Varcarolis' Foundations of Psychiatric-Mental Health Nursing, 8th Edition is the most comprehensive RN psychiatric nursing text on the market! User-friendly by design, it simplifies the often-intimidating subject of psychiatric-mental health nursing with a practical, clinical perspective. This edition was revised in conjunction with a readability expert to support clarity and ease of understanding. Chapters follow the nursing process framework and progress from theory to application, preparing your students for clinical practice with real-world examples. New to this edition are full-page illustrated explanations about the neurobiology of disorders and associated medications, criteria from the American Psychiatric Association's *Diagnostic and Statistical Manual of Mental Disorders, 5th edition* (DSM-5) for major disorders, completely revised *Evidence-Based Practice* boxes, and a fully rewritten chapter on *Dying, Death, and Grieving* to provide students with essential information about difficult topics.
