This was one of the first ever series I read as a kid, and it made me fell in love with reading. Paul van Loon used to be my favourite author when I was a kid, before I got to know about Harry Potter.

Dolfje Weerwolfje takes me back in time, this series has so many memories to me.

Dolfje Weerwolfje verstoort zich op schoolkamp als het volle maan wordt. Ze mogen allemaal niet weten dat hij dan verandert in een weerwolf. Daarom vlucht hij van de groep weg en probeert zich te verbergen. Noura heeft echter gemerkt dat er iets met hem aan de hand is en is hem gevolgd. In het bos ontmoeten ze een enge persoon, Leo, die hen wil verjagen. Op het laatste nippertje worden ze gered door opa weerwolf en Dolf's pleegfamilie. Maar hoe moeten ze dit nu allemaal aan de meester en de klas uitleggen?

Het is een Vervolg op 'Dolfje Weerwolfje' maar ik vind dat je het goed los van elkaar kunt lezen. Het is niet zo dat je het boek anders niet kunt volgen. Super idee om hem in een groep voor te lezen. Bij ons in de huisbibliotheek werkt dat erg goed.

Ik vond Dolfje Weerwolfje vroeger zo leuk om te lezen, vooral omdat het ook best spannend was. Wel spannend op een leuke, kinderlijke manier. Echt leuk.

Super cute!! The kids are loving reading it at bedtime and I love the themes of empathy and forgiveness in it, about embracing your uniqueness.

There's nothing better than reading good book with your son. We sure both enjoy the Dolfje series which are way better than Twilight!

Full Moon is part of a series that follows Alfie, a boy who turns into a werewolf every time there is a full moon.

The story starts on a night with a full moon. Alfie, the werewolf, has been caught eating someone's chickens. As he is trying to escape the man, he is saved by his best friend Tim. Alfie lives with Tim and his parents who all know his secret and help him keep it that way.

This adventure follows him as he goes on a school trip to country. Tim is unable to go on the trip as he falls ill, and that is where the problems start for Alfie. Tim discovers that he has confused the dates for the full moon, leaving Alfie at risk of turning into a werewolf in front of his classmates. There are a number of problems that he faces on the trip, including stopping his admirer Noura from finding out about him and hiding from the hunter who chickens he ate previously. The story ends with his family coming to the rescue, including a surprise addition who previously tried to scare Alfie away. There is also a twist involving Noura as well.

This book is well written, it is funny with some great characters. It's a great book for the upper primary age group, especially for independent reading.

Funny thing... I read the first book 'Dolfje weerwolfje' as a kid from the library ages ago and I really loved it... Last year, I found the first book in the bookshop and I 'discovered' there were more books on Dolfje... So, I got back to the library and found this one...

I know, it's a children's book but I love the story... It's escapism... It's wonderfully written... I even love the drawings in it cause it makes the story come 'alive'... I was kind of sad I finished the book already and looking forward to read the other adventures too of Dolfje and Noura.

On a side note here to why does a 40 year old read 7+ books? It's very good to learn and maintain the Dutch language... As you tend to lose it always reading and writing in English...

My kids loved this one - I'm going to track it down in translation for my sister's kids, some books you just want to tell others about.

Anne says

Still cute. I liked getting Alfie's family involved.
