## **The Cowboy's Virgin Princess** Mia Madison

She's running from something but she can't hide from me  
Rafe Militant sent shivers into places I didn't know I had the first time I saw him.  
He's the hottest out of the many cowboy hunks working at Foxworth stud ranch.  
But I was nothing more than an amusement for him. The rodeo princess and insecure, young girl besotted by the older man.  
We had one kiss. The kind that could last a lifetime of memories. The standard to measure all others against.  
Rafe does everything bigger than any other man. Everything about him is...Bigger.  
He was too much alpha man for me to handle. Too hot. Too big. Too experienced.  
Now I'm back at Foxworth, taken in by my friend Dallyce who allows me to hide from my humiliation.  
But she can't shield me from Rafe, who still makes me quiver and lose the air from my lungs.  
I ought to stay away, haven't I learned my lesson around dominant males?  
If I could let go, I might have a second chance at my first time.  
Except Rafe seems to have other plans for me.

*The Cowboy's Virgin Princess is the third in the Foxworth Stud Ranch series of standalone novellas. It's a steamy older man romance, not so long on Western themes and huge on experienced rough alpha males. The other two books in the Stud Ranch series are My Cocky Cowboy & The Blacksmith. For a very short time, My Cocky Cowboy is included here, a hot 'n' sweet romantic bonus for your pleasure. Enjoy!*

## From Reader Review The Cowboy's Virgin Princess for online ebook

### Rebecca Grove says

Rafe is a ranch hand at the Foxworth Stud Ranch. He likes the ladies is is a little sad that a couple of his best friends have settled down with a woman. He doesn't believe he will ever settle down with just one women until Modesty comes back to the ranch. Modesty was a guest at the ranch when the rodeo was there. She was one of the rodeo princesses. Sparks flew between Modesty and Rafe but when he tried to get her in his bed, she ran away.

Modesty was in a bad position and came to the ranch to hide out. She also came back to get another chance at Rafe. He didn't know she was a virgin and the desire that she felt that night was so overwhelming that she had to run. She felt safe at the ranch and she wanted to help with her friend's wedding preparations. Rafe at first was cool to her return but when he realized that Modesty really wanted him he decided to try again. This time he is going to go slow because of her inexperience. When they get together it is really hot and sweet. Maybe Modesty can rope Rafe.

---

### Lisa Hoak says

This is a voluntary review of an advance copy. I would say this was a 3.75. I normally love Mia Madison's quickies but this one fell a little short for me. It was okay but not up to the level of her others. Rafe is the rogue cowboy who ribs the other guys for being tied down with a filly. Modesty is the innocent rodeo princess he met over 6 months ago and shared a steamy kiss with before she ran off. Now she's back to the ranch to help her friend, Dallyce, plan a wedding.

I had to re-read a section because I thought I somehow skipped them actually having sex but, nope, it was written that way. If you blinked you missed their entire first time together and Modesty's first time ever. I don't think the word virgin should be in the title if it's not important enough to work through in the book. There was a brief discussion the day after the deflowering but that was it.

\*spoiler - cover your eyes\* Rafe didn't know he took her virginity until she told him the next day. WHAT?! He barely could use his fingertip on her and he didn't know?

---

### Lexee Toste says

I enjoyed this book. It was interesting and I liked the characters. It was a short, quick read. Modesty and Rafe met in the first book of the series when the Rodeo Princesses were staying on the ranch. They had some chemistry but when they kissed the intensity scared Modesty and she pushed Rafe away and nothing was ever explained. Now Modesty is back on the ranch, running from something and the chemistry is just as strong. Modesty is a little better at dealing with it. She knows that she wants too but things are still a little jumbled up. They just can't stay away from each other though. Rafe is quite a bit older than Modesty but it works for them. The sex is fairly explicit but it focuses more on the tension and chemistry between them. As it is a short book, things move quickly. We get to see their relationship develop some and it moves quickly as well. I enjoyed the story and was entertained the whole time I was reading it. This is the 3rd in the series but

it can be read as a stand alone book. If you've read and enjoyed the previous books then you will definitely enjoy this one as well.

I voluntarily reviewed an ARC of this book.

### **ViolinVixen says**

Mia Madison is back in the saddle with this third book in the Foxworth Stud Ranch series. The last one was a bit of miss for me, but I absolutely loved this one.

Rafe is a rough and raw cowboy, set in his bachelor ways. He's watched a few of his buddies settle down recently and swears that the committed couple life is not for him. Rafe is good looking enough and built enough to have the female guests of the ranch falling at his feet for some of his special R & R and why would he ruin a good thing by limiting himself to one woman? Besides, he doubts that the uptight city women are going to stop having their hot, sexy cowboy fantasies anytime soon and he's happy to make those fantasies come true – for one night.

Modesty is friends with Dallyce (from book 1 in this series) and she's headed to the ranch for some respite after a devastating break up. The last time she was on the ranch she and Rafe shared a hot kiss that she's never forgotten, but Modesty also didn't forget his cruelty when she decided that she wasn't ready for more than just kissing yet.

Rafe hasn't changed. He's crude, gruff and a player. He's much older than Modesty and WAY more experienced than her, but he can't help but feel protective and possessive when he's around the young beauty. Modesty is still looking for the right guy to punch her V card, but Rafe's made it clear that he's not the guy for that job. The snarky and snippy back and forth between Rafe and Modesty was funny and hot and really built up the sexual tension between the two of them.

Sexy and fun Foxworth Stud Ranch romance. It was great to watch the grouchy old alpha fall hard for the city princess. He even ended up giving us some gentlemanly swoony moments, which I did not expect after getting to know his personality at the start of the book!

No cliffhanger. No cheating. Standalone within a series. HEA.

### **Chitra \*CJ\* says**

This is Rafe and Modesty's book.

While I liked the blurb the execution was choppy.

Things were done abruptly and in the end didn't make sense. The sex was average and characters barely likable, especially Rafe (who keeps calling her a virgin but doesn't realize finally taking it from her the first time?!)

Just a few points

- Tearing clothes like Jack the Ripper is a bad comparison since he was a serial killer
- Do marshmallows go with forks?
- The book ran hot and cold simultaneously many at times for it to make sense

This wasn't for me.

Safe

1.5/5

### **SJ says**

I received a free advanced reader copy of this book and voluntarily decided to review it

I absolutely adore Mia Madisons books and this cowboy series is awesome and one of my favourites, I love how they are all standalone yet previous characters are in them living in their happy loved up bubbles \*sigh\*

Told in dual POV Rafe is a crusty cowboy dead set against marriage and relationships, but when he meets Modesty again he soon finds that things change

Everyone needs some Mia Madison in their lives, this book is a fantastic read with romance, steam and a little angst

I loved it and cannot wait for more by this awesome author

---

### **RoseyLovesBooks says**

Ranch hand Rafe Millitant is in his 30's, footloose and fancy free and that's the way he likes it but feels uneasy when he realizes Modesty has been lingering in his thoughts since she left last summer. Ex-rodeo princess Modesty Blaze has come back to Foxworth Stud Ranch to help Dallyce with her wedding plans. 20 year old Modesty hasn't been able to stop thinking about the seriously good-looking Rafe and is ready to lose her v-card to him. After a fun night together, Rafe brings Modesty back to his place and is chasing her around when her angry father shows up, asks what's going on, tells Modesty Rafe's not good enough for her and demands that Modesty leave with him. Modesty doesn't want her father and Rafe to come to blows, or for her father to find out what her ex-boyfriend did to her, and agrees to leave with him. Rafe was convinced that he'd finally found a girl he could stay with for keeps and is hurt when Modesty leaves with her father. Is this the end for Modesty and Rafe?

The Cowboy's Virgin Princess is funny, sweet and steamy. Mia Madison has paired an entertaining story with interesting characters for a book that's a short and sweet read.

I voluntarily read an advanced reader copy of this book

---

### **Margaret McGovern says**

Excellent older cowboy younger woman romance. Modesty reaches out to her friends and fellow Rodeo Princesses. She needs a place to stay because of a guy back home. Rafe is an older cowboy who most consider a playboy or rake. When he sees Modesty again he's unsure of how he feels and she unsettles him. They both have issues and turmoil in their lives. He feels she's too young and her father feels he's too old for her. Keeps the reader turning pages to read the ending. I received a complementary copy of this book and

chose to write a review. I look forward to reading future books by this author.

---

### **Michelle says**

Rafe Millitant is a good hot and gruff older cowboy set in is ways he is muscle bound and snarky and hot boy and i do mean hot lol but this young sweet young lady Modesty they shared a hot sweet kiss and he wanted to go farther but she was not ready so she left and went on her way but things happened and she came back her friend helped her and she is staying to lick her wounds of humiliation but Rafe is still here oh boy what to do but stay out of his way like that is going to happen hot and exciting sexy funny my kind of book love older men and younger women and that hey wont to protect him no matter what I voluntarily reviewed an advanced reader copy of this book and I love every minuter of it Michelle

---

### **T Van says**

#### **Return of the Rodeo Queen**

Although Rafe is determined to stay single, the arrival of rodeo queen Modesty back on the ranch puts paid to that thought rather quickly.

My main annoyance was that a winning formula isn't enough to cover for slapdashery. Plot points are tossed in randomly, and the primary twist in the story came from nowhere. Also, instalove works best when the characters are seen making changes and sacrifices...but these two don't. There's a lot of longing and misinterpreted glances, but not much more. The couple intends on talking, but they never get to it. Modesty never stands up for herself, but things magically resolve around her. It just felt phoned-in.

---

### **BookSnuggle says**

The Cowboy's Virgin Princess by Mia Madison. This is Rafe and Modesty's story. This is an older man and younger woman story. This story was just okay for me. The story didn't flow very well. I did like Rafe but Modesty was harder for me to connect to. FYI, contains mature content. I voluntarily reviewed an Advance Reader Copy of this book.

---

### **Karina says**

I voluntarily reviewed an ARC of this book. I loved the third book in the continuing series of the men of Foxworth Ranch. I really liked the return of Modesty who we met in book one. Matching her up with Rafe made for a quick and steamy read. The two together were great. She definitely brought out the best in Rafe. He says he is not a romance kind of guy. I would have to disagree when it came to Modesty. Great HEA. Look forward to reading more about the men of Foxworth. Maybe Jessop can be next?

---

### **BP34 says**

This is the third book in the Foxworth Stud Ranch series and features an older man, younger woman romance. All around Sexy stud Rafe Millitant is one sexy alpha guy. Modesty was introduced to Rafe in an earlier book and the one kiss he gave her had her tingling all over. She's a virgin and has come to the ranch of the pretense of helping Shea with her wedding, but is really escaping an abusive boyfriend. I wasn't overly fond of Rafe and I felt that the sex scenes needed improving. Some things just didn't add up. Like he did not realize that she was a virgin and I hated at her first time was so rushed in the back of a pick up truck. I voluntarily read and reviewed an advance copy of this book.

---

### **CV says**

Rafe is a known rake. I know that's an old term, but it still applies to him. He met Modesty in a previous book in this series and he gave Modesty her first real kiss. In this book she has come early to the ranch where Rafe works and lives with Dallyce's Fiancé, Shea, to help her friend, Dallyce, with her wedding preparations. At least that's what she said. She is actually running away from her hometown to get away from a jerk of an ex-boyfriend for what he did to her.

This is another older man, younger "virgin" woman book. She is twenty and he is older, it doesn't say how old, just older. Every since Rafe kissed Modesy, she can't get him out of her mind. She wants him to be the one to take her V card.

When they do hook up, it was kind of disappointing in that it took two paragraphs for her to lose her virginity, well actually one sentence, in the back of a pick up truck. Whip, bam, boom and it's done. Modesty said in the book previously that she has difficulty getting a tampon "inside that stupidly tight tunnel", and he was just able to shove his hugeness into her with no resistance and he doesn't even realize she was a virgin. I don't think so. I think overall it was an okay story. Just a little skimpy on the sex details. When I read an erotic novel, I like to actually have a good description of what is happening.

I voluntarily reviewed an ARC of this book.

---

### **Di says**

Mia Madison delivers another great story about an older man, Rafe, and the young woman, Modesty, who finally snags him. We met both of them in the first book and now it's time for their story. Modesty is running away from something and someone and she ends up back at the ranch. She and Rafe shared a kiss many months ago and the attraction is still there. When they finally have their time together her father shows up and wants to take her home. She doesn't want her dad to find out what happened so she agrees and Rafe takes it the wrong way. Will they find their way back to each other?

A great read with a lot of tension between the two until it finally bursts and a great lead up to it along with a beautiful date that will make you swoon.
