The Time Chamber: A Magical Story and Coloring Book (Time Adult Coloring Books) Daria Song

This is the second adult coloring book in the bestselling Time coloring series, featuring the voyage of a fairy who, when the cuckoo clock chimes midnight, enters the human world. To the tiny fairy, everything seems enormous and magical, from the curtains to the chandelier to a mystical rowboat that takes her further into an inky adventure. With her she packs her favorite items, which colorers can find throughout the book's pages: an owl-feathered pen, a star-scented spray, a time tape measure...even the key to the time chamber itself! Filled with the imaginative, intricately detailed illustrations Song's readers have come to love, The Time Chamber presents a view of our world made new-and ready for coloring. The Time Chamber features extra-thick craft paper, ideal for non bleed-through coloring, and the jacketed cover with flaps is removable and colorable. Special gold-foil stamping on the cover and spine and a To/From page make it perfect for gifting to adults and kids alike.

I just love the pictures in this coloring book. They are so detailed and full of fantasy elements. The paper quality is great and bright white. It works well with both my cheap Crayola Colored Pencils and my more expensive Prismacolor. I have colored two pictures in this. It is a blast picking out color choices. The book itself is well put together. It doesn't look like a coloring book. It has a slip cover that gives it a classy, high quality look. The price is good too. As of now it is under nine dollars. I have paid much more than that for coloring books this nice. I love this.

I love all of these coloring books they are coming out with, I can't even tell you have many I have! But who doesn't love coloring?!

I started one page using gel pens, I usually use colored pencils, but I think it's looking okay with the pens. I picked a crazy one with all kinds of colors blending together :)

Here are a couple of other pages, and some have words on them.

I would like to thank BLOGGING FOR BOOKS for giving me a copy of this print book in exchange for my honest review.

I had been looking forward to The Time Chamber: A Magical Story and Coloring Book for weeks. Now that I have it, I can say that I am not disappointed; I'm delighted. The artwork is beautiful and intricate, with plenty of details to color to your heart's content. Daria Song has also included a simple story about a tiny fairy who becomes curious about what lies outside her cuckoo-clock home. The story is, of course, told primarily through the artwork with few words.

The pages are double-sided on thick, smooth, high quality paper. Other coloring books may provide

perforated pages, enabling the colorist to remove and frame the artwork. Time Chamber's pages are *not* perforated, and you will have a difficult time removing them without losing details or the back side of whichever page you wish to display.

Overall, I would absolutely recommend this book to adults looking for a creative way to relax, as well as to anyone over the age of 7 who can hold a pencil steady and wants to color pretty pictures.

The Time Chamber is a beautiful book full of amazing drawings. They're so pretty that I didn't want to mess it up by coloring in it, but I gave in and colored a page. It reminded me of my childhood and it was pretty relaxing.

The book is about a little fairy who lives in a cuckoo clock in a human girl's room. One night, she ventures out of the clock and explores the human world. There isn't much story there, but the pictures sort of make up for it.

The only problem I really had with the book is that it was a bit hard to color. Some of the lines are so thin that, even with a freshly sharpened colored pencil, it was hard to color in. Other than that, it's great.

I would recommend this to people who like fairies, pretty pictures and coloring.

Daria Songs coloring books are absolutely gorgeous. My daughter surprised me with by Daria Song and I adore it. She put such heart into picking it out for me and the artist put so much heart into this creation. This is such a unique coloring books series because it tells a story and the pages are so detailed, full, stunning, and meaningful. This artist didn't hold back anything in creating her work for those of us who adore these books. My daughter knew right away how perfect this book and the story it tells fits me and when I saw there was a book two, which continues the sad turned sweet story of this little girl, I had to have it. The words are few and the pictures are full, gorgeous, fun, detailed and heartfelt and together they tell the story of a girl, alone, wishing to break out to discover adventure, life, new and beautiful things and experiences. It's perfect and because my daughter started this adventure for me, it is forever cherished. Extraordinarily well thought out and created!!

I recommend to everyone who loves adult coloring books and I highly recommend this artist. I look forward to the rest she'll be putting out.

Coloring books for adults? When I first heard about this new trend, I have to admit that I was a little confused. I mean I have spent many hours of my life coloring. I have colored everything from Strawberry Shortcake and Care Bears to the Power Rangers. I spent hours coloring as a child and then again alongside my children. When I think about it, there really is something very soothing to the process of staying in the lines and losing yourself in a task. When I saw this coloring book, I just had to see what this new generation of coloring books is all about.

When I first got the book, I was immediately impressed. These are high quality pages with some thickness to them. The book is a nice size at 10 inches square. The book even has a dust jacket trimmed in gold foil. This really is a different kind of coloring book. It has a certain class and character that I didn't expect to see in a coloring book even with adults as the target audience.

The artwork is beautiful. I am not any kind of artist myself. I am honestly doing really good to just stay inside the lines (and I don't always succeed with that simple task). I can still appreciate beautiful artwork and this is really just lovely. I loved the whimsy in the artwork and I felt myself becoming nostalgic for my childhood as I turned the pages and toured the little girl's room along with the fairy and her friend owl.

Because it is coloring book, I felt like I became an active part of the story. I noticed details in every page that I most likely would have missed because I was helping to bring the art to life. I found myself looking for the owl on every page. I really loved the pages with detailed patterns. What is really wonderful about this book is that no two people will have the same experience. The end result will always be different and will reflect the individuals tastes and preferences.

I would highly recommend this book to others. This is the first coloring book for adults that I have had and I plan to try to get a few more. This book would also make a fantastic gift along with some nice colored pencils. I would definitely look for Daria Song's work again in the future.

The coloring book craze.

What an amazing thing this has become.

I love to color. Who doesn't?

Like most four-year-olds, I find the greatest pleasure in just applying whatever color I choose to a host of black and white characters begging to be filled in. I can use crayons, colored pencils, markers, watercolor pencils or markers, or even plain old acrylic paint, if I so choose. It's a bevy of choices.

But, adults are returning to their childhood fancies, not to make choices, but to escape from them. Our lives are inundated with choice after choice after choice. And there is something so simplistically wonderful about just picking up a green pencil and filling in some lines.

Meditative, they call it.

I call it splendor.

My newest selection from Blogging for Books is *The Time Chamber* by Daria Song. This beautifully illustrated coloring book comes with a short, albeit full, magical story - a sweet fairy trapped inside a clock is freed when the clock's keeper, a sweet little girl, goes to bed.

Fanciful, artistic, colorful - and yet, the pages are only black and white. It's amazing how art can transform. There is a small part of me that really doesn't want to color any of the images. But, the louder four-year-old beckons otherwise.

The book tells a sweet story with plenty of places to add your own sweet tune (by way of whatever color you choose and the many places to apply it), including a colorable coverlet. Ingenious. This coloring book has taken the craze one step further - you become the author, illustrator, and reader - all in one, even though the story has been told. Again, ingenious.

And, lastly, the author and editors have included a visual key at the end of the book, presumably for reference and detail in miniature. Ingenious. A whole new perspective.

Absolutely a fun find. Highly recommended for soothing nights, cups of tea, and four-year-old fancies.

This is the second book by Daria Song. The first one *The Time Garden: A Magical Journey* and Coloring Book got all five of the stars and made me go crazy this last weekend with buying more of the adult coloring books and pretty colored pencils.

This one continues her degree of excellence.

Take a gander at the pretty pages...

I wasn't going to post this review on my update feed but I figured "why the heck not?" At least it's a new review even though I recently reviewed a book similar by the same author. At least it's a not one from last year.

Wow! These coloring books by this author, Daria Song, are just top-notch GORGEOUS! I MUST tell you you HAVE to get the PRINT copy of this book, or else what good is it in the ebook format? It's not! You NEED the physical copy. Enjoy it!!! I decided to take this book and try my hand at coloring in this book with colored watercolor pencils, but I was careful enough to not soak the pages through, yet at the same time, these pages are thick! You don't have to worry barely at all about ruining the next drawing on the next because of the quality of the paper. These pictures to color appealed to me more in this book than in the other book, and I can tell you why. There are a lot more girly-girl pages to color, and I am a true, through and through, girly-girl! Perfume bottle pages, flowers, cute little photos of the fairy peeking through, chandeliers, and more. To let you in on a secret, if you would like to see the ENTIRE BOOK, yes! ALL the pages in this book you can color, I will have this book's link down below, click on it, click on "See Inside", and you can see every single page in this book! I couldn't believe it when I saw that in the other book! I sure was hoping this book had that same option, and sure enough, it does!

You have an enormous choice of what type of medium you want to use to color these drawings with, too! Pencils, paints, watercolors, and more! The paper these drawings are printed on is SO THICK, you have those options to be able to choose from! For a coloring book, this has such a high quality to it, I can't begin to sing MORE praises for it! I have NEVER seen such a high quality coloring book like these!

There is a little story that starts at the beginning and goes all through the book until the end. It's kind of neat to read because it's like a little story for us older kids that kind of looks like it might be for kids. Not this time! This time it's for us! This drawings in this book are entirely clean, as you can see when you look inside of it at Amazon. I think the BEST PART is that this is available to us so WE can color, too! How many of you out there like to color? I do! I was talking about how I used to print off mandellas when I could find them, and I have been having a hard time finding them of late, and now I know why! They are going into coloring books like these!

Coloring is SO relaxing! Don't you remember when you were a kid how quiet, good and into your creative self you felt when you were coloring? How you would look forward to coloring? Here you go! I DO recommend this book extremely high because you are going to be thinking about coloring all day until you get the chance to just sit down and do your therapy!

This is the sequel to the Time Garden which is a fun coloring book that I am currently working on. I like how the time theme continues on in this book from the first one. This time we follow a fairy on her journey. Again Daria has done a great job with the details of this book and the added bonus of another story. It is fun that you get to color your own story book. Like the first book this pages are double sided with pictures and the paper is nice and thick so you can use whatever medium you choose. Myself I love to use colored pencils. I am looking forward to more books by Daria Song. Another must have in your collection.

OH MY GOODNESS. This is the most beautiful story/coloring book I have ever seen. It's full of all the things I love (Owls, tea, fairies to name a few) I didn't realize it was a storybook until I got it in the mail. I'm really looking forward to finishing this book and reading it to my son. He is going to love it. It's about a tiny fairy that lives in a cuckoo clock exploring the world. The art throughout the book is just fantastic. This is going to be my favorite coloring book hands down; At \$8.97, it's a steal. I've spent much more than that on lesser quality coloring books that didn't even include a cute story. 5/5 Great Christmas present.

This was my first excursion and experience with an adult coloring book. I found it interesting and certainly intriguing in the story and artistic line. Daria Song has created a sweet little fairy that lives in a clock. She leaves the clock - The Time Chamber - and visits the bedroom of a little girl while she sleeps.

The book provides opportunity to find repeated use of images. The very detailed drawings will provide opportunity for anyone that enjoys coloring with pencils or gel markers a tool with which they can let their imaginations run amok with splashes of color to fill in the black and white pages.

DISCLOSURE: I was provided a complimentary copy by Blogging for Books review program on behalf of the publisher and author/artist to facilitate this review. I was not compensated.

In which I review a coloring book. Of course it's not just simply a "coloring book" is so much more. So, so

much more.

The story is, as the title suggests: "Magical." The adventure of the fairy was so much fun I felt like I had to share it with everyone as soon as I could.

It's simply timeless.

It's also pretty simple, leaving the actual storytelling to all the gorgeous illustrations. Proving that a picture really is worth a thousand words.

And the fact that you have the chance to color them in yourself makes them worth so much more.

I am so glad that adult coloring books are a "thing" now because I have missed coloring so much; it kind of felt like I had lost a part of myself.

So many years later I'm still upset that I never completely finished coloring all the ones I had.

I received this book from Blogging for Books for this review.

The Time Chamber gives coloring books a whole new essence. This is something magical for any age group if you enjoy coloring though it might just draw you in due to the beauty even if you don't. The amazing pictures you color revolve around a small story to help describe what is taking place in this fairie's world. A fairy who lives inside a cuckoo clock. It contains remarkably intricate drawings on high-quality cardstock pages. Due to the thickness of the pages it allows you to color with anything from markers to colored pencils. You will find it difficult to decide on which picture you enjoy the best, but I think How Do You Measure time & Dancing on the Thread are breathtaking. If you have no type of artistic talent like me this finally gives you one. I found it is a little harder than some people might think. The only thing that I would change is to make the fairies ears pointy and give her little wings because to me that is what a fairy is. I cannot wait to get the first book.
