Shhhh....jake comes in his pants again....totally hot but really at 40 yrs old? Lol.

Love the jealousy, the pain, the bile of travis, love fist fights too.,his salvation. Shit.

Unfortunately I didn't like it at all!

I can somehow understand why Tor went to protect Travis and rescue him from the hostile mob (gay-bashing is awful, no matter how bad its victim is per se), but when Travis started to insult and humiliate Jake, it was so totally understandable that Jake punched him. I would do it too - no doubt! So why Tor punched Jake??? To protect Travis?? In that case it's disgusting. Or to provoke Jake to finally "release the pressure"? But it just doesn't seem plausible to me. And Tor's holier than thou attitude "You done being an idiot yet" - when what's happened was absolutely not Jake's fault!

TBH this story kinda spoiled the series for me, coz I usually pretend that Travis ceases to exist after we're done with the cheating part of Bareback, but now knowing how Tor would behave towards him... well, I can't help, but like Tor even less.

This story didn't do a thing but make me hate Tor more. I never thought it was possible to hate a character as much as Tor. Ugggggg! I thought after time went by I would change my opinion of the Bareback series but alas I can't.

### **JustJen "Miss Conduct" says**

This was a good addition to the Bareback story. I was happy to see this issue was still haunting them and being worked through and not just forgiven and brushed under the carpet.

2nd book and last book in a roller coaster series and yes, you do need to read the 1st one. The short is optional but very short and free on the author's website. My heart just aches for these two but I love a good HEA and this one has it. Well worth the emotional read.

### **Juxian says**

I don't really understand why Tor hits Jake. It was unnecessary - there is nothing in the situation justifying it.

### **Greg says**

When I read this free short story, I thought why write something like this. It was terrible. If it would have been me and my man smacked me and said don't you trust me, I would have knocked him on his ass and said you two deserve each other and walked away. This was not needed as an additional story for these two characters. Tor comes off like an ass here.

### **Kinny says**

OMG I hate Tor! WTF Is Travis doing in this story? Want Tor& Travis tortured,drawn quartered eaten by cannibals with heads impaled on spikes. I want Jake to BE swept of his feet by a billionaire alpha male who looks like Chris Hemsworth as Thor and live HEA. Add Jake getting 2 Million dollars off Tor's life insurance and this would be my fave story of all time.

### **DarienMoya says**

Really glad Jake got to punch the fucker. Travis I hate ur guts, you little prick.

I am happy!!!!

### **Leigh says**

A great short story that involved Travis...ugh!! I was glad for it, though...it allowed Jake and Tor to have more closure into their largest obstacle in their relationship. So glad that Jake punched him. Take that, you home-wrecking bastard!

### **Dre says**

[I agree that they shouldn't have let him get beaten up for being gay, but Tor shouldn't have punched Jake because he punched Travis. I think Travis is lucky that's all he ever got from Jake for cheating with Tor! (hide spoiler)]

This one gets a little rage because...well damn...Travis is back and honestly even though he gets an ass kicking he gets not sympathy from me because once again he causes dissension between Tor and Jake.

Sometimes when I read books with a secondary character like Travis in them I like it when we get to see them have their own story and they find some redemption but with Travis I just want him to go away. I have no f#@ks to give where he is concerned and truthfully after re-reading Bareback I probably like him less now than I did the first time.

## **Ryoma Gartre says**

Jake punch Travis, Tor punch Jake, I was like really? fucking really?.

## **Silvia says**

Pissed at Tor! Still love him though.

I really enjoyed reading "Bareback" and "Natural Disaster", but I have never read these free short stories, in between the two novels.

Now I enjoyed this one, but it also pissed me off a bit. I mean I really hate Travis with a vengeance, so his appearance had me frothing at the mouth. And Tor, he disappointed me a bit in this one. He had redeemed himself to me at the end of Bareback and even more so in Natural Disaster. So him hitting Jake, was a real let down...

I know he didn't mean in a bad way...he just wanted Jake to let go ..but still. He could have made his point without splitting Jake's lip. Thankfully Jake isn't a doormat...at least I don't think so...so he knows how to fight his own battles :P
