Truth or Dare P.J. Night , Ellie O'Ryan (Real Name)

During a round of Truth or Dare, Abby Miller confesses her crush on Jake Chilson. The only people who know her secret are her friends at the sleepover—and whoever sent her a text message in the middle of the night warning her to stay away from Jake...or else!

But Abby isn't going to stay away from Jake, especially not after he asks her to the school dance.

As the night of the dance comes closer, some very creepy things start happening to Abby. Someone definitely wants to keep her away from Jake. Is it a jealous classmate or, as Abby begins to suspect, could it be a ghost?

You're invited to a creepover and what a chillfest it was. I loved this book, I'm not the intended audience but that didn't matter at all. What an all round fun, girly read. If you are a fan of the old Goosebumps series, like me, then you will probably enjoy this.

Abby Miller and her friends have a sleepover at Abby's house. In a game of truth or dare Abby admits to having a crush on a guy called Jake. From then on in very creepy things start to happen to Abby. One text message to Abby's phone warns her to stay away from Jake.

When Jake asks Abby to the school dance the weird happenings turn up a notch. Abby needs to be careful, could it really be some jealous class mate, who fancies Jake. Or is something more sinister at work, like a ghost as Abby suspects.

The ending was great, I really wasn't expecting it to play out the way it did. Truth or Dare has a great plot, fun characters and had the right amount of creepiness to have you hooked to the pages. I would of liked a little bit more info on the characters ages and the setting of the book though.

I cannot wait to read whats in store for future books from P J Night, like the chillfest continue. I dare you to pick up Truth or Dare today.

4/5 Stars

I thought this was really well done. It's reminiscent of Goosebumps and other Point horror novels from the 90's. I grew up on those books and still love them to this day. The main difference being the contemporary setting and technological advancements as well as being targeted toward young girls. The writing was solid and the plot was effective. I also enjoyed the ambiguous ending. I'll definitely check out some of these in the series. This was a very pleasant surprise.

I thought it was AMAZING!!!!!!! I couldn't put it down. I read it EVERYWHERE!!!!!! It's about a girl named Abby Miller, she is being haunted. She recognized she was being haunted at her sleepover. Her first suspect is one of her friends, then she begins thinking could it be a ghost? After Jake Chilson, Abby's crush asks her to the school dance. When they arrive at the school dance they recognized it was a memorial to Sara. Sara is Jake Chilson's old girlfriend but she died after being hit by a car. Then Abby and Jake went to

St. Raymond's Cemetery where Sara was buried. They saw a pale hand sticking out of the ground. Suddenly a girl named Samantha appeared behind them .She told them she was Sara's cousin. She also told them that she was haunting Abby. I'm looking forward to my next review.

Abby Miller is having a sleepover with her friends,at the sleepover they play truth or dare. Abby gets dared too tell her friends who she likes and she told them she liked Jake. Then later in the night she gets a text from an unknown number.The message reads "STAY AWAY FROM JAKE OR...ELSE".Abby can't explain what's going on because who else would hear Abby say she like Jake beside the girl's at the sleepover.She talk's to them and they all say the told "NO ONE" so who could it be?. Abby starts to wonder about the supernatural thing's that have been going on. Then she start's too think if it's Jake's EX girlfriend but...she's dead.

Abby Miller is my favorite character because she is the one who is shy around people and can only be her self if there's something she need's help with.And or if there's something wrong like when she gets those weird text messages.

I would recommend this book too people who like mystery

This is a fun start to a scary late elementary aged series. I never read the Goosebumps series when I was a kid, but I imagine this is similar, only geared more towards girls. There's a lot of talk about crushes and hotties, so I don't think it will appeal to my eight old son at all ... but my daughter might like it in a few years. I also liked the scary, but not too scary vibe. Perfect for its intended demographic.

Wow that was lame. I'm way too old for this book but I don't think I would enjoy it even if I was in middle school. Why the helllll is a little girl doing a seance to try and talk to a dead girl? Also Leah seems to really suck as a friend and a person, Abby should probably not be friends with her, Leah is clearly a toxic friend. And that was probably the scariest part of this book, which is super disappointing. Abby is way too forgiving of everyone that did her wrong, like come on girl, you can't let people walk all over you like that and then reward them for their bad behavior! What is this book even teaching children?! NEXT. I won't be continuing with the series.

I am not the target age for this book. It's aim at young girls between 9-12 but I have to say I really did enjoy it and looking forward to reading more of the Creepover books.

Truth or Dare is about Abby, a young girl who at a sleepover plays truth or dare with friends and she picks truth and ends up revealing to her friends who she has a crush on. However, in the middle of the night she receives a creepy text message telling her to stay away from her crush, Jake. Soon Abby feels like lots of creepy stuff is happening around her. Is Abby being tormented with someone playing a prank? or is she being haunted by a ghost?

I decided to pick this up to read last night because I have been feeling weird not reading, but I just haven't been well enough to read a big book. So Truth or Dare was calling to me. I curled up in bed in the dark, reading with a torch just to set the mood. And it worked. It was the perfect choice. I devoured this story within an hour. It really keeps you interested all the way through and keeps you guessing. My only negative is that I had no idea what age the characters were. I am guessing at between 12-14 but I am not really sure. And the setting is never clear. I wasn't sure where the book is set but guessing by some of the words, somewhere in the UK.

As I said I am not the target audience for these books. But I enjoyed it alot. For young girls (preteen) I think will adore this series. It's fun, quick and has just the right amount of creepiness to give you chills. I can see this being a book read at sleepovers to try and scare each other.

This book was so darn good. I have been reading more and more mid-grade (I share books with my nieces and I won't let them read it unless I have first, they're 10-13) and this one was just scary enough to make it fun.

From what I understand this series is similar to the Goosebumps novels of my childhood in that the characters will change with each novel. Which on one hand is good because there's basically 20+ books in this series and if that much creepy stuff happened to a group on young girls they'd probably be in therapy for the rest of their lives. On the other hand, is a little sad because I liked the main character here, and the two friends we didn't get to see much of and I would enjoy more from them.

The plot is good and just scary enough for the books target audience.

My main gripe with this is that I didn't see anywhere in the book where the ages of the characters was

mentioned. The way they talked I felt like they were in middle school. Which is fine for what was going on in the story, except for the dating aspect. I don't think kids that young should date and definitely not when they're discussing that they felt like a character had been in a "serious" relationship the year prior. I don't know, that part just didn't sit well with me but if I knew the characters age for sure I would be able to judge it better.

Overall, I enjoyed this book and I will definitely pass it on to the nieces to read.

If I was younger, I would have absolutely loved this book. Even though I'm not in the target age range for this books (probably 8-12 year old), this was a guilty pleasure for me! This was a simple story with a hint of creepiness that would be fantastic for children, young teens or any reluctant readers.

When I was younger, I really enjoyed reading books such as The Sleepover Club and Goosebumps, and if the Creepover series was available then, it would've been a sure hit with me! Truth or Dare certainly reminded me of both of those fantastic series of my childhood. It felt like I was reading a combination of those books, but modernised. It had just the right amount of scariness - it wasn't horrifying, but there were small scares throughout which is enough to make you feel uneasy. There was also a realistic and fun friendship between the girls at the sleepover. The book is simple and easy to follow with a few mysteries to leave you wondering throughout. I read this book in a single sitting as it was so absorbing and well paced. It was certainly a page turner! I was eager to see what would happen with the ghost that our protagonist was seeing and I definitely didn't expect the ending - I'm glad that it wasn't predictable.

I think that this book would be an ideal starting point for any reluctant readers, children or otherwise. There is enough substance without anything becoming too complex and the writing style is simple but effective. I thought that the activities left for the reader to do after the story had finished were fantastic. I don't usually comment on additional content, but I thought that the invitation to write your own story was a wonderful idea and gave me yet another reason to urge younger readers to pick up this book.

I didn't expect to enjoy this one as much as I did, simply because it's children's fiction, but it was actually a really enjoyable quick read. I enjoyed the paranormal aspect of it and it also reminded me a bit of Pretty Little Liars. This is definitely something I'd recommend to both reluctant and younger readers. If you're a parent or guardian, I'd certainly urge you to give this book to your child!

This was a great book. It was about this girl named Abby Miller. She had a sleepover at her house with her friends. In the part when they were playing truth or dare, Abby confess her crush was Jake Chilson. After that creepy thing started to happen to Abby like her phone was by her when she went to sleep but when she woke up in middle of the night she got creepy text message and the creepy part is when her phone was by the stairs. It gets a little bit creepy when you start to read the book.

I recommend this book to people who like creepy and scary things.

This was an awesome book! You should read it when you want a good little scare. I like how on the back of the book it has a "scare-o meter" and on the meter it has things like sleep like a baby, hide under the covers, sleep with the lights on, sleep with one eye open, and never sleep again. This one was rated sleep with the lights on. I just loved this book and I would recommend it to anyone who likes a good little scare. Again I say that this book is awesome and I would like to read the rest of the series.

I read this book when I was about 10 but totally would read it again! I wanted to read the full Creepover series but got to finish maybe around 5 books in total. To me, the best part about these books were the twists that you knew were coming but never had any idea of what it would be. I feel like my most favourite one was the first book of P.J. Night's Creepover series because I could really feel, what they were feeling. I was addicted to each page and really didn't want to put the book down.

****Disclosure**** I read this book, for free, from S&S Galley Grab. While I always appreciate a free book for review, my opinions are in no way influenced by the free-ness lol**

Truth or Dare by PJ Night.

I admit, first off, that I opted to read this selection from Galley Grab because I liked the cover once I looked it up here on Goodreads. It's cute, youthful, fun, and hints at spookiness, like an updated Fear Street or Goosebumps from back in the day. (Speaking of which, I really loved that one where the dad was a plant... Goosebumps... anyone remember that one??)

In Truth or Dare, a girl named Abby confesses at a sleepover game of Truth-or-Dare that she has a huge crush on a boy at school named Jake. While Jake seems like the perfect catch, Abby is hesitant to make a move because she knows he still hasn't fully recovered from the loss of his beautiful ex-girlfriend, who died in an accident.

Eventually, though, Jake seems to be sending signals of his own, and he ends up asking Abby to the school dance. Of course, she accepts. But, soon, weird things start to happen. Abby starts getting threatening text messages from an unknown number, advising her to stay away from Jake. She feels watched, and notices things being moved without explanation.

Although Abby doesn't believe in ghosts, she starts to wonder if the ghost of Jake's ex-girlfriend has returned to stop her new chance at young love....

Truth or Dare was actually a pretty cute book. I found myself interested in the storyline and I'm sure that I really would have connected with it even more if I'd read it when I was 10 or 12. But, even in my 20's, I wanted to get to the last page to see if we were dealing with a ghost or a vengeful classmate.

I thought the ending would be disappointing, but I felt pretty redeemed in the end.

This is listed as a "Middle Grade" novel, and while I don't have a lot of experience with this age bracket of reading, I wouldn't hesitate to recommend this title to young readers, and I'd definitely check out similar books in the future.
