It's Bridget Jones with vampires in this fresh and funny paranormal romance from debut author Juliet Lyons

When Silver Harris kisses sexy Irish vampire Logan Byrne on New Year's Eve, she knows other humans just won't suffice. Convinced she'll never see him again, she joins the uber-popular vampire dating site, VDate.com.

What Silver doesn't know is that the site is more dangerous than she could ever imagined, and soon she's in over her head. When Logan returns, sparks fly and attraction sizzles, but they'll have to escape some very real demons if they have any chance of lasting forever.

## **From Reader Review Dating the Undead for online ebook**

### **Christa says**

Any book that makes me laugh gets 4 stars. This one was funny. I liked the world building, the heroine was funny but not abrasive, and the hero was protective but not overbearing.

Land lady Vera stole every scene she was in.

---

### **Candace says**

Logan is a vampire and Silver is a human. They first meet on New Year's Eve and share a kiss. A few days later Silver is on the vampire-human dating site V-Date.com. This time when Silver and Logan meet, he has been sent to glamour her into believing she doesn't want to date vampires. Logan is lead to believe Silver is a police informant collecting information to use against vampires. Despite the evidence, they fall into insta-love. Logan also has an ancient vampire, Anastasia, who wants him back as a blood-bond slave. Can Logan and Silver out run two ancient vampires to reach their HEA? Is there hope for their love to grow to an everlasting love?

This novel is a nice, easy read. The main characters are delightful. The easy banter keeps the dialogue fresh. The heavier scenes are handled with sympathy and humor. The plot is simple. There is adult language and explicit sex scenes in this novel.

Buy This Book:

It's Bridget Jones with vampires in this fresh and funny paranormal romance from debut author Juliet Lyons. When Silver Harris kisses sexy Irish vampire Logan Byrne on New Year's Eve, she knows other humans just won't suffice. Convinced she'll never see him again, she joins the uber-popular vampire dating site, V-Date.com. What Silver doesn't know is that the site is more dangerous than she could ever imagined, and soon she's in over her head. When Logan returns, sparks fly and attraction sizzles, but they'll have to escape some very real demons if they have any chance of lasting forever.

Dating The Undead was a little less what I expected but had some things I totally wasn't expecting yet still managed to keep my attention despite some areas where the story hit a couple snags and lingered too long in some places I felt could have done without the added plot and useless character interactions.

That being said, I did like that the characters mostly carried the story - I do like heavy character plot than actual story plot sometimes since I tend to have a habit of getting deeply invested in the who is who, how, and why they are the way they are, their backgrounds and histories and all the little tid bits that tend to get left in the wind in a lot of books.

Dating the Undead includes a lot of past history but sadly not really in the way I was hoping. As a whole Dating the Undead didn't quite feel totally fleshed out or expanded in areas I felt could have used a little extra attention and a little long in areas I felt could have been done without all together however I still liked our h/h, I liked their journey together even with the whole little too heavy too obsessed too soon. I let that go so I could sit back and enjoy the ride without paying much attention to the road signs on the trip.

Dating the Undead was still very much worth the read as long as I didn't look too deep and the humor was very much liked. Also the ending hook grabbed me enough that I do plan on picking up the next book in this series.

Until next time book lovers...

**C.J. Laurence says**

You HAVE to read this book! I was fortunate enough to read the first draft of this when it was on Wattpad and I absolutely adored it - I'm not surprised at all that Miss Lyons has been picked up by Sourcebooks. I cannot wait to read the new and improved version!

-----

*"Get back here, vampire. I felt you up; now you feel me up. That's how it works in the twenty-first century.*

*This isn't Jane Austen. I'm not bloody Elizabeth Bennet."*

Honestly, I don't know how anyone can look at the concept for this book and **not** want to read it. Obviously a fun concept or pitch doesn't always guarantee that your expectations will live up to the premise but in the case of **DATING THE UNDEAD**, it did. And in such unexpected ways.

*"Silver has a date with a vampire."*

**"Well, I'd say knock 'em dead, kiddo, but in this case he's dead already."**

When you throw the words **BRIDGET JONES** around you kind of anticipate the story going one way. And this definitely didn't. But it was actually better. Lyons has created a seriously sassy and snarky delight in our MC Silver without half the hangups that Bridget Jones had. And definitely created the perfect, undead, match for her with Logan. He's basically what Angel, from *Buffy the Vampire Slayer*, might've been like if Whedon had made him less of a tortured emo child and more.. pervy.

*"A man would have to be dead from the feet up not to find your attractive, Silver."*

**"Like you, you mean?"**

*"You're never going to quit the dead jibes are you?"*

**"Probably not."**

I don't want to reveal too much because half the fun is watching how it all shakes out but take everything you know about vampires and forget it. We have a fresh take on the blood sucking and occasionally sparkly mythology. Throw in a girl with no interest in love who ends up on V-Date -- a vampire hook up site -- after a New Years Eve encounter with a hot Irish fanger, a mystery surrounding a missing mother, some seriously sexy escapades, total hilarity, and a pile of **TWILIGHT** jokes (well, okay, like two, but they were good ones!), and you get **DATING THE UNDEAD**.

*"It's funny. I never had you pegged for the needy type."*

**"Needy? I think I prefer brooding and deep."**

*"There's nothing brooding and deep about this conversation, Mr. Needy. It's got insecurity written all over it. It's a good thing you're a decent shag or I might jump ship."*

I'm so glad this is going to be a series of interconnected books because while I love that this story wrapped up without a cliffhanger, I want more of this world. And Lyons has perfectly set us up for another immortal hunk to take the stage.

4 "bend over and stop talking" stars

**XxTainaxX says**

Audiobook review. Cute story. While I don't expect vampire stories to have much believability, I did have some eye-rolling moments as I listened. Silver is, like many folks, trying to find love. She is quite fluid in her approach and goes with the flow, which can be good at times and others not so much. I liked Logan because he stuck to his principles despite strong opposition. In that way, they are almost opposites.

The love scenes were ok. The writing, pacing, and transitions good. I would have liked a little more development with Silver but there was some noted growth. There was an opportunity missed in the plot details. I was left confused by what was supposed to be the climax of the story. We are expected to just accept that something occurs but are not given the setup of what makes it possible.

The narrators had good tone, pitch, pace. The accents were ok, but you can tell the hero's is not natural.

**Safety:** h continues to "date" other vampires while with the H. No physical contact occurs with them and there is a purported reason but I personally wasn't a big fan of this. No rape. Yes to abuse.

---

### **Stacy Kennedy says**

just wanted to say this is one of the best books I've ever read it's right up there with my top 5 it's exciting, mysterious there so many plot twists it's just a good story just want to say that if this is your genre this is one of the must reads I've read the whole trilogy when it was on Wattpad prior to editing so I want to purchase the paper bags and reread them I have a collection of published works just from Wattpad I want those. She would be only the 4th author I was interested in purchasing the paperback

### **Ally says**

#### **Would it hurt for the two of you to stop talking so much?**

#### **Read for the Halloween 2017 Reading Challenge - Vampire category**

**Series:** Who cares? Not I!

**Sexy times:** Stopped paying attention. This was one flavor of ice cream that I found booooooring. Like artificial vanilla ice milk. There, that's what it was.

**Plan on reading more by the author:** Nope

### **Synopsis**

Idiot girl gets kissed and sucked by a vampire. They trade what start off to be funny barbs and what quickly declines into a quagmire of word vomit. He's never fallen for a human before but she's his human. He can tell. She's everything. So he puts his life in danger to keep on banging on her drum.

But this particular banging does not happen before said idiot enrolls in a Vampire dating website on the "dark web" so she can find out if all vamps bite the same way and bring her the same joy. Mistake #47 but we know that and idiot does not.

Idiot gets embroiled in some investigative shite. The vamp boyfriend is supposed to glamor her out of it. And

you get the drift.

Stuff happens. More stuff happens. They talk a lot. And I mean a lot - a lot. As in "please stop" and "any day now". And they basically keep talking about the same thing over and over again.

**Why it did or didn't work for me:** It just was not good. There's no two ways about it. I skimmed and glanced and moved through the book with the speed of a mouse on the trail of cheese or pate, if you must know. Were I a mouse, I'd be all about pate and not cheese. Then again, dairy makes me sneeze, so there is that.

Signed,

*Not my cuppa blood.*

## Sissy's Romance Book Review says

'Dating The Undead' by Juliet Lyons 'Dating The Undead' by Juliet Lyons is book One in the "V-Date.Com" series. This is the story of Silver and Logan. Silver and Logan happen to meet on New Year's eve when Silver is kicked out of a bar and Logan was coming by. They talk and they 'kiss'. Logan asks for her name but he doesn't give his. Silver knows he is a Vampire and thinks the bind blowing 'kiss' was because he was a vampire. This was a good vampire romance story. ## Deborah says

New Year's Eve is not going according to plan for Silver Harris when she catches her date kissing someone else. One drink in the face and kick in the nuts later Silver is being escorted out where she meets the incredibly handsome and irresistible Logan Byrne vampire, one kiss from Logan and Silver knows he's ruined her and human men are just not going to cut it anymore.

Assuming she'll never see him again Silver joins V-Date.com a dating site for vampires but she soon discovers what she felt with Logan was less to do with the fact that he's a vampire and more to do with the man himself.

Logan returns and things pick up where they left off but the path of true love never runs smooth especially when one half of the relationship is 190 years old and has a vengeful ex-sire on his tail.

This is an enjoyable read both Logan and Silver are good characters with some funny dialogue between them and I really wanted things to work out.

Also I liked that the ancients are different, demon like and next to impossible to destroy and certainly not the same as those they create.

So what didn't work for me?

I felt at times it dragged now this could be because I didn't particularly feel the police part worked that well and the only real reason I can think it's there is to introduce Vincent ready for his book 'Romancing the Undead' which is next.

Also the epilogue, I'm a huge fan of epilogues but it ended quite abruptly, I know, I know when is a good time to end but I would have liked a bit more.

So all things considered this is a good entertaining read and while we know how it's going to end the fact that we know doesn't distract from the story itself.

I voluntarily read a review copy kindly provided by NetGalley and SOURCEBOOKS Casablanca.

---

## **Bj says**

4 "Ulterior Motives or True Love?" Stars for the story and 4.5 Stars for the narration.

Lovers of humorous vampire romances (for example, Molly Harper fans) will be the most intrigued by *Dating the Undead*. I must admit that in my case it was the cover art that drew me in and the blurb further convinced me to give this story a listen. In the end, I'm glad I did as it was a fun romance that fit in perfectly as a breath of fresh air in between my more typical serious romantic listens (as I'm a big fan of romantic suspense and UF romances). Additionally, the adept narration by dual narrators Justine Eyre and Alan Smyth makes this a great title to experience in audiobook format.

*Dating the Undead* is set in London in a present day alternate world where vampires are real and out of the closet. Logan Byrne, the hero, is an Irish vampire that was turned two hundred years ago when he contracted Colera. Silver Harris, the heroine, meets Logan at a New Year's party and they feel an instant attraction which is further energized by a memorable bite. Silver, however, being the ultra careful modern woman, has Logan drop her off at a random address, so he is unable to find her, even though they both come to regret that decision.

Fortunately they are both tasked on opposite missions related to a brand new online dating site that connects vampires and humans as potential love matches, called V-Date. Silver's mission is to spy on the vampires and learn as much intel as possible on their habits and traits. Logan, on the other hand, is asked to glamor the human dates so that they think they had a great time and have nothing but great things to say about V-Date even if they will no longer feel the need to date vampires. But when Logan spots that his first glamor prospect is Silver, his heart is conflicted. He knows if he doesn't obey the powerful vampire that gave him this mission that it could prove disastrous for him. On the other hand, he already knows that his heart couldn't bear it if he turned Silver away from a possible future with him.

The dual narration by Justine Eyre and Alan Smyth works well to highlight the point of view being shared in the particular chapter. Ms. Eyre narrates the chapters from Silver's perspective and Mr. Smyth the ones from Logan's POV.

I have previously listened to Ms. Eyre so I knew she would do great with the comical lines. As expected, she excelled on this front. Ms. Eyre also did a good job of varying her pitch to produce believable gender appropriate characters and even managed to create good accents for the characters, including Logan who is Irish.

This was my first experience with Mr. Smyth and I really enjoyed it. Mr. Smyth has a pleasing voice and he

also did well with delivering the tongue-in-cheek humor. Mr. Smyth also had a great Irish accent which made his performance of Logan's parts sound very natural.

All in all, I enjoyed *Dating the Undead* though I must admit that there was a lot going on in the story plotwise, some of which didn't neatly tie together in my head. For example, in today's modern age of technology with cell phones why would dropping off someone at the wrong address alone lead you to not being able to find them? And then there's the fact that a vampire like Logan who can tell if you're lying should have known of this deception and sought an alternate means to contact Silver in the future. These types of things notwithstanding, I did enjoy the fun, passionate and humorous interactions between Silver and Logan. So in the end if you're just looking for a light, fun listen, and you enjoy vampire, humorous PNR titles, then *Dating the Undead* may just be the book you're looking for.

### **Minx -The Genre Minx Book Reviews says**

*Dating the Undead* is a romance with plenty of zing! After a brief run in with vampire Logan Byrne on New Year's Eve, Silver Harris decides that she is sick of dating ordinary guys and wants something different. After all she is the kind of girl to only have one date so she needs plenty of choices. When her step-sister brings up the idea of v-date, a dating service that caters to the undead and mortals, Silver is all in. I loved how the vampires were portrayed in this story. They were sexy as all get out but the vampires that Silver dated were pretty boring. I found it nice that the vampires were shown as something other than irresistible. It was a break from the norm and I liked it.

Logan has an interesting background as a vampire who has never had his heart all tied up with a mortal. In fact, Logan has never had interest in getting to know anyone. For a long time, he was a virtual slave to his maker and that has left a bad taste in his mouth and in no mood for attachments. This makes him the perfect guy to infiltrate the v-dating service and find out what the members are reporting back to the authorities. Logan's boss has complete faith that Logan will not lose his senses over a human, too bad he did not know the affect that Silver has on Logan.

After his chance meeting with Silver, Logan just cannot seem to get her out of his mind. He understands he is supposed to make her forget what she knows about vampires but that would also mean that she would forget about him as well. Torn, but in the end, he decides his desire to know Silver outweighs the directive from his boss. Her pull on his senses perplexes and entices him. He's not sure what he wants with her but at the very least he knew he wanted her. Swoony, swoony!

This is not your typical vampire paranormal romance. Yes, there are plenty of sexy times between these characters. It is a very steamy read, for sure, but there is more to the story. There is a whole good versus evil vibe and it is not all good times. Someone is out to harm Logan and they have their sights set on destruction. This leads to great conflict in the story and some battles (yay). I loved the idea of the ancients creating the

vampires and there is also a twist at the end that was quite surprising and I found that I enjoyed it. A really great read!

This review is based on a complimentary book I received from NetGalley. It is an honest and voluntary review. The complimentary receipt of it in no way affected my review or rating.

Find this review and more at [The Genre Minx Book Reviews](#)

## **Witchy says**

Ramblings:

Logan's 176 yrs. older than Silver. He's 200. She's 24. I suppose this gives a whole new slant to the May-December romance trope. Luckily, this "December" is a green-eyed hot Irish vamp. Allowances ~~should~~ must be made!

Summary:

Silver Harris will stop at nothing on her quest for answers. The search into her mother's disappearance plunges Harris into the unpredictable world of online dating. She'll meet **Mr. Dead Wrong** and date her way to **Absolutely Not!** It's only when she meets Logan that she reassesses [did I spell that right?] her dating standards. Just because he's clinically dead, older by 176 yrs., and works to-die-for dimples shouldn't mean they can't make it work. The aforementioned is not the problem. It's the secret she's hiding from him, that is!

Review:

*Dating the Undead* is the first installment in the *Bite Night* series written by author Juliet Lyons. I loved this uber funny story "so much"-I'm calling it a re-read. What's not to love? There's a heroine escaping windows to evade bad dates, a 90 yr. old woman who wields a meat cleaver like Thor with a hammer, and one freaky-creepy scene involving a dead vampire who refuses to just die already! The novel promises to give romance readers what they all hope to find: a falling-in-love story that'll leave them smiling for days. The question now is, "What will I do until Feb. when book three releases?" You guessed correctly if you said: **re-read it!**

You'll like this story if:

- #1 You love the paranormal romance subgenre
- #2 Think you can reform a bad boy
- #3 Want to see if Silver reforms an Irish one
- #4 Love funny stories that'll make you feel good
- #5 Enjoy reading about falling madly in love

Disclosure:

I purchased the ibook, and then bought the paperback at B&N. Now that I've read it-I'm glad I did both!

## **Marta Cox says**

Three and a half

Ok I spotted this and had all manner of expectations. Some were fulfilled and others not. I really liked the idea of a modern , independent woman living in London and certainly Silver is an interesting up for anything character. The idea of a dating site introducing vampires to humans in this post revelation era also ticked my boxes as I loved the idea that someone normally considered irresistible would need help looking for partners. Yes the author certainly knows how to engage her readers interest. Now add in green eyed Irish vampire Logan, with a murky history and the stage is set for a romance that's steamy, funny and unfortunately about to get very tangled up indeed !

Without giving too much away Silver is helping the authorities discover as much as they can about the now out of their closet vampires and this really didn't work for me . Unfortunately I couldn't quite understand why Silver got the gig as I would normally expect the police to use their own undercover operatives. That oddity aside it was fun seeing Silver and Logan tangle with each other and I have to admit their romance was written in a refreshing and contemporary manner which really suited the two characters. Silver isn't someone who is backwards in coming forwards and pairing her with dirty minded Logan worked . Less you think it's just sexy shenanigans I have to point out that the author found a way to show that Logan came from a different era and his idea to woo Silver was very sweet.

So I've covered the basic romance but it's more than that as we are given a whole new idea about vampires and their society. Unfortunately this didn't feel as realistic as I wanted and I really felt the plot should have matched the time this couple spent exploring each other. We do meet characters who I'm sure the author will revisit but I just wanted more action . That being said it's the first book in the series so it's hard to fully flesh out a different way for vampires to exist without giving a long history so I hope the next book will add to the world building and hopefully have a really engaging story.

This voluntary review is of a copy I sought from Netgalley and is my honest opinion

### **Lana \*Lifeinwordsandlyricscom\* says**

If books were flavors this one would be vanilla. And don't get me wrong, vanilla is a nice enough flavor, a lot of people love vanilla. Personally, I'm a mint-chip kind of girl so you see my problem.

---

### **Dash fan says**

5? Dating with Bite

When I see the cover for Dating the Undead I loved it... the blurb was exciting.  
It didn't disappoint!

The whole concept for a vampire dating site where humans and Vamps can meet & mix is fantastic... it's fresh, and so different from the "normal" dark vampire books.

V-Date is the name of the Vampire dating service.

However it does attract attention from all kinds of people... including those with influencing power! As to why they have an interest.... well all will be revealed!

So when Silver joins up to meet her Vamp, she never believes she will meet Logan again.

He's sexy, hot and intriguing!

Both feel a connection instantly..... was it by chance Logan is to meet Silver again or just fate??

Dating the Undead kept me hooked the whole way through.

There is so much packed into the first book it's exciting, plenty of twists to keep the reader enthralled.

Lots of chance encounters, plenty of risks, an undercover plot, sizzling passion and sexy vamps.... what more could you need!

I loved Silver, she has a lot of determination and isn't scared easily. Her fear of nothing often got her into plenty of mishaps which was great!

She was the perfect female lead. Her character had me laughing out loud many times throughout the book, with her no filter, Witty attitude.

Logan was everything you want from a sexy vamp. He was mysterious, but had a kind heart, he oozes masculinity, yet he was charming, and the spark between Silver and Logan was sizzling.

Plenty of steamy sex scenes to get your pulses racing!

Can't wait for book 2. I have a strong feeling this series is going to be a big hit!

Would I recommend this book..... 100% YES!!!

A fresh and exciting new Vamp book. I love reading new vampire books with a difference.

This one is no exception it has it all a mix of fresh new Vamp action and the charms of the old school vamp ie, glamourising humans to forget!

I Recommend to readers who love Vampire books, fantasy, Paranormal Romances, Strong lead characters.

I received this book from the Publisher in exchange for a honest and fair review via Netgalley.

---

### **(Tori-Smexybooks) smexys\_sidekick says**

Review originally posted in May issue of RT Book Reviews

Juliet Lyons' debut paranormal romance is a madcap adventure of biting humor, steamy chemistry, eclectic characters, and some over the top antics. A strong and personable heroine delights as she navigates her way through the treacherous waters of online dating. A steamy romance balances well with the intrigue and suspense though some plotlines fizzle out while others seem to take the longest route possible to resolution. Disappointment occurs when an obvious *deux ex machina* is used to resolve the conflict and force a happily ever after.

---

### **Dianne says**

Who knew that the New Year's Eve from Hell would broaden Silver's dating horizons beyond the norm and into the world of V-Date, the online dating service that pairs humans and vampires? Leave it to London to be on the cutting edge of romance and leave it to Silver to fall for a vampire with more kindness and humanity

in his left fang than the humans she has known.

Like the Princess who had to kiss a few frogs before finding her Prince, Silver is determined to find the vampire of her dating dreams. Unlike the princess, Silver isn't the epitome of grace and gentility, but she is a laugh a minute, as the cyclone that is her brain takes us on a journey into her mind, heart and attitude.

Logan's kiss is magical, his charm and kindness is swoon-worthy and once you try vampire, you can't go back, right? Then again, Silver isn't one to do things by half and soon she is in over her head and in a race for her life, her heart and her blood with Logan by her side, as they are hunted by demons intent on making Logan pay for his past.

...And to think, it all started with Silver's temper, an alcoholic shower, a swift kick to the family jewels and a chance meeting with a vampire...talk about ringing in the New Year with a bang! Who knew she may have found the love of her life?

**DATING THE UNDEAD** by Juliet Lyons had me laughing out loud with the antics of Silver! I had times when I wondered if she had a death wish she didn't know about! She is brash, gutsy and pretty much clueless to the real dangers of playing with sharp objects. She would have surely perished without Logan lurking in the background. Humor, angst, attitude, romance and heat, it's all in here!

I received an ARC edition from Sourcebooks in exchange for my honest review.
