**Trapped by the Wolf** Juno Blake  
**He'll never let her go**

Lucy knows the rules. Don't go out under the full moon. Never travel in the countryside without silver.

But we all make mistakes sometimes...

When a sudden storm drives Lucy off the road, she takes shelter in an abandoned castle. The castle is surrounded by tall silver walls, so she thinks she's safe. No werewolf can get past silver.

But not all walls are meant to keep things out.

Lucy only wanted shelter, but what she finds is a cage—and an alpha werewolf who will never let her go. She knows she has to escape, but she's not sure what frightens her most: that the wolf will break her... or that she'll enjoy it.

**Ciaran and Lucy's steamy story continues in *Claimed by the Wolf!***

## Karen says

### Darkness

This is the first book in a trilogy and the conclusion is open ended. An American tourist and photographer is forced from an English road on her motorbike by a torrential rain storm. She takes refuge in a castle the locals didn't mention being nearby, and thinking it's vacant, decides to explore. But as she's about to step into a tub of hot water, a man appears and confronts her. He says he owns the castle and calls her a pack chaser, first taking her body, then taking her captive.

This is a dark, erotic story, that ends unresolved. I won't be continuing with the next two books.

---

## Sabrina The Trash Queen says

I've like it, can't wait for the second book in this trilogy. why it is so short ?

---

## Gea says

Dangerous but luring at the same time!

A free spirited woman and a caged shifter meet, the intensity of his approach is too much so she flees while he gives her a chance.

But maybe it's too late because they are each others soulmates.

I didn't know this was a book in a series, there's not really a cliffhanger but a promise that the story will continue.

I received a free copy and this is my honest review.

---

## Cindy Hardegree says

Gripping in more than one way, this dark novella had me. Interesting storyline, good character construction however the book wasn't long enough to really understand what was really happening. Training? Dreams? Groupies? What does it all mean? Fast moving and steam inducing werewolf sex make you really really want to know what is next.

I received this as an arc and am voluntarily presenting my review. Would have given 5 stars if had not been novella.

---

## **Judy says**

This diffently is a wonderfully dark shifter romance story. It's an enjoyable quick read. Lucy is an American photographer traveling all over Europe taking pictures for an exhibit back home. While driving in the rain she sees a Castle hoping to find some warmth and dryness. What she finds is a controlling hot sexy man who she listens to without knowing why. Carian is more than a man and not fully a werewolf. Carian does not listen or believe that Lucy does not know what she is doing there and it's a shame he does not listen to her. He thinks all she wants is to be dominated by him and takes control of her body and mind. This story is very intense as Carian is the dominant and Lucy is the submissive. Lucy is a strong woman and stands up for herself in the end and it breaks Carian as she does. The end is a bit of a cliff hanger, I can't wait to read the other two books in this series. Sure wish it was one book! I voluntarily reviewed an Advanced Reader Copy of this book.

## **Donna Langley says**

### **Yikes**

Sure was a scary read. I was terrified at first until I read more I couldn't understand how she was drawn to him and she was pissing me off to with not asking questions when he would call her those names like pack Hunter or whatever it was. I knew he would kidnap her but I guess there's more to the story that we'll read in second book

---

## **Margaret says**

I read this book and although it ended as a cliffhanger, I enjoyed the story. I can't wait to read the next book. The story is different than other paranormal stories that I have read and I liked that it was not so cookie cutter. I would recommend that anyone who likes paranormal stories to read this one.

## **Sue Davis says**

### **A Caged Werewolf Over 18+ READING**

Lucy a young woman traveling though Europe on her cycle runs into very bad weather, freezing temperatures, lonely castle in the middle of nowhere, and a werewolf. Ciaran a werewolf with a beautiful castle that Lucy breaks into to get out of the bad weather. He mistakes her for someone who chases wolves to sleep with them. He does try to protect her from himself on the full moon... she doesn't follow his instructions. She will get away but does she really want to? Future books will tell us.

---

## **Nicole Studioso says**

Very dark shifter romance. My first by this author. Looking forward to the rest in this series, more backstory

for Carian and more character development for Lucy. Great book overall. Grabs you right from the start with the detailed descriptions. I received a free copy through an email giveaway. This is a very dark romance, not at all what I expected for a shifter story. Carian Mallory is a reclusive werewolf who lives in a locked castle, hidden away due to his deformity. Lucy Abbottsford is the young woman on an extended photography trek through the countryside who take refuge within the castle one dark and stormy night. Carian believes that Lucy has come to have a bit of fun, that she's a shifter groupie. There is a lot of backstory given to Lucy, but none to Carian, which was disappointing. However, this is only the first book in a 3 part series. Also, the book simply ends awkwardly, which bugs me. The story itself is very intense and sexually charged, but can definitely set off triggers. Carian is extremely dominant and believes Lucy belongs to him and must fight him yet be submissive, so it can be hard to read at times. Hoping the relationship equals out more in the next book. I enjoy a stronger female lead.

### **BP34 says**

This is the first book in the Werewolf Fever Series and is the story of Ciaran and Lucy. The book was well written and the characters interesting enough. Lucy a budding photographer has to take shelter from a storm in an old castle and that is where she meets Ciaran. The book is on the dark side and leaves you with a bit of a cliffhanger. The story of Ciaran and Lucy is continued in the next book. i received a reader copy of this book and voluntarily chose to review it.

### **Steph says**

Trapped by the Wolf is the first book in the Werewolf Fever series. Before I start talking about the plot, there are some warnings I would like to highlight. First, the book has a cliffhanger. Therefore, I don't recommend you to start it if you don't have the rest of the series ready to start it, because you won't be able to put it down. Second, the novel is very short. In fact, it will take you about 2 hours to finish it. Third and last, this book has quite a dark and sadistic sexual content. If that isn't your thing, then you might want to walk away from this series.

Now, regarding the plot, I feel it was too rushed at the start. I wish I could know a little more about Lucy and her life before she ran straight into the castle of the werewolf, Ciaran. Honestly, I was very exasperated with the heroine in several moments of the book. She was so driven by desire in most of it and watching her act with no self-respect just pissed me off big time. Nevertheless, I just couldn't feel mad by the chauvinistic and sadistic tendencies of Ciaran. For some reason, I could see a vulnerable and hurt side of him. A side that longed for more, even if it was in quite a twisted way.

This book was very fast paced, which makes perfect sense since the book is quite short. Also, it is quite filled with a lot of very hot and dark sexual content. It will have you melt and be scared at the same time. Leaving the dark and slightly sadistic content of the novel, I have high expectations for the whole series. In fact, I am hoping for a HEA. I can't wait to read the next short novel in the series.

### **Leslie Sanchez says**

This book is not quite what I was expecting. Considering Lucy had already been travelling in Europe by herself and knew the dangers, she sure did not heed any tell-tale signs of danger. While I am not opposed to violence, I am not into BDSM or a man that doesn't even listen to what is said. This is definitely a Fifty Shades of something type story. Having said that, I still couldn't put it down. I had to find out what happened. Even though I'm not fond of the darker elements of the story, I am compelled to find out what happens when she gets home. I voluntarily reviewed a complimentary copy of this book.

---

### **Marta Cox says**

This is the first part of Lucy and Ciarans story although the ending does come at a convenient and logical place. I do feel however that some readers will feel short changed although my copy was free on kindle so I personally cannot complain.

Essentially we are told that Lucy is aware of the paranormal but unfortunately that's all the information we get about her. Ciaran too is a bit of a mystery although he does kind of explain a little of his situation as the story pans out.

Some readers will enjoy the sexual nature of this couple but I should point out there are perhaps scenes of dubious consent. Whilst Lucy isn't exactly forced she is in a position that I don't think she would have chosen. That being said I thought both of these characters were somewhat adrift and both make mistakes. If honest I think I'd rather have had the whole book instead of just the first part but I do realise that attention span and reading time differs for everyone

---

### **Evelyn says**

The blurb was very misleading and should have contained warning that this is a short story containing S&M smut.. I would have skipped it altogether had I known. The main character is gifted with only a few braincells and limited self preservation skills. Her lack of common sense was constant wonder throughout the 70 (?) something pages.

---

### **Brandy Jones says**

#### **A fast, suspenseful read!**

I love dark books that push limits but normally like a bit more consent than what was in this book. However, I feel like it was well written the way it is all played out. It has a very carnal, raw feeling to the story and I was intrigued. It was a quick read and I finished it in one evening. Somehow I missed that it was going to end with a cliffhanger so I will be looking forward to read what's next.
