Fried Green Witch Amy Boyles
Can Dylan free her family from jail?

Southern witch Dylan Apel seems to have her life figured out. Plan wedding to her boyfriend--check. Make dresses--check. Deal with crazy pregnant ladies--not so much.

Life's going great until Dylan and her sister Sera become entangled in a baby shower murder.

When one of the guests winds up dead and all evidence indicates that Sera poisoned the victim, it's up to Dylan and her family to get things straightened out.

Except the rest of her family winds up in jail, too.

Now Dylan must clear her family's name, catch a killer, and avoid becoming the next victim in a mystery that's got more twists and turns than Dylan has dealt with before. Can she solve it? Or will she wind up dead?

I love this series

I started this series only a week ago, I can't put these books down. They have gripped me and I can't put them down.

Selena says

So good

As always an awesome book funny and keeps you guessing on who did it! Plus the love stories! It's a great series I suggest everyone read it from the beginning!

I am enjoying this non-sensical witch mystery through Kindle Unlimited. I like an extended series, which gives the reader the opportunity to spend time with a defined group of characters, hopefully, who grow in depth.

It does have some eclectic characters, but none that are extremely compelling still. The heroine is finally starting to reflect some character growth and the relationship between the H/H seems to be racing along. I flipping through these pages so quickly, that I haven't really stopped long enough to jot down my thoughts about each individual installment, although they each include many of the same attributes in a different scenario.

There are some minor grammatical errors. It is a clean read and contains an H.E.A. regarding the dead body. It is able to stand on its own, but the series will probably be better understood if read in order.

Wildia Maness says

Dylan does it again

I love these books, great characters and fun storylines. The trip to Normal was a good way to bring the two series together.

Diane Worthen says

Each book gets better

Dylan and her family are into yet another crazy situation. Multiple witches, a leprechaun, boyfriends and even the mayor of the supernatural beings gets involved. Oh my!

Book eight

This one keep me in confusion. The twists and turns then twist and turn again keeps you guessing what was going on.

Fried Green Witch

A Witch Baby Shower, Dark Magic and a Murder. Dylan and her sisters are on the case to find out who murdered the sister of the Mom to be, who just happens to be a witch. Love the merging of the Bless your Witch and the Witch's Handbook series. Can't wait for the next book!

Really fun continuation of the series

Loved this story and love this family. If you like paranormal with a touch of 'southern', humor and characters who grow with each book you need to read this series.

Jana Gundy says**Another excellent book**

I've been a fan of this series from the start. I can't believe there are now 8 books! Dylan is super sleuth again, trying to solve a murder to keep her sister out of jail. It was entertaining and I really enjoyed it.

Trina Santiago says**A ballooned witch at a Baby Shower?**

When Sera is hired to cater a Baby shower, little did anyone consider it turning out to be a murder scene! Leave it to the Apel family to be right in the middle of it!

Mary Walker says**Fun book**

Fun book with new characters. See what trouble Dylan gets in now. The grandmothers have to help straighten things out as usual.

Amy says**Love this series**

These girls...they just can't seem to stay out of trouble! I love the love this family has for each other. Doing whatever it takes to keep each other safe. The author brings her two worlds she together, but is able to keep them fairly separate. It was a good mix!

Mike Lewis says**Great story**

Great series with a great cast of characters. A cozy mystery series with a witchy twist. A family of which is in their lives intermingle into all the trouble and mayhem they can get into or find and figure out how to fix or get out of. Also you have to love the grandmothers. Check it out
