Tifinie Henry says

Victoria Danann is a fabulous author that takes us on a journey in her Order of the Black Swan. I have loved the storyline and the way she brings all of her characters to life. As I get to know all of the characters and their back grounds I can't wait to see what will happens inside these books. I have recommended this series to all of my friends and family and will continue to recommend them to anyone that loves to read. Who would not love to read about present day knights, vampires, witches, demons, berserkers, fairies, and werewolves, but underneath it all it is a true love story.

Dee Bowerman says

Read these books only if you love excitement, love, laugh out loud humor, adventure, and raw sexy. From the minute the heroine, Elora lands at the feet of Bad Company it starts you on an unforgettable journey. You get pulled into these people and it doesn't stop. In My Familiar Stranger you go on Elora's search for personnel growth as to whose she is and who her soulmate is and her incredible journey. You meet the Black Swan Order especially Bad Company as well as Baka the Vampire. By the time you read the last page you NEED book 2 The Witches Dream to start where book 1 leaves off... And it does, this is what sets this series apart from any other and in my opinion makes Victoria Danann the most unique and incredible writer. These books all flow as 1 story even though each book is 1 member's story the original characters are central in all books. The witches Dream is Storm and Litha's story. Kay's fiancé is kidnapped by a sex demon (yumm) and Storm and Litha have to save her. It turns out the demon, Deliverance is Litha's father. The pages wind up turning too fast and before you know it the book is done. Now on to book 3. The summoner's tale is an awesome book where it is Baka the Vampire's story. Baka's life is a very sad tale he is so heart sick and fed up with life. His mission is to turn vampires back and rid humanity of the threat. He is also an author of vampire romance books. When he was turned as a vamp he killed his wife in bloodlust and didn't even realize it at first. He writes a romance book about the experience. He winds up turning back to vamp while trying to vaccinate other vamps and needs to be saved by his Heaven. Meanwhile Elora is having her own situation. She has made friends with a pack of wolves and when she goes for a walk one day with her dog she gets attacked from rebels from her own dimension and goes into labor. Get these books as book 4 is already out AND book 5 will be out in September.

This is one of my favorite series. I loved the entire series and can't wait to read each book in the series that comes out. The first book My Familiar Stranger is what started it all for me. Once I read that book I had to have all the others. If you get this set you will not be disappointed, I love all the characters and the world that Victoria has built with this series. I can't wait to see what happens next :)

Michelle Stein says

Such a wonderful read!!

Victoria definitely knows how to keep a reader hooked until the very end, & then has you on the edge, waiting for the next book to be released. These books make you feel like you know each Character personally and has you waiting to see what will happen with their lives . I can't count how many times I've gotten emotional with each book.

I definitely recommend this book to anyone who hasn't read it, yet. You won't be sorry!

Patricia Smith says

I love this series! It has romance and action, alpha males you will fall in love with, and alpha ladies you will want to be like! The series is best when read in order to get the full impact of the story, and this collection has the first three books! I highly recommend this set! I just adore all the characters, and I know you will too!

Ticia Morton hall says

Captivating! Victoria Danann has a way of writing that totally immerses you into the story. Craftily done, expertly trapped, and delightfully captured! You find yourself with emotions while you are transfixed page to page to see what happens next with each and every character! Can you pick a favorite? It is hard! Each of them have great strengths, some flaws, and when they come together...WOW! A definite MUST READ!!! :)

Maggie Nolan says

Victoria Danann's trilogy made me a PNR book fan. Don't get me wrong, I did see a few PNR movies (and you know the ones I mean) but taking the time to read PNR was new to me. So Victoria, thanks! I love the Order of the Black Swan series. Victoria's first book, "My Familiar Stranger", drew me in right at the start with an action packed opening and it hasn't slowed down yet, at the end of book 3 (actually four books are out now with more to come). There are wonderful strong personalities with action, friendships, and love interests in this series, and surprises in every book. There are Elves, vampires, a berserker, a demon, a witch and the Fey in these books so far, (with very interesting relationships) and who knows what's coming next! If you are a guy, you will love the men of the series as they are all "men's men". If you are a gal, the women are strong, loving, and able to hold their own. Add to that the paranormal component which takes it to a whole new level. These books are absolutely addicting. You will love this series... my only recommendation is to read them! Right now!

(Note: the books are designed to be read in order).

Anna-marie says

What a wonderful set of books.

These are the stories of a secret society called The Order of the Black Swan, that protect humans from Vampires, Werewolves and other dangerous mythical creatures.

The stories center around one particular group, affectionately known as Bad Company, consisting of Storm, Kay & Ram. All handsome & strong men. Eventually they get a fourth member, a beautiful woman named Elora, who joins them in the most surprising way. Together they form a strong bond, and you follow them through their joys of falling in love, getting married & having babies, combined with their fight against evil enemies.

These stories are Paranormal Romance at its very best. They deliver it all! Vampires, Werewolves, Witches, Elves, Psychics And Demons. Along with some Red Hot Sex scenes.

Victoria Danann writes this so well, You cannot help but fall in love with at least ONE of the characters. you are totally drawn into the story & feel every emotion possible, and you truly feel the love they have for each other & the other people that join in with them.

I could not put them down. An absolutely brilliant series of books, with another 3 to follow this set.

i would have given them 10 stars if I could. And I dare anybody to not love them.

I started reading this series with My Familiar Stranger as a freebie and quickly became hooked on the book and the author's style. Each book is different in outlook and featured characters but you still get to see the growth, trials and contributions of each of the main characters thru each book. The characters and world of the books are well developed and lush with detail and characterization. Some of this is done thru scene setting sections and other parts are done thru a few well-chosen descriptive words. I highly recommend this set of books and all future ones for those who love paranormal romance.

Pam says

Love Victoria Danann's Books! Was so excited to see this. This book is so well written that I could picture the whole thing in my mind like I was watching a movie. Must mention it has Vampire, Elves, Demon's, Witches, Berserkers, & Wolves!!! This is a must read. It has Romance, Fantasy, & Paranormal!!! Get your copy & get lost in this tale Just like I did!!! Once you start reading Victoria's books you will be a forever fan. When I read these books I was transported to another realm. I do not need Calgon anymore!! You also will get lost in the tale of The Order of the Black Swan. Meet Elora & Ram, Storm & Litha, Kay & Katrina .Baka & Heaven. All the men & women are true warriors in their own way. These are books you just want to keep re-reading they are that good!! I could go on for hours, but I want you to find out for yourself. Happy Reading!!!! When you get done with these you will want to read the next in the series. Moonlight. Victoria really know how to tell a story. It is not your same old same old. It is something different!!!!

Anna Salamatin says

If you want paranormal, this series has it all! it comes in the form of a secret group, each a separate paranormal being with his or her own set of skills that protects mankind from danger. This elite group of warrior's is known as "The Order of The Black Swan," " or, Bad Company" to those of us who know them. They live, love, fight and some time die for us. You need to meet them for yourself and be prepared to fall in love.

Bleumoon says

I am so happy I got my Kindle last year because if I hadn't I might not have discovered some of the wonderful authors that have become my favorites! Victoria Danann is one of those favorites and this series, The Order of the Black Swan, is the reason. Book 1, page 1 the first sentence grabbed me and did not let go. I love the characters in these books. How they evolve as we get to know more and more about them. The stories are well written and really grip the reader. I have laughed and cried while reading these books and have enjoyed every step I have taken with Victoria as she has led me through her world and can not wait to visit again and again. The books just keep getting better and better! I highly recommend this series and strongly suggest you read the books in order.

Laurel Johnson says

I LOVED these books. I fell in love with the series from the first chapter. The stories seamlessly feed into the next book. I love the writing style. Victoria has a style that causes you to fall in love with the characters and become a part of their stories. I have told so many people about these books and have my daughters reading them. Anxiously waiting for book #5!

Rose says

When it comes to Paranormal these books have everything! Vampire, Vampire hunters, Elves, Fae, Werewolves, Demons, Angels, Berserkers, Witches, parallel universes, modern day Knights, star-crossed lovers, centuries old feuds... Also, through all of these books (which must be read in order) not only do we meet new characters but we get to follow the lives of those we have come to love in each book!

Shurrn says

The Black Swan Series is *Interdimensional travel, Secret Government Agencies, Paranormal Studies, Black-Ops Style Vampire Hunters, and a Blend of Action and Romance.*

Victoria Danann has created a complex character system with ease, centered around one fierce female lead.

Each character was well crafted, and the Author managed to flip POVs seamlessly - sometimes with only a change in paragraph...

This Anthology includes three books:

My Familiar Stranger

Book One of the Black Swan Saga focuses on Elora, and how she found her way through an inter-dimensional portal to an oddly familiar land filled with interesting characters... If you're hesitant to pick up the first this anthology, know that **this book is available for free as an eBook from most book retailers...** Rarely can a novel hook me so early. I've recommended the book to countless friends already. I eagerly await the continuance of this series; it has me helplessly invested in all the characters and the strange and exciting organization that is The Order of the Black Swan.

"She quickly realized that the tunnel Monq had pushed her though might as well have been Alice's rabbit hole. She was in a world similar to the one she had left, but with differences that were inconsistent, surprisingly so... She was a stranger in a strange-ish land."

The Witch's Dream

I adored meeting the new characters including Litha. The Demon Deliverance is a never-ending source of amusement for me; I'd love to see he and Baka spend some time together, I can only imagine what a conversation between the two would be like!

I love that Storm got a chance to fight for something after the bittersweet ending of My Familiar Stranger; and it was neat seeing how young Storm was recruited into Black Swan.

"No one ever knows where their personal breaking point is until they reach it. Most are never pressed to such a limit that they find out. Storm wasn't that lucky."

One more thing: the "Under the Window" scene - I. Laughed. Out. Loud

A Summoner's Tale: The Vampire's Confessor

Another wonderful, gripping installment! The third book in the Order of the Black Swan series was packed with the elaborate back story of the Vampire Baka, and broken up by the nail-biting suspense of Elora's "retirement."

He had wanted to gather her up like a bouquet of freshly picked flowers, press his face into the light of her aura and smell her fragrance, then hold onto her like a tether to the living. All that vivacity and spiritual power housed in such a bright and voluptuous body. At that moment it wouldn't have surprised him to learn that she routinely made the lame walk and the blind see. If she could cause Baka's monotony-numbed mind and ice packed blood to stir, those other miracles must be child's play for her.
