come. Law was a tough SOB. He wanted desperately to find the woman that could bring them all to their knees, and he found that in Kinley Kohl. All he had to do was convince his brothers that she wasn't just another gold digger that would marry anyone for money, that she just wasn't a job they had to take care of. Kinley Kohl WAS the missing piece to their kinky puzzle.

"He could call himself the Dom, but he'd spent his life looking for the woman who could move him and make him want to surrender his heart."

"Tell me to stop. Tell me to walk away. I need you to because I fucking can't."

Dominic Anthony was a man that took charge, a man that dominated an entire room. Authority just oozed from this man, and whatever he had to say, you listened. He was in this to seek revenge for his sister's death. It was what motivated him. His goal was not to fall in love with his hostage, it was to avenge Carrie's death. He couldn't afford to screw this up, but one look at Kinley and he knew, even though he fought it to death, he KNEW that she was the perfect sub for him.

Sweetheart, what you're feeling, besides arousal, is the connection between a Dom and a sub. You could get it with a lover in other ways, but this is how we find it. We play. We grow together. We share these parts of ourselves."

I already fell in love with these three men a while back, this story just cemented that fact. Even though Riley, Law, and Dominic drove me crazy sometimes, and I just wanted to scream at them and hit them upside their heads, they still held on to a piece of my heart. Their passion, their intensity, and their love they had for Kinley was amazing. It was so easy to get inside of Kinley's head and feel her anticipation during the scenes with the men. At first you felt her insecurities and it broke your heart, but when she was around these three, all that evaporated and all she felt was that she NEEDED them, and they NEEDED her.

Their Virgin Hostage had everything you would expect from a Shayla Black and Lexi Blake story. It was full of passion, heat, incredible sex scenes, and raw emotions that melt your heart and blew your mind. This story was also filled with angst and suspense that kept you on your toes. This story can be read as a standalone, but I do recommend reading the series in order, because there is definitely character cross-over that you don't want to miss. I recommend Their Virgin Hostage, not only because it was a TOP PICK for me, but because

these characters will take a piece of your heart and won't let go. These characters will stick with you way after you turn the last page.

### **Jessica Alcazar says**

I started reading this series at some point in 2013 and as you can see from my ratings, I quite enjoyed the books. I put it aside after a few because it got to be repetitive and that factor alone was taking me out of the story and not allowing me to enjoy the delicious kinkiness that is this series.

I picked it back up because I'm taking part in a Diverse Romance Challenge bingo game and a polyamory relationship is one of the squares. After finishing the book, I'm not actually going to count it towards the challenge because the story didn't ring true to me. Honestly, it was borderline ridiculous. I didn't believe in the attraction. I didn't believe in the relationship. And I didn't believe in the story line. So it didn't work for me. AND .... this is a first for me with these authors. I am a HUGE fan of them both.

I want to address something I've been reading in quite a few reviews about this series and that's it's repetitive nature. Okay, so here's the thing .... these authors are practically telling you with a neon sign that you are about to read the same story different names. If you didn't pick up from the titles of every one of the books that all the heroines were going to be virgins then you weren't paying attention. If you didn't realize from THAT but read the name of the series and blurbs to the books and STILL did not pick up that this would TOTALLY be a series you just indulge in with no substance then you REALLY weren't paying attention. And in MY humble opinion, if YOU weren't paying attention, then it really isn't the author's fault ....

### **Ale Rivero says**

A pesar de seguir la misma estructura que los anteriores de la saga, me gustó la relación que se entabla entre los protagonistas en esta quinta entrega.

Kinley es realmente una chica muy inocente, y con una buena inteligencia cuando se la requiere. Sus compañeros son hombres, ja. Tienen el típico carácter de los personajes de esta saga, es decir, dominantes, mandones y a veces más idiotas de lo necesario, pero igual se los termina queriendo un poco.

Seguramente deje pasar algunas lecturas antes de ponerme con el siguiente de la saga, y más porque sospecho quiénes serán los protagonistas, y no quiero meterme en la historia con las expectativas que tengo sobre los mismos ahora.

En cuanto al momento drama de esta historia, me resultó interesante y me gustó el cambio en algunos detalles que no había visto con anterioridad, veremos como siguen evolucionando las otras tramas en este sentido. Y obviamente, sigo considerando que esta saga merece la pena.

---

## **Joyce says**

I loved the drama and suspense with this story. 3 hot guys and a cute little dog :)

---

## **Asounani says**

Hey!!! este estuvo un poco mejor, me gusto más el desarrollo de la historia y las parejas no estuvieron tan mal

---

## **April says**

Check out my other listens at Eargasms Audiobook Reviews

I really enjoyed the story this time. I have resigned myself to the whole "virgin" hook. It is just something I deal with, I enjoy the series so that isn't such a sacrifice.

I loved Kinley and all her sassy sweetness. She is a fun character to read and I loved that she didn't turn into a puddle when facing everything that came her way. She really had a lot to deal with throughout the book. She was also smart enough to work the situation when it called for subterfuge.

Dominic, Law and Riley are the typical he-men that you come to expect in this series. Yummy and delicious but a touch flawed on the inside. Of the three Law is my favorite, I am a sucker for the dark and brooding type who falls hard!

The steam factor is especially delicious! Oh la, the hot and heavy action!! There seems to be a touch of a pattern for the steam in this series, I can almost make a general outline for what will happen in the smexy scenes of these books. The BDSM is still lighter, more spankings and Dom talk, but that is the way I prefer things. I totally love that all the girls have brat tendencies, those are my favorite heroines!

The big turn/mystery in the plot line was kinda obvious, I saw it coming from about the second mention of the illegal activity. That didn't stop me from enjoying things, it just did not come as a surprise when things are revealed.

Loved the mixed narrative, I am all about getting everybody's POV. I listened to the audio-book and loved the narrator, Serena Daniels. She does a terrific job with the voices and when she reads the smexy Dom stuff, oh boy! She really brings the story to life.

Love this series, but I breezed through them, now I have to wait until April for the next book!! I hear it is going to be a certain BFF and some sexy Chicago lawyers!

---

## **Jenny says**

Really good - not the best of the series but loved the storyline and even had a few tears for Kinley here &

there . . . she really got effed over by so many people. You gotta read it to find out how.

My only gripe is that while there is a HEA, no cliffhanger and a step-up for her BFFs story - it felt the ending was sort of abrupt. Where was the epilogue? Or more of a step up of where Annabelle's story will go with the the lawyers (like how that last book brought us this book w/ Kinley's kidnapping).

With that - it was a good addition to the series.

---

## **Emily says**

Kinley Kohl is about to be married to a man she does not love, but to help her father and keep her charity she is willing to sacrifice herself for it. When she is kidnapped though, she is confused as to why. The man Kinley was about to marry is not who she thinks and the man she befriended recently is not who he claimed to be either, feeling utterly betrayed Kinley doesn't know who to trust.

Law Anders was the man watching Kinley, he knew she was the one who he and his brother and best friend have been looking for. However Dominic Anthony is more focused on revenge for his sisters death and his brother Riley can't believe a woman of Kinley's station can be trusted. Both don't expect Kinley to be so endearing, but she is dealing with feeling stupid for not seeing what was going on around her and is worried she is getting played again. The three men will have to figure out how to earn her trust and keep her safely by their side.

Entertaining read, enjoyed Kinley who had quiet a bit of spunk. Had some very funny moments with Kinley and the dogs they own. Dominic was pure dom, Riley was aloof and Law was a sweetheart. Another wonderful read from Shayla Black and Lexi Blake.

## **Lana ❄️Dirty Girl Romance❄️ says**

3.5 sexy, though slightly clichéd and unoriginal stars

This series has been a guilty pleasure of mine for whenever I need a go-to smutty and sexy little read. Unfortunately, it seems that they have gotten just too predictable lately. Ever since book 3, it seems that they are all written on the same formula:

Take a 20-something virgin that is also extremely shy, with self-image issues, and a somewhat broken past.

Add three Doms, with issues of their own. But for variety's sake make one of them be already pretty much in love with the heroine, the second one surly and lusting after the heroine but unsure about the relationship, and third one be a plain asshole with relationship issues who is questioning pretty much everything.

Add in a few spankings, some bondage, shake, and you got yourself a menage COCKtail.

Entertaining? Somewhat

Smutty? Well, duh!

Original?

Not so much

Will I read the next book, if there will be one? Probably. But I certainly won't be rushing to Amazon to purchase it.

### **Claudine Van says**

4 Stars!!!

---

### **Nicci Hell Raisin Sugar ? says**

I will reiterate that I ain't built for this kinda shit, but Lord...

---

### **Raine says**

Great book! I don't usually like books where the heroine is abducted and held captive and abused, but this one wasn't like that. The sex was hot and the BDSM wasn't over the top. I liked the fact that the heroine, Kinley is BBW. I've read them out of order it may be because I'm a little confused about the characters, but I'm not sure if I liked this one was much as the others in the series. However, I gave it 4 stars because I have to say (again!) that the sex scenes were hot.

\*\*\*\*\*Re-read for the 2nd time\*\*\*\*\*

Last read on 7/23/2015

I don't really have anything to add after reading for the 2nd time except that I would love to read more of this series that I haven't read before, but I'm just unwilling to plop down \$5 for the book. I'm hoping maybe I can find it in paperback or ebook at my local library.
