## From Reader Review Fortune Hunter for online ebook

### Buttons says

Another hilarious book by Jana Deleon and another interesting case for our beloved Swamp Team 3. A great read! I would love to tell you about all the hilarious moments that made me **laugh out loud** and make me grin thinking about them even days later, but I really want you to enjoy them yourself without being spoiled!

I am devastated that the series is still ongoing, I thought this series would provide some quick and light reading and I didn't know that the eighth book isn't the last one. I really want to know how Fortune's story will continue! Now I have to wait a few years at least for the series to end, however I will greatly enjoy reading it again ;)

I looooove these books. I devour them. They are funny and well written and they make me happy to read. In the 8th installment of Jana Deleon's Miss Fortune mysteries Fortune is nursing a broken heart from her break up with Carter, and very confused about the emotions she is feeling. Ida Belle and Gertie learn that several of the local residents are being catfished and drag Fortune out to talk to one of his victims. This catfish isn't just talking to locals, he is taking their money as well. Ida Belle and Gertie are convinced that it is a resident of Sinful who is doing the catfishing. At the same time a beloved local woman is murdered in her own home while her disabled husband is downstairs unable to help. Of course the ladies cannot keep their noses out of the investigation and hijinx ensue.

### JoAn says

Fortune Hunter by Jana Deleon was another fun ride with Fortune, Ida Belle and Gertie as they try to track down a catfisher who is targeting lonely women in Sinful. This one didn't have quite as much humor as the previous books; but Fortune is doing a lot of thinking about her future in this one, so I didn't expect it in this one. I actually enjoyed Fortune's introspection because it felt like I got to know her better in this one than I had in the previous books. I'm waiting impatiently for the next one to be released to me from my local library.

### FangirlNation says

Someone has been catfishing the older single women of Sinful, Louisiana, luring them into supposed relationships with fictitious men in order ultimately to get money out of them, so Ida Bell and Gertie use the need to investigate this crime to lure Fortune out of her stupor in Fortune Hunter, the just-released-on-audio eighth book in Jana Deleon's *Miss Fortune Mystery* series.

### **Cat fishing can be deadly**

Fortune and the girls are at it again with, laughs and mishaps a long the way. First the town is has had it's first time with stolen identity then a murder of one of the towns nicest resident. All with Carter knowing the real Fortune and not knowing how that relationship is going or ever get back together. The Fortune and the girls set out to solve the mysteries. Great store and I will wait for the next adventure.

## **Bette says**

Nothing is better than to see Fortune, Ida Belle and Gertie in action.

I would call this an introspective recap of Fortune, her motives, her relationships. Can be read as a standalone.

### **3.5 stars**

Didn't see the killer coming, but I was also running on 24 hours with no sleep when I read this one so I'm not 100% I was following closely.

The eighth book in the popular *Miss Fortune Mystery* series by Jana Deleon. Fortune is nursing a broken heart and learns she is not the only one. Someone is taking advantage of the lonely single women of Sinful, Louisiana and scamming them out of their money. So naturally, our ladies on once again on the case.

Good addition to the series. I wonder how long this series is going to be. I hope the author can continue putting forth the same humor and zaniness that this and the past books have had. Looking forward to the next!

## **Sonia Cristina says**

Não consegui entrar lá muito bem neste livro, desde o início que tive dificuldade em seguir os acontecimentos.

Desta vez e pela primeira vez, achei que o assassino era bastante óbvio.

O melhor foi mesmo ver Fortune a tomar uma decisão sobre a sua vida e Carter dar-lhe outra hipótese.

Another great installment from Jana! Looking forward to more....

### **JadeShea says**

Fortune is having a hard time dealing with her issues with Carter. And when someone in Fortune is catfishing women, things get crazy for her and her friends. Now, she will do whatever she can to find out what happened, and who is doing all of this.

I was frustrated with the way Carter treated Fortune in this one, but I enjoyed the rest of the book. It was another good one in a string of good books in this series.

I thought the story line was very entertaining and interesting, and I look forward to more.

### **Anita says**

I was so sad at the end of the last book. Carter found out that Fortune was a CIA agent hiding in Sinful, LA from a real nasty baddie, Ahmed. He was not amused, to say the least. He was really looking for Sandy-Sue Morrow, librarian and former beauty queen, not Fortune Redding, CIA assassin. So, he broke things off and broke her heart too. This left Fortune doing a lot of soul searching about what she really wanted for *her* life.

When Fortune, Gertie and Ida Belle find out that several of the older, single women in Sinful had fallen prey to a "catfisher", they just know that they need to "help" with the case. Mr. Slime trolls facebook to find his victims, but something about the women he selects just seems . . . kinda personal.

When a victim is murdered, Swamp Team 3 figure that the victim figured out who he really was. Even with Deputy Carter LeBlanc warning them to stay away from his case, the girls just can't leave it alone.

#### **Catfishers beware!**

Fortune, Ida Belle, and Gertie are on the case, so Catfishers (and not the kind using a fishing line) beware! When those three are involved, one never knows what will happen. Although there are plenty of hijinks, this

book takes a more serious tone as Fortune confronts her future. Will she remain with the CIA or plant roots in Sinful? There is much to ponder as the usual murder and mayhem ensue. A nice change of pace, and I love seeing the characters grow.

### **Fantastic Fortune!**

Fortune & the Girls, Gertie & Ida Belle, are back! Fortune is trying to get her head on straight after her break up with Carter when The Girls get her involved with a catfish scam happening in Sinful. The action kicks up quite quickly between the scam & a murder while the threesome investigate. These oddball characters keep getting themselves into dangerous, but uproariously funny situations. There are lots of twists & turns, & a few red herrings that make the story very interesting, plus a great conclusion! While I enjoy the other Kindle World Novellas written by other authors about Fortune & the Girls, no one writes a Miss Fortune novel quite like Jana DeLeon! The only thing missing from this book - not enough Cecelia! I truly get a huge kick out of those interactions with the Queen Bitch. Phenomenal book book, not to be missed!
