Another great read mixed with the paranormal, love, laughter, alpha men, strong women, God, and love making scenes. Glad that this author can take you on such an adventure.

#### **I enjoyed this book**

I kept seeing this book as a recommendation and I was reluctant due to the non human aspect having read a few not so good ones. I am so glad I have in a room a chance. Very different from anything else I have read and hope we see these characters again.

#### **Enjoyed**

I really enjoyed this story, I loved the intense relationship between the two main characters. I still never learned who Seraphina were and what actually were her power.

#### **A good read**

It was something different but good. I wanted to know what made Seraphina not trust Dina. What was Dina up to? What was her true intentions when she gave Seraphina drugs because fun wasn't it? I would have never thought that Uriel seemed to be destined to be there for her when she needed him most. His father was a jealous, conniving monster that brought death to his sons' door. How heartless a man can be? Too bad plans are not always full proof. I enjoyed reading Uriel unexplainable allure towards Seraphina. A wonderful HEA that will surprise you.

#### **Strange in a good way!!!**

I normally don't read paranormal books, but this was so intriguing to me. I don't know what was it about this

book but it was confusing yet fascinating at the same time. Uriel world changed the night he saved Seraphina. And you almost have to question was it fate. After some time has passed we see Uriel and Seraphina path crossed again which lead them on this explosive journey of dependency. Now the only thing that I had a problem with was it never said who or what Seraphina was. I mean was she also a mystical being or just a regular person with some serious issues. I have no clue, but it was a good book none the less.

"Love Is Madness" by Elisabeth

My Thoughts....

A quite enjoyable emotional fantasy read that will grab you and keep you pulled in until the very end. I love vampire reads that gives the reader a interesting storyline with a mixture of good over evil and in the end only the 'good will prevail' for Uriel and Seraphina. Be ready for a twist and turn ride that will take you on a journey that starts off with a love hate relationship that will develop into something quite a beautiful romance in the end and yes I agree with the title "Love Is Madness."

#### **What an imaginative story**

Uriel Hendrix, a hybrid divinated being managed to find love after centuries. He and his brother Nate, were cursed through the sins of their selfish father Sariel. This story ultimately is about the healing powers of love. Seraphina Rene de Cotret was originally bred to kill Uriel unbeknownst to her. Uriel was unexplainable drawn to her and ultimately, they fell in love despite opposition.

Their love for each other saved them from the curses and healed Sera. Uriel and Seraphina were finally able to have their HEA, even though Uriel was believed to be dead. He was blessed with a bonus once he found Sera again.

Elizabeth wrote a very imaginative story that held my attention from beginning to end. Uriel and Seraphina were very complicated characters. Uri, a hybrid divinated Nephilim vampire, was an ultimate no holds barred alpha. He tolerated very little from others, until he saved Sera. Poor Seraphina was brain wash into thinking she was cursed to kill the ones she loved. Uri saved her in more ways than one. They saved each other through the power of love.

I wanted to give this book 4.5 or 5 stars but I felt like a lot was missing. The last 20% of the book felt rushed and not complete. It was good, just confusing.

You definitely have to have an imagination reading this book.

This is my second book by Elisabeth and I really like her work.

Okay I enjoyed this book, but there were a few tidbits that needed to be fleshed out some more in order to get the whole picture. I was pleasantly surprised to find that it's a paranormal read. Seraphina has lived most of her life captive in a testing facility, where the test subjects are of the supernatural persuasion. She has no idea what she is or why they run so many test on her, but in order to control her and her power she is continuously dosed with a synthetic drug. (And she hears voices, but that was never really explained or given a reason as to why). Uriel, rockstar and son of a fallen angel, meets her on the night she intended to end her life. He saves her, only to find that her blood is irresistible.

I liked this story, and it had a good plot with interesting characters that I would love to read more of. But a few things could have been better explained like Seraphina's powers and Uriel and his twin brother's backstory. I would have liked to see Seraphina adjusting to actual normal life, after her confinement in the facility. Not to mention the non-consensual bits between her and Uriel. He had a little more atonement to do, and I wish that was expounded on more with Seraphina, since love doesn't magically wash away acts of violation. But over all I enjoyed it.

#### **Just what i was looking for**

Urial and Phina, a different kind of love story. Great imagination and I didn't see that coming. Fast read, good story.

### **Love is addicting**

To be honest I had no idea what this book was about but I'm glad I decided to read it. I had no idea that this book would be a paranormal romance. Uriel did not have the best intentions for Seraphina in the beginning. He was actually quite brutal. As his feelings grew for her he became quite obsessed with her. The feelings were mutual. They had their challenges and things were happening that you couldn't have predicted. That's why I liked this book. I look forward to more books by this author.

Uriel and Seraphina story pulled me in and wouldn't let go. Hot sexy and alpha meets tortured sweet with some sass. After the demons from their past spills hell over their live, Love becomes the ultimate healer. A highly recommended read!
