This book in a word was AMAZING!! I have been waiting so long for Taylor and Manning's story, and let me tell you it was definitely worth the wait!! I have loved Manning since he made his appearance in Inferno. And then as he grew up and made his appearances in other books, that love turned to lust!!! YES! Manning is one fine cup of hot chocolate!! Miss Maureen had me blushing and smiling like he was talking to me!! LOL!! I love the way that Taylor and Manning ran into one another on an off chance. There was definitely fate at work. This book made me laugh, cry, and of course on certain parts made me feel some kind of way!!! But of course no book is ever without drama and there were two...count em', two drama queens that had me cussing up a storm!!! I wanted to reach into my Kindle and throat snatch them heffas!!! There was such fire and passion between Manning and Taylor that it made me want a Wolf of my very own!! Not to mention that Maureen introduced some secondary characters that interested me. Gabby and Tru...I'm looking at you. It was great to catch up with the Wolf Pack and I can't wait for Montana's story next!!! Maureen did an excellent job of showing us how sweet teenage love transfers into an adult love full of seductive passion. This book is definitely on my list of 2014 favorites!!!!

An ENDEARING romantic ride w/Manning and Taylor...I enjoyed their budding teenage romance...and felt their pain at their 20 year separation...BUT the instant attraction and re-connection once they FINALLY met up again is AMAZING...it's like they'd NEVER been apart...the intimate scenes are extremely HOT & SPICY...the story is very detailed and quite lengthy...but DEFINITELY still a worthwhile read IMHO...as ALWAYS the full cast is COLORFUL and entertaining...and I can't wait for the next Wolf to fall...this was truly a happily-ever-after fairy tale!

Well worth the wait AND the price! I loved Taylor and Manning's story; it truly felt full and complete, leaving no questions answered. So nice to see what started out as puppy love come full circle and blossom into a true, lifelong love.

Excellent job, Mrs. Smith! I have read all of your books, and can honestly say that I've NEVER been disappointed.

I absolutely LOVED Manning and Taylor's story. I just wish they hadn't been separated for so long. I was so angry when I learned the cause of their separation that I had to stop reading to calm myself down!! That this book evoked such strong emotions from me is a testament to Maureen Smith's skill as a writer. She is and remains one of my favorite authors of this genre. I can't wait to read the rest of the series.

I was absolutely thrilled when this book was released after waiting so long, and I must say it was well worth the wait. Maureen Smith proves she is one of the most brilliant writers around, but I already knew that. Manning and Taylor's story draws you in from the first page to the last. Their story persevered through tragedy , separation and deception to find each other after 20 years of separation. You rock Maureen Smith and I will continue to read all your books.

Swweeeeet Lawwwwddddd...Ladies We All Need A Wolf Man in our Lives!!!!

Seducing the Wolf picks up years later after Inferno. We now have Manning and Taylor as adults, neither has seen the other in over 20 years but a text from Mama Wolf to Manning will tilt his whole world upside down. The one person who he has always pined away for slams back into his life like a Category 5 Tornado and for these two people life as they know it will never, ever be the same.

Taylor Chastain, Grammy award winning classical violinist has traveled and performed all over the world. She now lives in Paris but has accepted a summer teaching position for 3 weeks at Emory music school where she is teaching the music students different classical music pieces which they will perform along side her with the Georgia Symphony. Taylor is in a relationship but one morning she literally runs into none other than Manning Wolf, her childhood sweetheart and only true love.

These two coming together is it fate or circumstance? Manning seems to believe so but convincing Taylor will be a different story. These two together the chemistry is off the charts it will literally scorched your hands through your Kindle or Nook LOL!!! Well as much as we all love scorching love scenes, the story itself was full of emotion, heartbreak, loss, betrayal and unconditional love.

It was soooo wonderful to catch up with the other members of the Wolf Pack, Quentin, Lexi and yes everyone Queen Asha Dubois herself. Author Maureen Smith just weaved everyone into the story so effortlessly without missing a beat. Like another reviewer stated, it is just so refreshing and wonderful when we you can read a book about family oriented, successful black people. It just makes the story that much more than a 5 star rating.

All I can say is you haven't really read until, you pick up one of Maureen Smith's books. I have read all of them and I can tell you it is never a dull moment, her stories will keep you on the edge of your seats and also cause you to compose your own list of the type of men in her stories to present before God and say, "God this is who I want in a Man" YESSSSSSS!!!!!!

Well Until My Next Review Ciao Bellas!

Maureen Smith!!!! I thoroughly enjoyed reading this story! Felt so many different emotions while reading this and I have to say that this by far my fav book out of the Wolf pack series. I didn't want the story to end so the fact that the book was longer than the others was perfect for me! Still on cloud nine! Well worth the wait!

Losing track of each other over the span of two decades, Taylor and Manning meet again by chance...or was it fate? As tragedy struck in the past, malicious intent drove a wedge between young love and as it so happens it would take redemption and forgiveness to bring them back together. As a world famous violinist, Taylor has tackled the hardest pieces of classical music but has always played it safe when it came to her heart. An avid 'player' himself, Manning finds it hard to forget the one that got away, but the past has a funny way of repeating itself..and sometimes the good comes along with the bad.

I thoroughly enjoyed this book; as the longest novel to date written by Maureen Smith, it was certainly worth the wait. I have enjoyed many of her novels, actually most of them but this one really had me emotional. I could see the love, knowledge, and emotions she put into this book. The plot flowed and gave a great account of the past, present and future to come. I enjoyed the interactions between the characters, especially Manning and Taylor. And I loved the character development each of them had as the plot progressed. I also enjoyed catching up with the rest of the Wolf pack. Great read M.S. I look forward to your other books and series to come.

I will be the first to admit that Taylor got on my nerves seems like as a you girl she was lead around doing what she had to do because she was a child but what was her excuse as an adult? I did not like that about her . I was happy to see her grow into a woman i could respect. The way she handled Caitlin at the concert showed how much she grew as a woman it was really good to see her growth. Manning and Taylor's story was one that I have been waiting on for a while and I can truly say it was worth the wait. Maureen Smith has been a favorite of mine for a while now and it was good to see come back to writing with a book like Seducing the Wolf I felt she set the ground work for future books want to see Gabby end up with a member of the WOLF PACK , and I want to see Tru Fall in love hopefully Taylor's father will find happiness because I spent a long time not liking him in this book. Good job Maureen Smith I can't wait to read the next book.

This was a long book at over 8300 locations and I loved every minute of it. I'd forgotten how good it is to read a book like this; how hot it can be to read m/f sex scenes. Taylor and Manning were perfect for each other. I loved their story when they were teenagers (Inferno) and I love their story as adults.

Caitlyn was a hot mess but I liked her as a villain. I was shocked by another villain but it all made sense in the end. I know other stories are planned for the other Wolf brothers and it would be very brave and I'd be the first to buy the book if Maureen Smith would make one of the brothers gay. Taylor's friend Ken is gay so he'd make the perfect match for one of the Wolf brothers. Time will tell. I wish there was another book ready in this series for me to read right now!!!

### **Metris says**

Seducing the Wolf was absolutely, positively the BEST book in the Wolf Series. Maureen kudos to you, well worth the wait. You brought it all in this book the HEAT, FIRE & EXPLOSION. I can honestly say that I felt every emotion possible! OMG and Manning Wolf is every girls DREAM MAN he is definitely worth being seduced. I have always love childhood sweetheart stories; however Manning & Taylor was on a higher scale, they truly meant to be.

A MUST READ... BUT PLEASE START FROM THE BEGINNING CAUSE ALL THE WOLF MEN ARE HOTTIES

### **Reshemah says**

I must say that I was one of those readers who was going crazy waiting for this book to finally be released. After reading this book, it was well worth the wait. Taylor and Manning was simply adorable in Inferno and they sizzled in Seducing pathetic Wolf! I will say that the timeline seemed a little off to me. I don't remember Manning being married in any of the other books but this one takes place before the other ones. It was a tad bit confusing. Manning Wolf is one smoking hot man and it seems like once you get a taste of him....you loose your mind and turn into a crazy stalker. I love all the flashback scenes. It takes us through their lives and what exactly happened. I can't wait to read the next book in the series. The Wolf Pack is BACK!!!!

### **Shaquaila says**

OMG! Now this is how you make the wait worthwhile Miss Maureen. I have loved Manning and Taylor since Inferno, and I am happy to say love is better the second time around. Now with that said it was a few slutmonkey's in this book, and I guess they help the world go round. (Even if I don't know why) I really hate that Miss Maureen is a great writer, cause that means we have to wait so long for her to give us more magic. I haven't laughed and cried so much while reading a book in a long time, but I can't wait for the next Wolf Pack book, Hell and Tur either. Montana is a mess so I know it will be hot, but when haven't Miss Maureen's book's haven't? There is so much I could say about Seducing the Wolf, but that would me so wrong of me. So I won't and let you read it for yourself, please take notes you might need help getting your grove back and this book might work lol. Enjoy and happy reading.

First off, WOW, such a small word for a big impact. I waited eagerly for this book for over a year, was it

worth it? It's Maureen Smith, so that goes without question. Did it meet my expectations? It's Maureen Smith, so that goes without question again. But of course once again she has raised the bar, this woman has a God given talent to make you laugh, cry, scream and pant, sometimes all at once. She will make you lose your job and your family because all you can do is pick up her book and not put it down until you reach the last word. And once again she has written a book that will reside on my re-read list, so that I may enjoy it again and again.

The only disappointing part of the book, was that little unresolved issue in the beginning of the book, but she resolved that nice and quickly, and in a way to appease my sensitive side. Thank you for that. And you know there was some Naomi Chase channeling in there because I did not see some of those situations coming, and that takes into account me constantly second guessing all those little clues. And to think I thought there would never come another MS character who I despised as much as Celeste...who knew?

Now that my heart is filled with such joy, I must put a damper on my own parade because the long wait for the next Wolf Pack novel begins again.....

SEDUCE THAT WOLF, TAYLOR..... This was another HOWLIN good novel by Mrs. Maureen Smith!!

### **MidnightAce says**

This book was long worth the wait! I believe this was longest book Ms Maureen has every written and I for one did enjoy the many pages. It was well written and Manny and Taylor story had the feel of a movie. It was great catching up with the other characters and she gave you tidbits to help you stay current in everything. I had been surprised by the intensity of the turmoil that plagued Taylor while growing up and the twist involving her parents. No spoilers, read for yourself. Side note, she did not skimp on the heat, just in case you needed more incentive! Enjoy!
