Alphas Divided: Part 1 of 3 Jamie Klaire

New Adult Paranormal Romance

Emma is a typical cop's daughter, who is very rarely held accountable for her actions, until the day she gets caught shop lifting with her best friend and partner in crime, Kate. Desperate to turn the girls back towards the straight and narrow path, their fathers send them to live with Emma's deceased mother's "people."

Emma is first shocked to learn that her mother has "people," and then she is even more surprised to learn those people...aren't completely human.

Thomas is the aging Alpha of a hidden werewolf pack, whose two sons, the mysterious Elam and the dark and sexy Galen, soon find themselves enamored of the two new women, vying for the position of Alpha, and starting to uncover the secret of Emma's mother's past.

This is part 1 of a 3 part serial. This serial will be bundled for those who do not like cliffhangers.

This is the first book in an ongoing story, approx. 18 - 20,000 words each. It is not a standalone and does end in a cliffhanger.

This book is intended for readers 18+ and comfortable with a sexy romance.

All entries are free with Kindle Unlimited.

Wendy coling (trowbridge) says

Emma get sent to her mothers family after her dad doesn't know why else to do with her, her friend comes and for Kate she instantly feels for alphas some and Emma who still coming to term with her mums family find a friend in the alphas other son.

Jessica Mitchell says

A short story with a big cliff hanger at the end and it kinda throws you for a loop too.. With a wtf how. Emma and her friend are always into trouble. The one time they decide to do some stealing out of their county. They get caught red handed and it don't matter that her daddy is the sheriff. So faced with two choices she goes to live for a year with her mom's people. Meeting her people has brought some huge changes in just the first day. Will there be more surprises...

Kathy Harrington says

2 teens with loose leashes get thrown in jail for shoplifting, choose to go to the families pack to learn some manners. Enter 2 hot alpha males who need mates...enough said.

Jennifer Erwin says

Got this in the Howl & Growl box set. It was an ok read. Didn't really draw me in enough to want to read the rest of the series.

Donna Elliott says

Loved this book so much I immediately bought the two others in the series. Fun book, good plot and great sex. What more could I ask for? I was given this book for a fair and honest review.

Monica says

I had such a hard time getting into this. I didnt like Emma and Kate's characters. I think it was mostly their attitudes and how they acted...I got annoyed with them lol just couldnt enjoy the remainder. I wanted to give this a chance but meh...I just couldnt get into it. I know a lot liked these books but if I can't get through the first then part 2 and 3 I'm not going to even try. Sorry.

Elaine says

This felt like it was written by a teenager. I thought the two female leads were young teenagers, but then it mentions them being in college so I thought they were a little older. One of the females sees a guy, and its instant lust and wham bam, that same day she's mated. And her wolf blood is supposed to be diluted, yet the one who is half-wolf feels no instant lust for her destined mate.

It was very child-like, over-the-top and has the nerve to be a part 1 of 3.

Crystal's Quirky Reviews says

Very intense read! I thoroughly enjoyed this episode and extremely excited to read the rest of them. Author Jamie Klaire has a very unique take on shifters that I am seriously loving! Grabs your attention from the start and doesn't let go.

I was given a copy of this book in exchange for an honest review

Sammy Bell says

Well I was in a place where I needed a book to get lost in, blimey did I find it! I read this book in about 2 and a half hours great read for anyone who loves a good shifter book, nice easy read

Apache Flower says

I really liked Alphas Divided part 1 of a 3 part series. I can't wait to see what happens next. Jamie Klaire did a good job with the characters in this book and so I will save money so I can buy part 2 next!

Raina Collins says

I liked that we got to see the inside of a pack from the view of to young women who just arrived. The instant mating was interesting and steamy. I just wish it didn't end in a cliffhanger.

Debra says

I love it when I find a new Author and especially when what I'm reading makes you want more. I found JM Klaire in the Box set Howl and Growl and now I will be following her on the journey of discovery. I really enjoyed reading about Kate and Emma, two spoilt young woman, Emma learning about her mum and

who she really is. This was well written, it was enticing and bought us adventure and excitement. I loved the oh so sexy Galen and Elan. I'm not a fan of cliff hangers but they do make you want. Now I'm of to find out what happens next!!!

Anna says

The opening part of the story was rather dull although quite necessary. At first I wasn't sure I would even like this particular book and then it got very interesting and very hot very quickly. I still however have trouble with the suddenly I love a werewolf that came from one of the main characters but it works. I guess werewolves and those that love them fall in love very fast.

I will be reading the remaining parts of this book.

Natasha says

Emma and Kate have been best friends since they have been kids. Emma's father is a cop and Kate's fathers a preacher and one day they went to a mall outside of town and got caught shoplifting. First time they can't talk their way out of trouble. A big surprise comes when their fathers give them an option

Deborah says

Emma and her best friend Kate think they have everyone fooled, they have far too much time and far too little parental supervision and they're running a little wild, matters come to a head and the girls are given a choice, live with Emma's deceased mother's family for a year or face the consequences of their actions. The girls are in for a few surprises where Emma's family and friends are concerned, how long will it take them to adapt, if indeed they adapt at all.

This could turn out to be a good series and since I'm not a fan of cliffhangers I've downloaded it as a complete series.
