### C.J. says

Drama! Didn't like how it ended but essential to good story.

### Jessica Gomez says

I am liking the sisters change in attitude towards the plus sized heroine. I liked the family coming together in support of her. What I do not like is her weak defeatist attitude. That is just very choke worthy as I do say myself! She totally gave in! Poor gorgeous rockstar. I'll comfort you come over to me. I'll fight for you.

### Gloria Herrera for As You Wish Reviews says

Endearing love story. About time a size 12 female is featured as the heroine and love interest! Therese is a gorgeous girl, sweet and intelligent. Max is the rock star who falls for her. The pursuit is worth reading this series. Fully recommended!

On the third book, we're left hanging and pissed off with that bitch. Throwing piss at Therese? Damn! Made me want to strangle her. But I'm glad Nikki already took care of that. **She rocks!**

I don't like Nikki at first but after what she did to defend and protect Therese, I love her now. And I want someone like her as a sister. She's actually sweet and caring when she wanted to be.

But because of what happened, being traumatized, embarrassed and all, it made Therese not want to be involved with Max at all. *Don't blame her though.*

As for Max, gaaaah! He's soooo damn sweet and sincere and.. Argh! In this book, it showed that he was really into her, that he really cares.

“Please, I’ll fix it, just...” He paused. “Just don’t stop seeing me.”

### Ohhh! Sweet!

Another thing I loved in this book, was when Therese admitted her feelings to Max. Then it saddened me when she told him she can't see him again.

It was an emotional ride. I Absolutely enjoyed this book! So friggin' amazing. Can't wait to see how it ends.

While Therese was at work, the ex girlfriend of Max's shows up. After a second warning, the crazy psycho ex throw pee on Therese. Luckily Nikki happened to be there and kicked the girls butt.

Therese makes the decision then to stop seeing Max. But it's kind of hard to do when he is calling non stop and flies into town whenever he can get away to see her.

I was not happy with this ending....I am praying the last one ends the way I hope it does...  
This really deserves a 5 star because it was just as good as the rest, but the ending pissed me off lol. No reason other than that I gave it a 4 star rating.  
So just saying that I may change my rating up to a 5 star just depends on how I feel overall with the books.

As you can see I changed my rating up to a 5 star...because it was so well written even though I DID hate the ending. I can see taking away from the book for that reason only.
