Easy summer reading.

Enjoyed all these books. Each one is different story line and then you can get the rest. Good start for getting more.

This was an entertaining book that showcases the first book in 4 cozy series. It was well written. I liked the mixture of the age of the main characters. Some were young, some middle aged, and some in their 70's. The stories kept you reading to see how they would successfully bring the bad guys to justice. The stories did not drag. They kept going with surprises thrown in. I especially liked the small paranormal in the stories. It was fun to read about the clues being given by the ghosts and cats. I would recommend this book to anyone that would like to get a sample of Ms. Dobbs mysteries.

Kindle Unlimited, Leighann Dobbs writes under Leighann Dobbs, Annie Dobbs and (soon) L.A. Dobbs but her real name {not sure if she writes under that one} is Lee Dobbins, Hazel Martin Mysteries only one I found for this type with her, she has not made sure that terms used match the British terms as well as in other areas for that period of architecture and assorted styles.

The Notch Cozy Mystery Series {5 out as of this writing} and the Blackbore Sisters Cozy Mysteries are not on Kindle Unlimited which as said before about 1 & 7 {the only ones given free, sure would not have bought them} and ditto for Ghostly Paws which is 1 of 5 at this time but did get others free over time.

While some of her other books are Kindle Unlimited none of the Blackmoore Sisters Cozy Mysteries are which doesn't matter to me as read #1 and #7 and was way underwhelmed. Leighann Dobbs writes under Leighann Dobbs, Annie Dobbs and (soon) L.A. Dobbs but her real name {not sure if she writes under that one} is Lee Dobbins, Hazel Martin Mysteries only one I found for this type with her, she has not made sure that terms used match the British terms as well as in other areas for that period of architecture and assorted styles. By the way, bakeries and other food service places don't run like that. Badly needs to proof things, it's messing up the flow of the book, which my computer reads to me, so that's bad. As for these, it's not that the situations couldn't happen, it's in the telling of the story, with unlikable unbelievable characters and situations, again.

Yet another goodreads won't hide it don't want to see the badly proofed badly plotted poor excuse for bad soft core porn crap. The 'historical' ones are like that and so are the some of the non cozy mysteries and some of the sorta but not really mysteries because can't write, etc ad nauseum. The most any of them got was 2 changed to 1 for crap cozy, some get a 1 which means basically crappy soft porn 'romance' etc.

3 in Silver Hollow Paranormal Cozy Mystery Series so far which are on kindle unlimited, 3 in the Moosamuck Island Mysteries , 5 in the Mystic Notch Cozy Mysteries so far {not ku}, Blackmore Sisters has 7 {not ku}, Hazel Martin Mysteries only has 1 so far, Lexy Baker Cozy Mystery series 12 so far is on ku. Others.including Scandals and Spies Book series so far 4 which are basically romance soft core porn dreck but hey you can get them on ku. Witches of Hawthorne Grove 1 so far,Cevonne Bride of Oklahoma, Unexpected Series 4 so far ku.

The Lexy Baker Cozy Mystery Series By the way, bakeries and other food service places don't run like that. Badly needs to proof things, it's messing up the flow of the book, which my computer reads to me, so that's bad. As for these, it's not that the situations couldn't happen, it's in the telling of the story, with unlikable unbelievable characters and situations, again.

Copy/paste fill in the blank seems to be pretty much what she is doing in her books, which wouldn't be half as bad if the plots and ploys and actions were believable at all.Just change the name for a book and maybe change the series list under, and you are right back to copy paste same old same old.

NOTE: I specifically mentioned certain of the 'books'/series were achieving soft core crap status, and specifically said which ones those were, reference AGAIN the above quoted review, and did not specifically mention the blackmore ones as that, BUT and had not mentioned that had went back and rated all no talent no plot cardboard charactered 'stories' listed above as 1 as well. I will change the original review to reflect that, but it is still a 1, and MY review of the crap stands.

Good stories. Nothing too taxing on the brain. Real cosy mystery books to curl up in a comfy chair read for a few hours.

Cozy Mysteries

Fun enjoyable mysteries with a little paranormal touch. Each book has a different setting and different characters - I would have enjoyed a series with the progression of the same characters, but these stand alones were still nice.

orthalia gant says

Five stars

I liked the characters and the storyline.

Would like to read more stories centered around the Blackmore sisters.

I liked the characters

Benedetta says

Skip the last book

The first books on the collection were good. The last was terrible. If I had to read about a heart dropping or a stomach doing flip flops or furrowed brows I was going to jump. But I will read other stories by the writer.

Mary Cadahia says

Great read. fun engaging characters, feels like your visiting friends rather than reading. can't go wrong, reading this seriez

Birgit says

Four books in a boxed set, one of each of in four of this author's mystery series. I loved all of them, absolutely. All of them had this underlying sense of humour, the dialogues were witty, the protagonists were people a reader could easily identify with, not least because they were not the usual late teens to twenty age group, but way way older, like I would think, a lot of readers of this genre of literature.

Some had a slightly melancholy undercurrent, but on the whole, the books were humorous, the protagonists sympathetic and realistic, the plots interesting - something a reader could follow, having the same clues as the characters, but not without some twists and turns -, and the narration style was just brilliant, in short, everything came together perfectly to keep me glued to the pages.

I want to read all of the book in these series.

Juquita Self says**Treasure**

Kept me wondering if there was a treasure. Hope Morgan and her sisters don't stop looking for their family treasure.

Vicki says

Overly sweet - should be considered YA material.

Elisa Hordon says

A wonderful bundle of great mysteries from Leighann Dobbs I loved each book a lot.
