# Bulletproof SEAL

*Carol Ericson*

**Bulletproof SEAL** Carol Ericson

*He had to take the shot...*

*And kill his lover.*

Branded a traitor, Rikki Taylor is in the sights of sniper Quinn McBride's rifle. Yet the navy SEAL knows this woman intimately, and there's no way she'd betray her country...or him. Saving her is his number one priority. Discovering her real secrets, including the baby she's keeping from him, can wait—first, they have to make it out alive.

### **Jessica Figueroa says**

Quinn is a sniper and he found out that his lover is a traitor and he's the one who has to take her town. Things seem to go south though when she's shot by the people they thought she was being a traitor. Rikki was believed to be dead so imagine his surprise when she shows up trying to clear her name but it looks like there is something deeper going on that needs to get settled.

Overall I thought that this was a pretty good mystery romance book. I thought the characters were pretty good, wished I could've gotten to know more about them, but for the short amount of pages there's only so much you can learn about the character. I loved that there was plenty going on to keep the readers hooked, I managed to finish this book in about a day because I was curious to see more of what was in store for the two, when would Rikki break the news to Quinn, what would really help her out to clearing her name. There is plenty to enjoy about this book so if you are looking for a good short mystery book with romance then you're going to want to check this book out.

### **Lynn Brooks says**

A riveting read! We're familiar with several of the players in this book from previous stories in the series, and this one brings us the story of CIA agent Rikki Taylor and Navy SEAL Quinn McBride. It's an action packed story that takes us for a ride filled with danger and intrigue. I'm assuming from the outcome that this is the last in the series ... and under this assumption, the ending seemed very rushed and left a lot of vague answers open. The characters were well developed, the plot was well-played, but the ending was a bit flat. Overall an entertaining read!

When Navy SEAL Quinn McBride was given the order to take out a traitor in the CIA, he has no idea until he's in the middle of the mission that it's his former lover, Rikki Taylor who is going to be on the other end of his sniper rifle. He knows her well ... there's no way she's guilty of betraying her country!

Assumed dead former CIA agent Rikki Taylor wants her life back. She was betrayed and set up to take a fall by someone, and her former lover might have been in on it for all she knows since he was the one sent to kill her. She has to find the answers she needs once and for all in order to be able to have a life again in the US ... but finding Quinn to get some answers has to be her first step ... and if he turns out to be as innocent as she is, she'll tell him about the daughter they share!

### **Ash says**

2.75 stars

So the book was good but I could not understand why Vlad wanted to kill everyone nor I could understand why Arial wanted to kill him. This book seems to be the last book so I doubt there is going to be any justification.

So imagine this, I'm a high school senior at Walmart playing one of my old favorite games. "Read the Backs of Trashy Romance Novels in Funny Voices." I pick Bulletproof SEAL, because there's a hot dude on the front, and I read the back. And then I get drawn in... and it actually sounds interesting...

So I buy the book and start to read, expecting cheesy romance, little to no plot substance, and dirty things. I was proven so, so wrong. For the longest time, I thought romance novels in that section of Walmart were just trashy cheesy things for middle aged women looking for excitement. But Bulletproof SEAL completely drew me in, and I am someone who will start reading and drop off because I get way too bored too easily, I'm a teenager, what can you expect?

Bulletproof SEAL is anything but trashy, with an amazing and well done plot that keeps you turning the page. Yeah of course, there's romance, wonderfully done romance. Romance done better than nearly any "Young Adult" novel aimed towards my age group. Rikki Taylor and Quinn McBride never once annoyed me with their cute banter and steamy encounters. I cannot stress enough how well Carol Ericson does romance, and I am very excited to read her other books, starting with the others in the "Red, White, and Built" series.

I guess if I HAD to make one complaint, the ending is a little... slow? flat? It happens all very fast. I was expecting much more of an issue to arise. However, despite this, it's very satisfying. The epilogue makes you feel really warm and fuzzy inside, and while it breaks my heart knowing that I have to move on and read other books, leaving behind Rikki and Quinn, the epilogue made it easy to move on. I'm not begging to know questions left unanswered, and I'm not mad or feeling empty. However, I do hope in the future, there will be a book that focuses on Ariel. I thought she was an amazing character, but I want to know her connection with Vlad and such. Maybe there's already one focusing on Ariel, and I just don't know it yet. But if there's not... I'm waiting, Carol! ;)

If you're looking for "trashy romance" like I was, you stumbled upon the wrong book. But if you're looking for something that's action packed, will keep you on the edge of your seat, while satisfying any romantic desires, then what are you waiting for? Read it!

### **WONDERFUL STORY**

I really enjoyed this book, I read all of Carol Erickson books as the stories are real and very enjoyable....

**Fran says**

A nice suspenseful story though a bit confusing at times. While the story will keep you invested, the characters were not that well developed and the ending was rushed and left me with a lot of open questions.
