The Energy of Life Vladimir Megré , Marian Schwartz (translator)

Volume 7 of the Ringing Cedars Of Russia Series re-asserts the power of human thought in our lives, in the destiny of planet Earth and in the Universe, and presents ways to consciously control and build up the power of our creative thought. The book sheds further light on humanity's forgotten history, religion, the roots of inter-racial and inter-religious conflict, ideal nutrition, and how a new way of thinking and a lifestyle in true harmony with Nature can lead to happiness and solve our personal and societal problems.

I love the life that Anastasia lives. If only we all could live as close to nature and commune with nature as she does.

I'm loving this series! If you really want to know what mechanisms control this world and how to break free from a failing system , this book is one of the most important reads I can recommend. But it's much more than that. Each book contained at least one chapter that just blew me away, and believe me after a life time of reading the strangest books on the planet, this is quite the achievement. If you are trying to fit all the pieces of the Grand puzzle together read The Ringing Cedars Series.

I gave all the books a 4 star rating because the writing isn't 5 star but the information these books pack in gives them a 5+ star rating.

Xulferdica says

A glimpse into a future where the world has become a paradise and mankind has unlocked much more of its potential than in the present. Intriguing read.

Lorianne Sidhe says

He goes much into repeats and letters to the government, but still filled with gems.

Ivi says

Loved it!!! :)

I like this one the best yet. His writing is getting a lot better. He has a lot of truths in this one.

Dave says

now the entire series is rolling! Can't wait to start my teleportation exercises!

Shamana Ali says

This book outlines important emancipation concepts which reveal the underpinnings of our artificial social structure. Writing is still atrocious, but the ideas outweigh them, particularly with this book.
