## **From Reader Review Alex Hollick: Origins for online ebook**

### **5ngela says**

The story is not like what I imagined. I don't like Alex Hollick character and many characters in this book, but I can relate to them. I don't like it that they use derogatory words even though it was parts of the story.

I am not sure I want to read Bloodbath after reading this. But I will consider it since I think this story is interesting.

---

### **Baxtertpug says**

#### **Lots of twists and turns**

I loved the psychological bent of this book. Major characters are well defined. Can't wait to read the rest of the books in the series.

---

### **Adrienne Testa says**

Field agent Alex Hollick and his team get caught up in murder, conspiracies and cover- ups as he is brought into a deep ops FBI. Only two from his team will survive and two will die. Their boss, has his own secrets, lies and cover-ups to answer for. Alex Hollick stops at nothing to learn the truth and protect his one surviving team member. As Hollick starts his new position within a secret group of the FBI.

---

### **Jed says**

Took me a while to get into the story and it was ok. Not sure if I like the 'hero' or not though.

---

### **Phyllis Gauker says**

Kept you on your toes not really knowing if fbi agents were what they purported to be, or NOT. apparently there is a whole series of alex Hollick books which might make for a comfortable, long, read in the life of one fbi agent as he's transferred from one job to another, or NOT.

---

### **Lynn says**

Another freebie from Bookbub. Long, complicated plot with under developed and unlikeable characters.

---

### **Glen says**

took a long time to get anywhere..

---

### **Dorothy Gagnon says**

#### **Secret Agents Intrigue**

An FBI team of highly trained under cover agents on a dangerous robbery stakeout are led by one of the best FBI agents and team leaders, Alex Hollick. They are perplexed that the robbers are not hitting this bank on a sting operation he set up, on his final attempt to capture this group.

These highly clever robbers seem to always be one step ahead of his team. Jennifer Fletcher, his colleague and Communication's Agent, whom he has a crush on, by chance hears a lead that the robbers are in progress at another bank. They set out in a wild pursuit, which leads to a chase, car accidents, shooting of innocent bystanders and worse...the loss of two of his team, and Jennifer seriously injured. Alex fears the worst, that one of his team sold them out.

This amazing story takes Alex into a promotion of a higher FBI role as a Secret Agent for an Agency that no one can no about or he will find imminent death, to his abduction in training, torture and leaving Jennifer without any knowledge of what he does.

---

### **Debbie says**

I fund this a little difficult to get into, to start of with, but I think that is because the Author was setting the scene in great detail.

I enjoyed the mystery, thrill and crime behind this book and once finished (up to around chapter 10) I have now started the follow book as this first one is only a few chapters.

---

### **Barb VanderWel says**

I love this & I can't wait for more.  
I will be also leaving a review on Goodreads @ Amazon.  
And letting everyone know about it.  
So i gave it a 5 Stars.

---

## **Joel Ungar says**

Kind of pointless.

---

## **Joan Cameron says**

### **Great read**

Really enjoyed reading this book. Excellent characters and absorbing story line. Apt descriptions of L.A. Am truly looking forward to reading more of Alex's adventures

---

## **Kristin says**

It was alright. The first chapter I was immediately intrigued and thought it would be a great book. As the story continues, though, I found the whole plot was a little confusing and I just couldn't get into it.

---

## **Autumn says**

<http://fallenoverbookreviews.blogspot...>

For a free ebook, this was pretty good.

So we are introduced to Agent Hollick who is working on a case of bringing some bank robbers down. Though it turns bad pretty quickly.

Now what ends up happening is a turn of events that even Agent Hollick is not going to just sit back and let it go quietly under the rug. He will uncover all sorts of things going on within the FBI office while trying to protect those that he cares for. He knows not everyone can be trusted he just has to figure out who can be. I was a bit confused on the part of the torture that Agent Hollick was introduced to. I mean I could understand the why but it just didn't seem to fit well with the story. I do like how there was never a slow spot in the story it made it be a very quick and decent read.

Where the book ended I am curious as to what else will go on in Alex's life. It looks like he is filled with excitement.

---

## **Liza says**

**It is good.**

**It is good.**

I liked this one, the only reason I didn't give it a higher rating is because of the odd scene of the torture part.

That was a bit hazy, otherwise, I am looking forward to the next installment.
