### **Camisha Maze says**

I can't believe I read this whole book in like 4 hours! Thank God I got the sequel! And I really can't believe this was written by a 16 yr old! Love me some hood drama

---

### **Adrienna says**

I was amazed this book was written by a fourteen year old...and published. This is what caught my attention. Yet, some scenes in the book seems unreal to me...but juicy though. We are getting caught up in the urban street lit for real, anything else from our AA writers.

Love it

### **3Tanéah says**

Making bad choices one after another, well that's how you can describe Anina. Since her mother neglects her she does wrong when it comes to men. Amina did her growing up in the streets of Cincinnati. Amina and her friends had more money and better wardrobes than most adults could even imagine. At an early age they learned what a sugar daddy was and how to get one. Often giving up a lot of their dignity to get it.

### **Rise says**

Amina made more damn dumb moves than a chess player. I liked the story, but I could not see myself making so many stupid decisions as Amina did.

---

**Deedee Henson says**

The main character had to be the dumbest chic ever. Good lil read tho
