## **Broken Sky: #07** Chris Wooding

A year has passed. Kia and Elani are gone, Ryushi has been Bonded, and Princess Aurin has fled. Now, Calica is faced with an awesome responsibility. The fate of an entire race is in her hands, and she's not sure she can handle it. Meanwhile, the members of Parakka are faced with challenges of their own.

## **Sarah-Jayne Briggs says**

(This review may contain spoilers).

I really like this series of books. There were new, interesting characters - and I liked how Ryushi's bond with his wyvern worked.

I'm not too happy about how things are going with Hochi and Gerdi. I hope they can figure things out between them eventually.

I was glad to see Kia regain her memories and finally accept comfort. I can only hope that she won't go back to the icy cold person she was before. And I hope Elani and Peliqua are safe and well, somewhere.

## **Jimmy Jonecrantz says**

Only the first two books got translated to Swedish, and I bought them when I was little. For years I felt unhappy with this story being unfinished inside me. Finally, I decided to buy the rest of the books in English, and I'm happy I did. The language is easy and the story is epic - and the story in itself is immersive and full of imagination.

The only thing I did not like about this series, is that the characters are a bit too stereotypical sometimes, especially Gerdi made me uncomfortable by his likeness to the romani people (or Ravnos in WoD).

## **Brenda says**

A year after the fall of Base Usido, we are updated on all of our characters. One thing not told us though: how did the Parrakas get from Kirin Taq to the Dominions?

It's almost like starting fresh, with the same characters but meeting/exploring new ones and new races. We get to learn about the Deliverers, and these sand ghouls, what was driving them to get "her"?

## **Ekaterina says**

To my great surprise and happiness, when the book arrived I discovered it also contains numbers 8 and 9, which obviously makes it the last one and an epic conclusion to the series. I really liked the ending and the new possibilities to travel and see more of the strange world the story takes place in. All the main lines have very satisfactory wrap ups, and some of the main characters dying gives a feeling of reality to the whole thing. I don't know if I agree with Whist dealing the final blow (I don't really know what to think of him, in the end) and with Li'ain simply going away (I liked her much more than Calica), but generally it is a happy ending after a long and tragic battle, so I won't complain anymore!

**Lindsical says**

Possibly my favorite book out of the series, although I was greatly saddened by certain events. Chris really outdid himself with his final book!
