The Prince needs a nanny...

Prince Nickolaus is a single dad with a country to run. He expected a no-nonsense nanny to care for his children, not the pretty young blonde the agency sent. Cara is cheerful, fun-loving, and mischievous. Nico hasn't been any of those things--not since a tragic accident in a country he's vowed never to return to.

Romance is the last thing on his mind. He needs fewer distractions, not more--but the beautiful young American just might make him question that policy.

The nanny needs a win...

After Cara Andrews' career abruptly ends, she jumps at the chance to work for an upper-class European family. She's shocked to discover her new boss is Prince Nico. For years, the former hard-partying playboy was plastered over U.S. tabloids.

The prince is still gorgeous, but he's almost as hard to reach as his children. But Cara is determined to make a difference in this family's life--even if it means laying open royal secrets, kissing a prince, or telling off a queen.

This is no fairy-tale, but with Cara's charm and persistence, she may just go from servant to Cinderella.

*****Dashing is a full-length romance novel with steamy scenes, no cheating, and a very happy ending*****

I really wanted to like this, but there were so many things about it that did not sit well with me. At the start of the story, the heroine, Cara Andrews, appears like a young impressionable, awed, foolish girl. She gawks at everything instead of politely admiring her surroundings. She continues her internal dialogue assessing Prince Nico's physical attributes. I feel this is childish and (yawn) boring. Hopefully the story will improve. Nope... more swooning. Why can't the the Hero, Nico, do the swooning or half and half. (getting discouraged here) Cara moves into a giddy schoolgirl phase. She slowly develops grandiose ideas of a possible HEA with the prince. Only to be let down harshly by Nico. Now her heart is broken and she is devastated. She knew what she was getting into from the beginning. Nico made it very clear there could never be anything lasting between them. Instead of walking she ran head strong into what little snippets of time Nico offered her and blew that up to unimaginable proportions. I felt disappointed in how the character Cara, was written. She is a passionate school teacher who loves teaching children. She is a natural. She also can contribute greatly if there is a drama club. Why the author did not make her into a stronger character I will never know. I did admire her concern for her students. She constantly tried to engage them. With patience she worked miracles. It was nice to read about the progress her students made. I received a free copy of this book via Booksprout and am voluntarily leaving a review.

This was a good story. Cara gets an au pair job via an agency. She gets picked up at the train station by what she thinks is the family's chauffeur and gets a bit of verbal diarrhoea in the car , gushing about how handsome the country's prince is etc etc only to discover that he is, in fact the prince...and her new employer. He found it amusing. I liked that Nico had a sense of humour and was down to earth and not so regal and stuffy like his Mum, The Queen. At first he thinks Cara is too young to look after his kids - he was expecting someone older - so he plans on letting her go after a day or two but he is drawn to her, finds her attractive and he can see she is good for the kids so he allows her to stay. It was heartwarming seeing her relationship with the twins grow. The chemistry between her and Nico slowly grows too until neither can resist anymore but he puts a stop to it because he can't see them having a future together and he is still scarred from what happened with his wife. An unfortunate event with the paps is the final straw and has him backing off even more but they get their fairytale HEA eventually.

Great twist on the Cinderella story. Its almost impossible to not love a prince? Well being a nanny is hard but loving two kids who have lost everything is harder. Losing a parent so suddenly was traumatic for kids. Trying to relate to them was hard for her, falling in love with them was easy. Falling in love with their dad wasn't hard either. Can you ever fit into a world so high and mighty? I just loved how Sophie incorporated the pressures of being a royal and the pressure of fighting for love. Can love overcome everything ? I just

loved this spin on Cinderella . Enjoy!

The Princess Diaries met Cinderella

I voluntarily read and reviewed an advance copy of this book.

The Princess Diaries met Cinderella is exactly what this book reminded me of with a little Pg13/R moment or two. I loved the children so much they definitely made this book. All characters are well written and the storyline is good. Still had typos and errors but not enough to take away from the storyline to much. Decent light read 2.5 stars because the story didn't really have anything memorable, nothing wowed me!

Surprised to learn her new position as a nanny to twins is at a royal castle, Cara is unsure how to deal with her growing attraction to her boss- who happens to be the crown prince of a (fictional) tiny, European country. Meanwhile, widower Prince Nico is fighting his own fascination with Cara.

The storyline flowed easily and I enjoyed the dual POV. I found a few punctuation errors and a sentence or two that didn't feel right, particularly the couple of sentences where Cara asks if she can occasionally go out for the evening to help Von with his play writing. If you read carefully, you can see that her question and the way he phrases his reply don't match up.

I did have an issue with Cara's behavior in one scene. When she and Nico were in his office, I think she came on too aggressively with her argument against his reasoning as to why they couldn't have a relationship. I understand that she wants to exude confidence as a strong female but she bordered on the edge of being downright rude and pushy. Her behavior in that section doesn't seem to mesh with her characterization throughout the rest of the book.

The secondary characters were delightful and fun, with each one being unique from the others.

Overall, I thought it was a cute, light and easy quick-read.

I received this book with the understanding that I could leave a voluntary and honest review.

In this book we meet Cara Andrews and Prince Nickolaus "Nico". Cara has recently gone through something that has made her change careers. Little did she know when she signed up with the au pair agency how quickly she would get placed or who she would get placed with. Nico knows that he can't have this beautiful woman as the nanny. There is a part of him that wants her around though due to the fact that he knows he needs more in his life then all the facts and figures he deals with on a daily bases. Can these two find a HEA or will their stature and the past make that impossible?

This is an amazing story. It does have its ups and downs I really want to tell you about. However I don't want to ruin the story for any other readers. I will say this book will have you hooked from the first word to the very end. I would highly recommend it to anyone and everyone.

I just love a Cinderella modern fairy tale and this was one of the best I have read. Cara the new nanny and Nico the future king meet and there are sparks. The twins are wonderful just like the other characters in this charmer. This story also has a heart when Cara helps to heal the Nico and children after the death of the children's mother and Nico's wife. The story is not without drama at the end, but you will love what the author writes. A truly fun read!! I did receive a free copy of this book and voluntarily chose to review it.

Had great potential

Sweet, unassuming young nanny, handsome prince. 2 precious kids. Love and romance. We're doing great. Then, before our eyes, it is suddenly Princess Diane, with the paparazzi chase and car crash.

Though, in this case, it's a boat.

Nevertheless, the further it goes, the less likely it becomes.

Well past the 50% point, I should be so invested in these folks, I can't put it down. Sadly, I can. And have. It just got too far-fetched, and unlikely for me. Not to mention, there was little to nothing holding my interest.

I finally just deleted it from my kindle.

This is not a book I would recommend.

?Young Nanny Cara to the rescue of a grieving ?royal and his? twins

November 29, 2018

Format: Kindle Edition

Nice? romance with a sensitive heroine who takes a grieving family on as a project and brings some joy back into their lives. The two children, Derrick and Elyse, had strong input to the story and I really liked that they were characters with some depth, not just cute. The ending does wrap up the story, leaving no cliffhangers, but the California segment is highly unrealistic. What happened to the paparazzi when they were out in public?!

I read a complimentary advance copy of the book; this is my voluntary and honest review.

From a nanny to a ...

An absolutely delightful read about a nanny that falls in love with not only her charges, but also their father (the prince). There are twists and turns in the plot that make the story very interesting and hard to put down even for a minute. The characters were terrific. The story was delightful. The writing drew me in and held my attention throughout.

I'm looking forward to reading more by this author.

Cinderella Dashes Off Track For Awhile.

Dashing - A Royal Cinderella Billionaire Story by Sophie Brooks. The story is about Cara, an American Nanny who falls in love with Nico, a European widower Prince and his twin children, Derrick and Elyse, and which results in many many complications. For the most part the story is well told. The children characters are well developed especially the girl who is suffering the effects of losing their mother two years ago. Cara is depicted as doing a very good job at bring the children out, having been a teacher. She even brings the Prince out of his shell. There is obvious attraction there. Unfortunately the attraction gets very messy and that's when I have a problem with Cara's character. She comes across as very clingy and immature, like a teenager. That whole section of the story made me feel so uncomfortable that Other woman would be reading that. It wasn't until her sister's husband, Ford talked to her wisely, that I came back into the story and begin rooting for her again.

I am volunteering to leave a review of this advanced review book.

Wow this was a very emotional story especially at the end I cried like a baby, those two kids Derrick and Elyse tore my heart to bits they were having such a hard time with their mother's tragic death. Their father Nico is a prince he's also having a hard time trying to get over his wife's death but he needs to hire a nanny for his twins, that's when Cara steps in and is hired as the nanny. I loved this story and even though Nico and his kids were grieving they had found room in their hearts for Cara. A fantastic story a 5 plus ?? read and I highly recommend this book it's definitely well worth the read.

I felt like I was reading a Hallmark movie! I mean that as the highest compliment. I love a good Hallmark movie and this book gave me the same feeling!

I adored Cara & Nico and loved going on their journey. I loved Cara's spunkiness and how she challenged Nico. Cara brought out the best in Nico & his two children. Nico wasn't expecting Cara in his life, but he knew that Cara in his life was better than no Cara. Nico was a dashing prince who was swoon worthy!

I will be definitely reading more by Sophie Brooks in the future. I couldn't stop reading!

Loved this palace romance between Nico and Cara!

Nico is still grieving his wife's death, and absolutely not looking for another relationship. I enjoyed the way the author developed Cara's relationship with Nico's children against the backdrop of Nico realizing that he was wrong about her being too young for the position. But this book goes so much deeper than that - Cara is able to relate to the children as she, too, lost her mother at a young age, and she's able to make a real difference for these children.

The romance between these two was nicely written. Their attraction is instant, but neither one wants to be irresponsible about pursuing what can only be a short-term fling. The trip to London changes everything, and it was a brilliant touch to show us the more everyday version of Prince Nico. The HEA was beautifully staged, proving that the impossible is always possible. I voluntarily reviewed an ARC of this book.
