Dinakar says

As many others mentioned, I read this book first when I was in my 10th standard in school. That was an awesome experience then. later I bought this book recently again and read it. This time all the three parts were included in this new printed version. I felt mesmerized reading this book all over again after 11 years. One may get bored in the later parts, but this is the best for the times this book is printed and for the following it has acquired through Radio and Weeklies. The pace of the book might be slow or the descriptions about the people are very different because those days people don't have these many shades as they have today. Then people are either good or bad, where as now we cannot decide whether one is good or bad. That is why the book has a lot of optimism all over it.

I loved reading it. But do not expect the dumbness of protagonist to continue from part 1 to other two parts. He is well matured and developed and will win your hearts.

There are a lot situations the lead character encounters new people, places and their customs. These situations will makes you smile.

We get to know the culture of Andhra people in the early half of 20th century.

A book that will beat all your limits of laughter. Thanks for my board for including it in my syllabus without which I would have never read it.

Amazing read.. The best of telugu novels out there, 10 pages a day brings out the mirth in you! :)

Manjunath nemani says

Heard a lot about this book and it was also a part of the curriculum for the students of higher secondary school. The book enjoys a reputation of being one of the standard book for humor in telugu literature. The book is divided into three parts and the first part and the first half of the second part stands perfect to its reputation. However the third division drags the pace and slowly the story drifts towards the independence movement though contemporary to the time the book was authored.

Even if one shelves the book without reading the third part one can be excused but the first and second part of the book is a real laughing delight.

Really this book is amazing.I have read this book of 1st part in my tenth standard and recently I had read other 2 parts. The 1st part was humorous and 2nd and 3rd were not that much humorous but not boring and we can read once. The second and third parts contains about his studies in ENGLAND and his practice as a lawyer and freedom movement in our country.

That feel of nostalgia! :) This is hands down one of the best telugu books I happen to read! A pure bliss! I read this so many years back in my 10th grade, but still I remember the impact it had! Time to revisit again I guess and it did bring a smile when I accidentally saw it here and couldn't hold myself rating it 5 stars!

Jonathan says

Book gives insights of our culture, different people, practices which we had earlier, some of the stories are good to hear those are real contemporary. Nicely written, given vivid pictures about Fabian society.

Chanakya says

Funny !! Depicts quite realistic point of view of the period in context in a humour associated way.

Sushmitha says

This is an autobiography of imaginary person named Mr . Barrister parvateesam . First part is all about his train journey from village to England . It is full of fun ,makes you laugh of his innocence & naive attitude.Telugu readers really enjoys reading this book.
