**Caging the Beast** Marie Harte  
Book four in the Creations Series

The beast: a slave to his past and his present, but not to his future...or the sexy new master he's decided to keep.

Tarn has spent decades fighting for his kind. Known as the Destroyer of the Otherworld Army, he's been using his time in the Vrail System to police rogue Ebrellions. To help his nephew, he takes on a dangerous job and lands in the Outer Rim, where the law doesn't exist.

Once a leader of warriors, he's now playing the part of a slave--with a mission. To retrieve a rare crystal and prevent an interplanetary war. He can't let anyone, not even the beast, distract him from doing his job.

Zachem'zen is known in the slave pens as "the beast." A brawler of planetary renown, he's never been beaten. But then, his kind were designed to be stronger than the strongest in the System. A Creation on the run from peacemakers, he trusted the wrong people and wound up a slave on Colony6. He's never been happy, but he's been content to bide his escape. Until a new slave rocks his world.

Tarn's dominant desire makes him hungry for more. The passion between them burns hot, but Zachem has no intention of being anyone's slave for much longer. The commanding Tarn, however, has other ideas.

### **Pati says**

To be fair I'm not going to give this a star rating. I barely read any of it before being hit with girl on girl sex scene which I intensely dislike. Therefore this is a DNF for me.

### **Jane (PS) says**

Good world building. It's been a few years since I'd read the previous book in this series, but there is plenty of explanation and setting incorporated into the story that I didn't feel like I was floundering to understand the story's progression. I enjoy Marie Harte's writing style - an easy and enjoyable read.

### **Kym says**

That was pretty fun to read.

### **Lexi Ander says**

This is the only book that I have read in this series because I "thought" I wouldn't be interested in the others. I am rethinking that. You have lab created species who either make love or make war, awesome, blood and sex. Six legged, scaly beasties that can teleport and are the best ultimate fighters. Add plot and viola, my kind of sci-fi book...with smut of course.

### **Da'ad says**

Interesting world and story, good characters and good pace. It made phantom leaps between situations that I found amateurish and stupid, but the hot sex and the great chemistry between everyone made up for that. Yum and yum!

I wish I was one that made comments / took notes on my thoughts as I was reading a book. I did not realize I hadn't reviewed this already and now it has been weeks. Unfortunately, I do not retain stuff well. I will do my best to remember what I can.

For good cheesy SEXY fun I had loved Creations Control, but I felt somewhat let down by this one. It didn't flow well in parts. The ending and mating issues seemed too similar to previous books in the series. I liked

the idea of the plot, but at times I felt like I didn't have enough background / information. Though still sexy, it wasn't hot enough to overcome the plot holes.

It wasn't a bad read. Just nothing made it stand out. If you love sci-fi and want to whittle away time with some mindless reading then this would fit the bill.

### **Bex says**

Really want to read this book. I feel like there are some characters in the universe I would kill off, like that game marry, screw, kill ahem. Stay tuned for that. A lot of the elements of her books are carbons of previous... that actually makes me happy. Thats a read of it.

### **Sarah says**

Entertaining, loads of sexy times and much space opera.

---

### **Seregil says**

Because I'm mean I'll only give it 3 stars, but I warmly recommend it to those who like very strong subs and alien shapeshifting doms. The ending was a happy revenge filled bloodbath and that is another plus. How many sweet, love filled MM stories end with that sort of "honeymoon"? \*crazy grin

My browser crashed and I lost the review I was typing. Too lazy to redo it but I was saying I liked this 2nd installment, that I'm giving it 5 stars even though no one does M/M sci-fi romance like Morgan Hawke in her Interstellar Service & Discipline series. I've given up on ever seeing another equal to Hawke so yeah, 5 stars it is to Caging the Beast, compared to what I'm getting out there these days.

Zachem's a Creation, a kind of hybrid species created in a lab. He finds himself betrayed and ends up in The Pit where he's the star gladiator, the crowd favorite. Tarn is an Ebrellion, a race that has special powers such as teleporting, telepathy and shapeshifting.

The development of their relationship from suspicion to trust, ending with love, a lot of hot sex in between made this a very enjoyable intergalactic ride.

Excellent read, futuristic setting.

If you're looking for this in a print edition - it was released as Creations: Vol 1 - containing The Perfect Creation and Creating Chemistry.

The second volume, Creations: Vol 2 contains Creation's Control and Caging the Beast.

In my opinion, these are incorrectly ordered. I'm sure they were packaged that way because Creation's Control and Caging the Beast are both male/male love stories.

These stories are very tightly linked. Correct reading order should be:

The Perfect Creation

Creation's Control m/m

Creating Chemistry menage

Caging the Beast m/m

### **Omega696 says**

I would have liked it more if not for all the master-slave play. Aside from that it was a decent story, but I don't think I will be looking for more books in the series.

I loved this story! It was so good! I'm sorry it's the last of the Creations stories. They were a really fun people to read about. This one is about a Creation, the Beast, and an alien Ebrellion, and their escape from slavery and falling in love. I would love to read more about the Ebrellions, they sound fascinating. 4.5 stars.

### **? BookAddict ✕ La Crimson Femme says**

What are the Ebrellions? Ms. Harte needs to write another set of books in this Creations world. There is still so much to explore! The Ebrellions turn into six legged...Trells? These are like insects but not? What the hell are they?

In this last installment of the Creations series, Tarn is an undercover agent to retrieve a cube his nephew is tasked to find. Tarn is in a MMA cage underground slave fighting nightmare. Bored with his babysitting job at the bar he owns, Tarn is up for the challenge. This is where he finds Zachem'zen. This is a shock as Zachem'zen is also a Creation. Since Creations are killed when found as they are psychotic killers, it's amazing Zachem'zen is alive and controlled.

More questions crop up in this story than answers. It's frustrating to learn more about this world only to find out this is the last bloody book in the series. Someone needs to tell Ms. Harte to get her little ass moving and write another set to this world. At least another set! Still, the m/m in this story is HOT HOT HOT! Yes, it's written for women who want to read m/m sex. Regardless, this book goes into my spank bank. Zachem'zen is

a sweet enslaved beast. Tarn is a hot lethal warrior. What is not to like? The undercurrents of BDSM with heavy emphasis on D/s is amazing. LOVE IT! This book is recommended to kinky readers who enjoy m/m sci-fi themes.
