*Living Trusts for Everyone* is the best resource for setting up a living trust. Explaining in specific terms what benefits a trust will have, Ronald Farrington Sharp gives the tools necessary to set up a loved one's trust with no lawyers and no expense.

Wills benefit lawyers. Trusts benefit the clients. Too often lawyers sell wills to clients only to sit back and wait to sell their probate services to their clients' heirs. Ronald Farrington Sharp describes the best way to handle modern estate planning and details the many advantages trusts have over wills in not only eliminating probate but in also protecting your assets for your heirs. Sharp explains why legal services are not needed to do the clerical work in settling a trust after death. This updated edition includes new information on an array of subjects, including:

Elimination of the federal estate tax for most estates due to increased exemption amounts

Online assets

The use of passwords, usernames, and websites

Keeping trustees honest and the process of removing trustees for malfeasance

Forms for simplifying the planning process

Strategies to lower attorneys' fees

With no legal jargon, just step-by-step instructions and sample form letters, *Living Trusts for Everyone* takes the mystery out of the process of setting up a trust.

### **Linda says**

Written in clear, concise, readable English! Not a "do it yourself" book, but a explanation of why and how, including how to minimize your legal costs.

#### **You need to read this book.**

It doesn't matter how much you have in assets, they should be left the way you want them. This book describes the steps you need to take to prepare your trust, even if the legal paperwork is going to be drawn up by a lawyer.

### **Roland Martinez says**

I'm a big fan of end of life planning and this book covers it very well. Everyone should read it.
