Seven Nights of Sin

Lacey Alexander

Seven Nights of Sin Lacey Alexander

From the author of *Voyeur* comes a sizzling novel about seven steamy nights in Sin City, each one hotter than the last...

Brenna Cayton doesn't need a man. At least that's what she keeps telling herself. Then her boss sends her on a business trip to Vegas to make sure Damon Andros—the sexiest man in the entire music industry—doesn't live up to his bad boy image. But before she knows it, business turns to extreme pleasure as Damon brings out her naughty side, fulfilling every one of her wildest fantasies. Now, she has just seven sultry nights to commit every sin in the book. Because once Damon discovers her dirty little secret, he'll surely never indulge their lust again...

Heather says

HOT HOT HOT! What more can I say... jeez! I couldnt put this book down and just had to keep reading it until the end!

Las Vegas, Hot girl, hot guy, great sex... what more can I ask for?? ;-)

Please read this one. You'll definitely need a drink after this!

Blackbook says

What a great, inventive imagination you have Lacey Alexander!

This is a short rant a few days later. I realize that I have something else to say about this book. Here I go again, throwing shit into the game, as my father would say. At the beginning of chapter 5 there is one sentence that irritated me above all others in this book. But, before I go there I want to say that I think Ms. Alexander wrote f/f, f/f/m so very well. (Is that how you say that?) I also have to say I have not read much of that aside from Lisa's Gift, which stands out in my memory. (Oo. Wee.) The sentence is as follows: "Because even if she had learned to enjoy fooling around with women, she still needed a man to reach real, true fulfillment- this man." If I thought it was the "this man" part of the sentence that would be fine. But I ended up thinking that her discovery and joy of being with a woman was negated. Why bother putting it in the story at all? In the next paragraph there is more "worshipping". I guess I am OK with that in the context of that paragraph. But dear reader I have to tell you after a military/cop father, military and /or cop brothers, my own children and many years of marriage- a penis worshipper I will never be. I am an appreciator, a reveler perhaps, a celebrant certainly.

I can see this is a longer piece begging to be written. Is there a way to have your writing just go to your goodread friends?

Akanksha♥ Søren? says

Could a book get hotter?

The MFF and MFM action is seriously hot, even FF was like fire in the book

Hell, I even find MM hot in other books :O

Books are corrupting me BAD!! Ménage and kink is seriously sexy as hell :P

The book was like seriously hot and amazing, the whole story and everything! :D Really enjoyed the book Brenna and Damon were like crazy sex minks and it was hot!

I truly enjoyed the book overall :D

Love Kelly and her humor :P I want such a crazy ass friend.. haha

"Oh my God! Trust me, honey, you do need penises. We all need penises. Penises are one of God's gifts to women. Sure, He gave us labor pains. And periods. And kept us oppressed for centuries. But He did give us the penis, and that makes up for a lot."

Miss Kim says

Similar story to Bikini Diaries (minus the cucumber). A woman is thrown in an exotic location for a week with an Adonis, and is shown a world of sexual pleasures. This is a light, quick, read. I recommend for fans of light erotica.

Contains, m/f/m, f/f/m, voyuerism, sex clubs, public sex, observing anal sex...That's about it.

Shawna says

4 ½ stars - Contemporary Romance/Erotica

Holy cow, this is a hot one! Seven Nights of Sin has it all: a deliciously sexy male lead character who's not really as much of a "bad-boy" as people perceive, a sweet, fun, spirited female protagonist who's not nearly as innocent and naive as she seems, scorching hot sex scenes, and witty dialogue. Lacey Alexander's writing is top notch and seriously steamy. The premise involves Damon and Brenna engaging in seven nights of various erotic escapades in Sin City (including risque clubs, f/f/m sex, m/f/m sex, and public sex) with them both acting under the guise of "what happens in Vegas, stays in Vegas"; but can they make it through the week without risking their hearts? It's a delightful, sexy, erotic romance. This is going in my yowza-hotness shelf for sure!

Kathleen says

This book was hotter than the fires of Mount Doom, that alone deserves a 5 star rating in my eye's. I loved both the H&h the chemistry between them leapt off the pages or shall I say screen of my reader. I enjoyed the story very much and it ended with a HEA that left me very happy. I must add a warning, one W/W/M scene and one M/M/W scene. I thought they were both done extremely tasteful.

I'm looking forwards to Lacey's next book coming out 6/7/11.

Shelly says

I couldn't decide if I wanted to give this book 2 or 3 stars, so I figure since I have to think about it, it get's 2. Initially I was pretty excited to read this, and now it has left me feeling a little let down, more than a little actually. If I were to base this book strictly off the sexy scenes and not on the plot, then this book would get a 4+, maybe even a 5. The sex was HOT! But, this book has a plot, sorta. It just felt like the author wanted to write some really steamy sex (which she did) and then instead of a couple of great short stories she wanted a book to sell and threw a generic plot around them. It was silly at some points, especially the end. He's so furious at her, and he has every right to be, yet their reconciliation is wrapped up in two or three sentences:

"I called Kelly and we met for coffee, talked for awhile - about you. She convinced me that the you I'd fallen for was the real you and that the you who lied wasn't."

Seriously? She knows she's learning this job, the job he's training her for, spending a whole with him, is his job. Damon is training Brenna for his job and he doesn't even know he's going to be fired at the end of the week and she gets his job. When he finds out, rather stupidly as well because Brenna decides to discuss this whole thing with her boss, in the next room from Damon, door open, he gets furious and throws her out. And she didn't even like doing the job!! She knew she was not capable of doing the job from the beginning, yet she promised not to tell Damon he was training her for his job, and when she began to fall in love with him, she didn't tell him then either. Several times she admits to herself this may not be the job for her. Several times she mentions feeling guilty and how a good girl from Ohio never expected anything like this. Well dumbass, if the job is not what you thought, you KNOW you can't handle it, and if you proceed the man you supposedly love will be fired, then perhaps you should fix things by not taking the job and letting your man keep his! If he gets fired anyway, it's not your fault and you have nothing to be guilty for!

Yep, this book definitely deserves only 2 stars. The rest of the book, aside from the sex is pretty much the same. If the author had taken just half as much care with the rest of the book as she did with the sex scenes, then this would have been a 3 or even 4 star book. My advice: Don't buy it, borrow it, and only for the sex, skip everything else.

Karla says

YOWZA!! My eyes are burning, my brain is about to explode from image overload, and Kal, my Kindle, is overheating. I'm perspiring...no sweating is more like it...profusely, and I had to fill my Sea World misting fan TWICE!! I need to submerge myself in ice water. Even with all the sexual overload there was a good story here about trust and betrayal. Damon is to die for and let's just say that Brenna...well she overcame her shyness...BIGTIME! Now I'm going to read a cookbook or something and try to calm down.

Anita says

This book is erotica, so if that's not your thing, stop reading.

This was the second book I've read and loved by Lacey Alexander. It's highly romantic erotica, with a happily-ever-after ending, but still kinky and hot. The premise is a divorced secretary at an indie music label gets the job of a lifetime as an artist's rep for that label - but first she has to spend a week in Vegas learning from the guy she might be replacing (though he doesn't know he's on the way out.) They fall in love over the course of a very uninhibited week. Includes mfm and ffm menage, exhibitionism, voyerism, and spanking.

Shannon (Giraffe Days) says

Brenna works for a small independent music label as the assistant to the manager, Jenkins, who's just offered her the chance of her lifetime: to be the new A&R Rep because it looks likely that the current one, ultra-sexy bad boy Damon, is about to be sued by a singer for blackmailing her for sex - if that happens, he's out and Brenna's in. But it's their secret.

Jenkins sends Brenna to Las Vegas to spend a week with Damon, getting a handle on the job and learn what she can from him. The attraction between them is immediate, now that "good girl" Brenna has had a bit of a make-over and pep talk by her best friend Kelly. Soon work mingles with play and each night gets hotter and hotter as they indulge their passions, Damon drawing out Brenna's bad girl wild side.

The ending is inevitable, of course. Aside from the inventive premise and the insight into the music industry (which actually taught me a thing or two that I was even able to use in conversation one day - but couldn't say where I'd read it from!), it's a by-the-numbers romantic erotica book. The day (night) when Damon finds out Brenna's been lying to him looms constantly, shadowing every night of pleasure and leaving a bad taste in my mouth. So it has a happy ending, I still didn't like the set-up. The "nights of sin" were quite steamy and engrossing, especially the private clubs they went to, and the naughty things they did at the top of the faux Eiffel Tower. So I'm torn over liking it and really liking it, but I think the deceit aspect of the premise spoiled it enough to lower my rating.

JoJo - JJJ (Jo Anna) Janesko says

OMG this book was HOT HOT HOT HOT!!!! I am not sure I have read an erotica this steamy in quite some time. The good thing about this book is that there was also a story written in between all of the sex. I fell in love with the characters and let me tell you Damon is someone to swoon over. If you are looking for a good smut read that will make you blush this is your book. It is off the charts hot. I honestly thought my Kindle might catch fire. LOL

Eastofoz says

Whoaaaa ! Have we got a eye-ball scorcher with plot to boot here 8-) It's a bit formulaic in set up which is why I couldn't give it a 5 because you could pretty much anticipate what they were going to do next, but for the amount of sex in this book for it not even to rate on the ick scale well that's no mean feat.

The basis of the story is that the heroine Brenna wants to be in the music industry but she's currently only an office worker for a music label. She ends up getting a break but the only problem is that she's going to take over the job of the unknowing Damon Andros the stud agent of the music label. Her friend encourages her to have some fun in the Las Vegas sun with the Greek Adonis while she's learning the tricks of the trade. She's quite shy and not too sure what to do in and out of work while she's with Damon but she's itchin' for some bitchin' and starts to come out of her shell. The story is really about her and her sexual awakening with a man who lets her be who she wants to be without ridicule, shame or embarrassment. Damon encourages her to try it all and she does him proud ;-)

The first 50 pages of this book were a dud and I really wanted to toss it because it was all so predictable. Damon was also so annoying with I'm-So-Hot-Baby-You'll-Singe-Your-Clothes-If You-Come-too-Close attitude. His male slut bit, that I think was supposed to come off as being an experienced man of the world, made him a bit gross when you think of all the visiting his magic wiener has been doing over the years. He's a real ladies' man but it's just thrown at you too much at the beginning that it was a turn off. However, pass the first 50 pages and you're in for quite the panting ride of a read :D You've got your standard sex between the h/h and all the various positions that the author could dream up, there's also a *wicked* ménage scene, some f/f and f/f/m, swinging, voyeurism and exhibitionism. There's no BDSM or anal scenes but it worked

very well without that. The author writes the story in such a way that she builds up to Damon's next sex surprise for Brenna and as a reader you keep thinking "I wonder if ..." and then there it is which is well done because you're never really sure if it's going to happen or if it's just you thinking "that'd be good if there was a ...". Often you don't think there is going to be a particular sex scene because if someone said a book had "all that" you'd have to wonder where the story was but there is a story. The chapters are set up that they plan the business of the day, go to work and then the sexcapades begin. Brenna gets more and more adventurous and just throws caution to the wind having the time of her life.

The ending was quite good and I really felt bad for Damon but things fall into place very nicely at the very end. So it has that formula feel which is not that bad really but if that doesn't bother you then I could see it getting a 5 star rating –if you have any finger pads left to fill in the stars that is ;-)

Dinjolina says

There is a lot of mmf or mfm romances out there.

If these kind of group thingies are not a part of a permanent menage? Not my thing. Sorry, but they are just not.

Why?

It reminds me too much of swingers.

What is wrong with swingers? Nothing. I just think that they should just leave their partners and find somebody new.

And lets be real....mmf? Sure. Cool. A girl could get in to that. You can not give your boyfriend a penis! But what is with giving your boyfriend one more pus*y?

Again, do not get me wrong - like FF action. But the second the heroine's man has his lips on someone other than her, or an other woman is giving our hero a blowjob? Not cool.

The author on the other hand really, REALLY stresses the point about how the heroine does not feel jealous. Is it my fault she is defective?

Would you want a gorgeous young Vegas topless dancer to have her hands and mouth on the penis of your man?

I think not!

Also...seven days of sin...where was the sin?

Mostly it was vanilla. Except when it comes to group sex.

Like that is something new...

It seems the hero thinks so!

He liked the fact the heroine is innocent but also..also what? Also, he wanted her to have voyeur sex with other people? Eh.

Maybe something good would have come out of this if they stopped with the sharing!

It seem he wanted a prudish swinger.

How...utterly lame.

Like this whole book.

Is it not sad when a smut book makes you yawn?

Riverina Romantics says

I am still up in the air about the star rating to give this one, but I have decided to give it a 4 due to various reasons.

To begin with I found this book pretty blah, but to justify that I think it was to do with the really shitty time I was having at home, so I think it was my own fault. I couldn't get into the characters and couldn't feel the connection, it felt like a whole lotta lights on lights off action. They were either having sex or having boring in between sex time.

However, at the end I found it jaw dropping hot!! To elaborate, I was letting my Kindle read this to me on a car trip and actually had to stop and look around the car at various times during the book to make sure the other 3 passengers couldn't hear. I'm pretty sure it would have started an all our orgy in the car!

If it was a star rating on the sex alone it would be a 5 because it was smoking!! Kinky, kinky, orgy, threesome, girl on girl action just to mention a few, but for storyline it would probably be a 3.

Just one thing to point out - Is there anything else to do in Vegas apart from having sex in the Eiffel Tower? This is the second book in one month that I have read that has a sex scene there.

Marion says

Brenna Cayton is newly divorced from her cheating husband and tells herself she does not need a man. Her boss sends her to Las Vegas on a business trip with Damon Andros who has a reputation of being a "bad boy". Brenna and Damon are attracted to each other, but Brenna is not very adventurous when it comes to sex. So Damon introduces her to a different sexual experience every day they are in Vegas. Very explicit , includes F/F/M and public sex.
