Now that Mallory's 2 best friends parents got married, no telling how Mallory will feel!

Sharon says

I thought that is was sad how Malloy got left out of all the things her 'new' family did together. In the end, I was happy to hear that she had a nice day at the cruise.

Horace Mann Family Reading Challenge says

Mallory went on a ship to see her friends mom get married. A.R.

Brett says

Mallory continues to be very appealing. She is very likable & has realistic reactions to situations.

Pooja Dimba says

I knew this wasn't going to be a good book, I was reading it for fun and the love of getting a chance of flaming it.

Not thought provoking, no plot, poor dialog. I would've given it 1 1/2 stars if I could.

I am reading this 'on the side' to encourage one of my non-readers. In this Mallory book, Mallory is whiny and unsympathetic in many ways. I recognize that she exhibits characteristics of a perfect ego-centric 10-year old (which is developmentally appropriate). Too bratty for me. Sadly, she does act like some of my students, the proper audience for these books, so I can see her appeal! In truth, I would prefer my girls to be enjoying less bratty protagonists in their fiction reading.

Katie Fitzgerald says

Mallory is not at her best in this book. She is whiny and selfish throughout almost the entire story and a lot of the scenes are repetitive. I felt like the author was struggling to fill the pages of the book. And I didn't buy that Mallory would be as jealous of her best friends becoming step-siblings as she was. It didn't ring as true to me as many of the other books in the series. But most of the others up until this one were much better - Mallory's a likeable gal most of the time!
